ACOSTA, INC. 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN:

The following description of the Acosta, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, adopted effective September 30, 1961, amended and restated January 1, 2012, is a defined contribution plan covering all employees of Acosta, Inc. (the Company or Employer). Full-time employees are eligible to participate in the Plan at the time of employment; part-time employees are eligible after six months of employment. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA), as amended.

Effective March 1, 2013, the Plan was amended to allow transferred employees, who were participating in another defined contribution plan of the Employer or related employer, and become ineligible to participate in the other plan due to such transfer to the Employer, to transfer their entire account balances to this plan. If the vesting schedule of the transferring plan is more favorable than this plan's vesting schedule, the transferring plan's vesting schedule applies to transferred account.

Contributions

Participants may contribute a percentage of pre-tax annual compensation, as defined in the Plan agreement, up to the maximum amount permissible by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company matches 50% of participant contributions, up to 6% of the participant's eligible compensation. The Company may also make discretionary qualified non-elective contributions and additional discretionary matching contributions in an amount to be determined by the Company. Additional discretionary matching contributions should not exceed 50% of the Company's matching contribution. Company matching contributions, discretionary non-elective contributions, and additional discretionary matching contributions are recorded annually. Company discretionary qualified non-elective contributions and additional discretionary matching contributions were not made during 2013 or 2012.

1. DESCRIPTION OF PLAN (CONTINUED):

Participant Accounts

Each participant's account is credited with the participant's contribution, Company matching contributions, and Plan earnings or losses. Investment earnings are based on the participants' account balances and their investment elections, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions, rollover contributions, and Company discretionary qualified non-elective contributions plus actual earnings thereon. Vesting in Company matching contributions and additional discretionary matching contributions is based on years of service on the following graduated scale:

<u>Years of Service</u>	<u>Vesting Percentage</u>
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$383,379 and \$212,999, respectively. These accounts will be used to either reduce future Employer contributions or expenses related to the administration of the Plan. For the years ended December 31, 2013 and 2012, \$382,247 and \$349,663, respectively, of forfeited balances were used to reduce Employer contributions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the vested portion of their account, a distribution in the form of an annuity, installment payments or a combination of these payment options. Participants are allowed to make in-service withdrawals from their fully vested account balances upon reaching the age of 59 ½. The Plan also permits hardship withdrawals, in accordance with provisions specified in the Plan agreement.

1. DESCRIPTION OF PLAN (CONTINUED):

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants that had outstanding loans prior to January 1, 2007 are allowed to take out an additional loan as long as the total balance of all outstanding loans meets the above limits. Participants that did not have an outstanding loan as of January 1, 2007 are allowed to have one outstanding loan at a time. Loans are calculated on a fully amortized basis. Loan terms are not to exceed five years, unless for the purchase of a principal residence. Loans that were outstanding prior to January 1, 2007 shall be repaid in accordance with the original terms of the loan. The loans are collateralized by the balance in the participant's account and bear interest at the prime lending rate plus 2% as of the beginning of each month. Principal and interest are paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowances for credit losses have been recorded as of December 31, 2013 and 2012. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan agreement.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Investment Valuation and Income Recognition (Continued)

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common collective trusts. The statements of net assets available for benefits present the fair value of the investments in the common collective trusts as well as the adjustment of the investments in the common collective trusts from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Administrative Expenses

The Plan is responsible for payment of expenses; however, the Company may elect to pay certain Plan expenses directly. Fees related to the administration of notes receivable and in-service withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to employee contributions. Excess deferrals of \$-0- and \$131,884 were reduced from employee contributions for the years ended December 31, 2013 and 2012, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

3. FAIR VALUE MEASUREMENTS (CONTINUED):

Common collective trusts (CCT) – The Plan invests in a stable value CCT. The fair value of participation units held in the stable value CCT are based on NAV after adjustments to reflect all investments at fair value, including direct and indirect interests in fully-responsive contracts. The stable value CCT generally permits participant-directed withdrawals on any business day. The stable value CCT requires a 12-month notice for liquidation of the underlying assets in the case of any nonparticipant directed withdrawals. An example of a nonparticipant directed withdrawal is if the Company decided to change trustees. There are no unfunded commitments to the stable value CCT. The fair value of the Plan's interest in the stable value CCT is based on quoted market prices in active markets and securities and contracts are valued using observable inputs. The Plan is permitted to redeem investment units at NAV on the measurement date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value, as of December 31, 2013:

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value, as of December 31, 2012:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

The methods describe above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator has elected that information certified by the trustee not be subjected to any auditing procedures except for comparing such information to the related information contained in the accompanying financial statements and supplemental schedules. 5. INVESTMENTS (CONTINUED):

During the years ended December 31, 2013 and 2012, the Plan's investments in mutual funds and common collective trusts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$56,778,130 and \$23,717,849, respectively, as follows:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 55,954,173	\$ 23,198,189
Common collective trusts	<u>823,957</u>	<u>519,660</u>
Total	<u>\$ 56,778,130</u>	<u>\$ 23,717,849</u>

The Plan holds an investment in the Wells Fargo Stable Return Q Fund, which is a stable value collective trust fund managed by Wells Fargo Bank N.A. The fund invests primarily in guaranteed investment contracts (GICs), security-backed investment contracts, and separate account GICs issued or wrapped by insurance companies, banks or externally managed stable value commingled investment funds.

The Wells Fargo Stable Return Q Fund had an average yield of 1.36% and 0.94% for the years ended December 31, 2013 and 2012, respectively. The blended net crediting interest rate was 1.52% and 1.95% for the years ended December 31, 2013 and 2012, respectively.

6. PARTIES-IN-INTEREST TRANSACTIONS:

Certain Plan investments in mutual funds are managed by Fidelity Management Trust Company (Fidelity). Fidelity also performs recordkeeping and trust services through various related entities and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Fidelity by the Plan for administrative services amounted to \$187,082 and \$55,626 for the years ended December 31, 2013 and 2012, respectively.

The Newport Group Securities (Newport) serves as an advisor to the Plan and is considered a party-in-interest. The Plan paid \$179,421 and \$34,226 to Newport for the years ended December 31, 2013 and 2012, respectively.

The Plan issues notes to participants, which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

7. INCOME TAX STATUS:

The IRS has determined and informed the Company by a letter dated November 18, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer contributions.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. PROHIBITED TRANSACTIONS:

As described in the Schedule of Delinquent Participant Contributions (included in the supplemental information), the Employer did not remit certain contributions to the Plan in a timely manner, as defined by ERISA. These instances were corrected during 2013 and relate to the year ended December 31, 2012. These contributions are considered non-exempt party-in-interest transactions, which resulted in an imposition of a 15% excise tax on the amount of the transactions, which the Employer has remitted. The tax status of the Plan is not affected by these non-exempt transactions and the Employer intends to pay all fines that may be imposed.
