NOTES TO FINANCIAL STATEMENTS

Note 1 Description of the Plan

The following description of the A. L. Gilbert Company Profit Sharing and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a participant-directed defined contribution plan covering all employees of A. L. Gilbert Company (the Company) who have at least one year of service and 1,000 hours of service and are not covered by a collective bargaining agreement, unless the agreement provides for inclusion in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The Board of Directors is responsible for the oversight of the Plan.

The Plan was amended, effective March 1, 2013, to allow for the inclusion of employees of a recently acquired wholly owned subsidiary of the Company.

Contributions The Company contributes to the plan an amount determined by the Board of Directors. Participants are neither required nor permitted to make contributions.

Participant Accounts Each participant's account is credited with an allocation of (a) the Company's contribution, (b) plan earnings, and (c) forfeitures of terminated employees' non-vested account balances remaining after any plan expenses have been paid. Allocations are based on participant compensation or account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable from Participants The Plan does not allow participant notes receivable.

Payment of Benefits Upon death, disability, attaining 59½ years of age, or termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount.

Vesting A participant's vesting in their account is based on years of credited service. A participant becomes 100 percent vested after six years of credited service.

Forfeitures The portion of each participant account that is non-vested is forfeited when (a) a distribution of the vested portion of the account occurs, or (b) at the end of the Plan year during which the former participant incurs the fifth consecutive one-year service break after termination. Forfeited account balances are eligible to pay certain plan expenses. Any forfeitures remaining after payment of the expenses are allocated to active participants' accounts when the next allocation occurs. The forfeited amount held at February 28, 2014 was $1,532. There were no forfeited amounts held at February, 28, 2013.

Administrative Expenses Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Most administrative expenses are paid directly by the Company.

Note 2 Summary of Accounting Policies

Basis of Accounting The Plan maintains its financial statements and accounting records on the accrual basis of accounting.

Investment Valuations and Income Recognition The Plan's investments are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recent Accounting Pronouncements On July 8, 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-09, Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04, which was effective upon issuance. The amendments in this Update defer indefinitely the effective date of certain required disclosures in Update No. 2011-04 (Topic 820) of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in the plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this Update do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. This Update No. 2013-09 has been adopted and reflected in Note 7.

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of this Update was not significant to these financial statements.

Risk and Uncertainties The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' accounts and balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits The Plan records benefits when paid. Total vested benefits due to terminated and retired participants but not paid was $3,615,799 as of February 28, 2014.

Accounting for Uncertainty in Income Taxes Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the appropriate taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.

Note 2 Summary of Accounting Policies (Continued)

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Subsequent Events In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through December 12, 2014, the date the financial statements were available to be issued.

Note 3 Investments

Investments that represent five percent or more of the Plan's net assets as of February 28, 2014 are separately identified as follows:

American Funds - New Perspective Fund	$5,967,597
American Funds - American Balanced Fund	4,764,011
American Funds - Investment Company of America	5,854,295

American Funds - American Balanced Fund	4,342,550
Pioneer Bond A Fund	1,134,325
American Funds - Investment Company of America	4,705,448
Oppenheimer Developing Markets - A Fund	1,370,828
American Funds - Money Market A	1,803,460

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	$2,734,482

Note 4 Transactions with Parties-in-Interest

MG Trust Company, LLC, the Plan's trustee, Digital Retirement Solutions, the Plan's third party administrator, Financial Network Investment Corp., the Plan's registered investment advisor, and Atherton & Associates, LLP, the Plan's auditor, are parties-in-interest according to Section 3(14) of ERISA.

Note 5 Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at February 28, 2014 and 2013. Following is a description of the valuation methodologies used for assets measured at fair value.

Note 7 Fair Value Measurements (Continued)

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Money market funds: Determined using a market approach and is based upon unadjusted quoted prices for identical assets in active markets.
