NOTE 1 - Description of the Plan

The following description of the Zacks Investment Research, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Users of these financial statements should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Zacks Investment Research, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). All employees who have completed at least one month of service with the Company, as defined in the Plan document, and are age 21 or older are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of various investment options. Effective March 1, 2014, an eligible employee that has not made an affirmative election regarding Plan participation will be automatically enrolled into the Plan.

Contributions

Participants may contribute up to 85% of pretax annual compensation (salary reduction contributions), as defined in the Plan document, not to exceed the maximum annual amount as permitted by the Internal Revenue Code ("IRC"). Effective March 1, 2014, automatically enrolled participants will begin deferring 3% of pretax annual compensation. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Catch-up contributions are also allowed for participants who have attained the age of 50 before the end of the Plan year.

The Company, at its sole discretion, may make a contribution on a year-by-year basis to accounts of participants employed as of the end of the Plan year. The Company does not intend to make any profit sharing contributions to the Plan and no contributions were made for the year ended February 28, 2014.

Participants in the Plan may contribute a portion of their salary to the Plan as a Roth 401(k) contribution. These contributions will be subject to current federal income taxation. However, qualified distributions from a Roth 401(k) account, including investment earnings and growth on that account, will not be subject to federal income tax.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, Roth 401(k) contributions, rollover contributions and an allocation of the Company's contributions and Plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their salary reduction plus earnings thereon.

Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan document, are considered 100% vested.

NOTE 1 - Description of the Plan (cont.)

Forfeited Accounts

There were no forfeited nonvested accounts as of February 28, 2014 or 2013. These accounts would be used to reduce future Company contributions.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at age 65, but not before the fifth anniversary of a participant's entry date. In-service distributions are only allowed after attaining the age of 59-1/2. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the Plan document.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of the ERISA. In the event of Plan termination, participants will become 100% vested in their Company accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. These loans are secured by the balance in the participant's account. The loans bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator and at various maturities from 2014 through 2028. Principal and interest is paid ratably through regular monthly payroll deductions.

Administrative Expenses

The Plan pays almost all of the administrative expenses including custodian contract administration fees, third party administrator service fees and participant generated transaction fees.

Reclassification

For comparability, certain February 28, 2013 amounts within Note 4 - Fair Value of Financial Instruments have been reclassified to more accurately reflect each investment in its proper fair value level.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The units of pooled separate accounts are presented at fair value based on the Net Asset Value ("NAV") per share of the underlying securities. In cases where the fair value of the investments is not readily available, the NAV per share is used as the practical expedient, unless it is probable the investment will be sold at something other than the NAV. NAV is determined by taking the fair market value of the investment or aggregate fair market value of the underlying securities. Notes receivable from participants, for which there is no market, are measured at their principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms in the Plan document.

Net appreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. The Custodian's short-term trading policy permits a participant a maximum of two exchanges per calendar month. After the exchange limit, participants may move 100% of their account to the money market fund where it must remain for 30 days. Trading can resume only once the 30 days have expired. In addition, the Domini Social Equity Fund has a 30 day holding period and participants are charged a 2.00% fee upon redemption if the holding period is not satisfied.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - Information Prepared and Certified by Custodian (Unaudited)

All investment information disclosed in the accompanying financial statements and supplemental information, including investments held at February 28, 2014 and 2013, and net appreciation in fair value of investments, interest, dividends, and investment expenses for the year ended February 28, 2014, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.), the Custodian of the Plan.

	2014		2013	
Investments, at fair value				
Units of pooled separate accounts:				
500 Index Fund	1,173,305	*	1,097,928	*
Money Market Fund	681,777	*	557,354	*
Lifestyle Aggressive Fund	698,180	*	633,016	*
Lifestyle Growth Fund	438,854	*	350,810	*
Total investments not shown above	5,438,438		3,949,540	
Total Investments	$ 8,430,554		$ 6,588,648	
Notes Receivable from Participants	$ 85,789		$ 53,645	

* Investments that represent 5% or more of the Plan's net assets available for benefits.

During the year ended February 28, 2014, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Net appreciation in fair value:	
Pooled separate accounts	$ 1,296,214
Net investment return certified by Custodian	$ 1,296,214
Interest on notes receivable from participants	$ 2,962

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used as of February 28, 2014.

Pooled Separate Accounts - Pooled separate accounts ("PSA") are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. Each fund is managed to meet a defined level of risk and expected return. The units of pooled separate accounts are valued at the number of units of the respective account multiplied by the closing NAV per unit as determined and published on a daily basis by the manager of the sub accounts. The separate accounts are classified as Level 2 assets as they hold investments with readily determinable inputs.

The Company is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Company has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The investment objectives of the pooled separate accounts are as follows:

(1) Large-cap equity funds - Seek investment return from capital appreciation. Funds typically invest 80% or more of capital in equity securities of the 500 largest US firms. Investments in large-cap stocks carries the risk that in certain markets large-cap stocks will underperform small-cap or mid-cap stocks.

(2) Lifestyle and balanced funds - Seek preservation and growth of capital primarily through investments of equity and fixed income securities. The funds' abilities to achieve its investment objective will depend largely on the ability of the sub adviser to select the appropriate mix of underlying funds and on the underlying funds' ability to meet their investment objectives.

(3) International equity funds - Seek investment return primarily from capital appreciation in non-US equity holdings. Funds may invest up to 100% of their portfolios in equity securities. International securities involve special risks, including potentially unfavorable currency exchange rates, limited government regulation (including less stringent investor protection and disclosure standards) and exposure to possible economic, political and social instability.

(4) Money market fund - Seeks to provide high current return, consistent with preservation of capital and liquidity and the maintenance of a stable $1.00 net asset value per share, through investment in high-quality money market instruments. Although the fund strives to maintain a positive yield, there is no guarantee the fund will be able to do so.

(5) Mid-cap equity funds - Seek investment return from capital appreciation. Funds invest primarily in stocks of domestic mid-cap growth companies. Investments in mid-cap companies are subject to more erratic price movements than investments in larger, more established companies. In particular, mid-sized companies may pose greater risk due to narrow product lines, limited financial resources, less depth in management or a limited trading market for their securities.

(6) Sector funds - Seek to provide investors with high total return, consisting of long-term capital appreciation and current income. Investments are concentrated in a particular industry or sector of the economy (e.g., real estate, technology, financial services). Funds concentrating in a particular industry sector tend to be more volatile than other mutual funds, and the values of their investments tend to go up and down more rapidly. A fund that invests in a particular industry or sector is particularly susceptible to the impact of market, economic and regulatory factors.

(7) Fixed-income and bond funds - Seek to maintain safety of principal while generating a level of income. Funds typically invest at least 65% of assets in a diversified portfolio of fixed-income investments. Fixed-income securities and bonds are subject to credit risk and interest rate risk.

(8) Small-cap equity funds - Seek long-term capital growth primarily from investing in US domestic companies with market capitalization's equal to or less than the largest stock in the Russell 2000 Value Index. Funds typically invest 80% to 100% in equity securities. Investments in smaller companies are subject to more erratic price movements than investments in larger, more established companies. Small-cap companies may be developing or marketing new products or services for which markets are not yet and may never become established. Although small, unseasoned companies may offer greater opportunities for capital growth than larger, more established companies, they also involve greater risks and should be considered speculative.

NOTE 5 - Parties-In-Interest

Certain Plan investments are units of pooled separate accounts managed by John Hancock Life Insurance Company (U.S.A.) the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Recordkeeping fees, Plan administrator service fees and transaction fees are paid by the Plan to the Custodian, and are recorded as administrative expenses on the statement of changes in net assets available for benefits. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

NOTE 6 - Amount Owed to Participants Withdrawing From the Plan

There were no amounts owed to participants who have withdrawn from the Plan as of February 28, 2014 or 2013.

NOTE 7 - Related Party

Certain broker services provided to the Plan were compensated with commissions which qualify as related party transactions. Commissions paid by the Plan for these services were $16,028 for the year ended February 28, 2014, and are recorded as administrative expenses on the statement of changes in net assets available for benefits.

NOTE 8 - Tax Status

The E.R.I.S.A. Inc. volume submitter profit sharing plan document, which was adopted by the Plan, obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 28, 2014 and February 28, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 9 - Prohibited Transactions

During the year ended February 28, 2013, the Plan sponsor failed to remit certain employee contributions to the Plan on a timely basis, which is a prohibited transaction under the ERISA. During the year ended February 28, 2014, the Plan sponsor has calculated the lost earnings owed to the participant and has contributed that amount to the Plan in order to correct the prohibited transaction.

NOTE 10 - Subsequent Events

The Plan has evaluated subsequent events through December 12, 2014, which is the date that the financial statements were approved and available to be issued, for events requiring disclosure in the Plan's financial statements. As of December 12, 2014, other than any items discussed in the footnotes above, there were no subsequent events which required recognition or disclosure.
