GLOBAL TUNGSTEN & POWDERS CORP. SAVINGS AND RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of Global Tungsten & Powders Corp. Savings and Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code and is sponsored by Global Tungsten & Powders Corp. (the Company). The Plan is funded by participant and employer contributions and covers substantially all eligible employees. An employee is eligible to participate in the Plan upon hire date. A temporary employee is eligible to participate in the Plan after completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The assets of the Plan are maintained in investment funds held by Principal Life Insurance Company (Principal) who also serves as the third party administrator.

Contributions: Each year, participants may contribute up to 25% of pretax annual compensation, as defined in the Plan. In addition, participants may contribute employee after-tax contributions up to 25% of compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis. Contributions are subject to certain limitations.

Participants who do not complete a salary deferral agreement are automatically enrolled in the Plan. The Plan automatically withholds 3% of these participant's compensation as a salary deferral. Participants may change their deferral agreement at any time or elect not to defer in the Plan.

The Company contributes a matching contribution of 50% of a participant's deferral up to a maximum of 6% of base compensation. The Company, at their discretion, also contributes an employer retirement contribution based on a participant's years of continuous employment.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 40% vested in employer matching contributions and employer retirement contributions after two years of continuous employment, as defined, with a 20% increase in each of the next three years. In the event of death or disability, the participants will become fully vested in their account.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years or up to a reasonable period of time for purchase of a principal residence. The loans are secured by the participant's account and bear interest at prevailing commercial rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly or bi-weekly payroll deductions.

Benefit Payments: Participants (or their beneficiaries) are eligible to receive vested benefits upon retirement, death, permanent disability, upon attainment of age 59½, or when they cease to be an employee of the Company. In addition, a participant can withdraw all or any portion of his or her elective contributions and rollover contributions in the event of financial hardship. The normal form of benefit payments are made in the form of a lump-sum distribution.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures: At February 28, 2014 forfeited nonvested accounts totaled \$160,262 (\$39,660 – 2013). Amounts forfeited by participants are available to offset the Company's matching contribution or to pay administrative expenses. Forfeitures used to offset the employer matching contribution for the year ended February 28, 2014 amounted to \$23,000 (\$23,084 – 2013).

Plan Termination: Although it is the expressed intention of the Company to continue the Plan for an indefinite period of time, the Company reserves the right to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, each participant would become entitled to their participant account balance.

Reclassification: Certain 2013 financial statement amounts have been reclassified to conform with the 2014 financial statement presentation.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts owned by a common collective trust. The Statements of Net Assets Available for Benefits presents the fair value of the common collective trust investment as well as the adjustment from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of February 28, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: Investment fees and administrative expenses are paid either by the Plan or the Plan sponsor.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the Statements of Net Assets Available for Benefits.

Subsequent Event: These financial statements have not been updated for subsequent events occurring after December 8, 2014 which is the date these financial statements were available to be issued.

NOTE 3. INVESTMENTS

The following table presents individual investments that represent more than 5% of the Plan's net assets available for benefits as of February 28, 2014 and 2013:

(A) The contract value of the fund at February 28, 2014 amounted to \$19,438,307 (\$18,742,199 – 2013).

* Investment balance did not meet the 5% threshold at the respective year end, however was shown for comparative purposes.

During the years ended February 28, 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	<u>2014</u>	<u>2013</u>
Shares of registered investment companies	\$ 8,374,387	\$ 3,219,643

NOTE 4. FAIR VALUE MEASUREMENTS

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 28, 2014 and 2013.

Cash and cash equivalents: Valued at cost plus accrued interest. Cash and cash equivalents are classified as level 1 investments.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as level 1 investments.

Common/collective trust: Valued based on the NAV per unit of the fund provided by the trust. Unit values are determined by dividing the fund's net assets, which represents the fair value of the underlying investments, by its units outstanding at the valuation date. The Principal Stable Value Fund is a stable value fund. The fund invests principally in guaranteed interest contracts (GICs) issued by insurance companies, investment contracts issued by banks, synthetic investment contracts (SICs) issued by banks, insurance companies and other issuers, and securities supporting such SICs, and other similar instruments which are intended to maintain a constant net asset value. The fund's underlying investments seek to preserve capital and provide a competitive level of income over time that is consistent with the preservation of capital. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The common/collective trust is classified as a Level 2 investment.

Common stocks: Stated at fair value as measured by quoted market prices in an active market on which the individual securities are traded. Common stocks are classified at level 1 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated November 8, 2010, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Administration Committee believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of February 28, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process. The Administrator believes it is no longer subject to income tax examinations for years prior to 2011.
