INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
AES Drilling Fluids 401(k) Plan
Houston, Texas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of AES Drilling Fluids 401(k) Plan, which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 5*, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

To the Plan Administrator of
AES Drilling Fluids 401(k) Plan
Re: Independent Auditors' Report

Disclaimer of Opinion

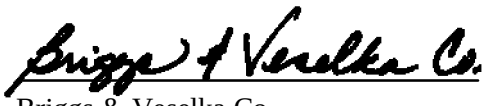

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements referred to in the first paragraph.

Other Matter

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF PLAN

AES Drilling Fluids 401(k) Plan (the Plan) is a qualified retirement plan adopted by AES Drilling Fluids, LLC (the Company) on January 1, 2013 to provide employees with the opportunity to save for retirement on a tax-advantaged basis. The Plan is administered by the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The summary of significant provisions of the Plan presented below provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Eligibility – All non-excluded employees of the Company, who are at least age 21 and have completed one month of service, are eligible to participate in the Plan. Eligible employees will become a participant on the first day of the month following the completion of the eligibility requirements.

Contributions – Participants may elect to defer from 1% to 90% of their eligible pay every pay period as an elective deferral, not to exceed an annual dollar limit which is set by law. Under the Plan, participants are able to make two kinds of elective deferrals, pre-tax elective deferrals and Roth elective deferrals. Participants who are projected to reach age 50 during a calendar year will be eligible to make a catch-up contribution at any time during that calendar year. Participants can request that changes be made to their elective deferrals and investment options each business day.

The Company will make a matching contribution equal to 100% of a participant's elective deferrals, not to exceed 6% of their eligible compensation. Participants must make elective deferrals in order to receive the matching contribution.

The Company may also decide to make a nonelective contribution to the Plan, although the Company is not required to do so. The nonelective contribution will be allocated to all employees eligible to participate in the Plan. Eligible employees must be a participant employed by the Company on the last day of the Plan year to receive this allocation. A participant's share of the nonelective contribution is in proportion to their eligible compensation compared to the eligible compensation of the other employees who will also share in the contribution. For 2013, the Company did not make a nonelective contribution.

Participants may make a rollover contribution of benefits, in cash, from an eligible retirement plan to this Plan.

Participant Accounts – Each participant's account is credited with the participant's contributions, Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – Participants direct the investment of their entire interest in the Plan into various investment funds held in a trust created under the Plan. Each of the investment funds that are offered has different investment objectives. The Plan currently offers two collective trust funds and various mutual funds as investment options for participants. Participants may change the investment of their future contributions or reallocate/transfer their current account balance each business day.

Vesting – Participants are always 100% fully vested in their elective deferrals, rollovers, and any earnings or losses thereon. Vesting in Company matching and nonelective contributions is based on a four year vesting schedule. After one year of service, a participant receives a 25% vested percentage in their account for each year of service and becomes 100% vested after four years of service.

Payment of Benefits – Upon termination of employment, normal retirement, disability or death, a participant may receive a distribution of their vested benefit in a single lump sum payment or have the payment paid as a direct rollover to an individual retirement account (IRA) or to another employer's tax qualified plan. If a participant's vested account balance does not exceed $5,000, then their vested account balance will be paid in a single lump sum. If a participant is determined to be cashout-eligible and they fail to make a distribution election, the portion of their account balance attributable to their Roth elective deferral account and Roth rollover contribution account, if any, will be automatically rolled over to a Roth IRA established by a Roth IRA provider selected by the administrator if that portion is greater than $1,000. The remaining portion of a participant's account balance will separately rolled over to a traditional IRA if that portion is greater than $1,000. If either portion is less than $1,000, it will be distributed to the participant in a lump sum.

Participants may withdraw all or part of their vested account balance once they have reached age 59½. In the event of a financial hardship, participants may withdraw their own elective deferrals if they are able to show that they are suffering an immediate and heavy financial hardship and that the money cannot be obtained from any other source.

Forfeited Accounts – If a participant terminates employment before becoming 100% vested in their account balance, the non-vested portion of their account balance will be forfeited. At December 31, 2013, the forfeited non-vested account totaled $10. During 2013, $3,884 in forfeitures were used to reduce Company matching contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid. As of December 31, 2013, there were no amounts allocated to participants who have terminated from the Plan, but have not been paid.

Administrative Expenses – The administrative fees charged by the Plan's recordkeeper and trustee are allocated pro-rata amongst the account balances of all participants in the Plan based on the ratio of each participant's account balance to the aggregate of all participants' account balances under the Plan. However, if a participant requests or receives a distribution of all or a portion of their account balance, administrative fees that are charged by the Plan's recordkeeper for the processing of these transactions will be charged directly against the participant's account balance.

Recent Accounting Pronouncements – The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the financial statements of the Plan.

Subsequent Events – The Plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Collective Trust Funds – Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Collective trust funds				
Stable value	$ -	$ 38,168	$ -	$ 38,168

Total assets at fair value	$ 1,616,230	$ 106,980	$ -	$ 1,723,210

Fair Value of Investment in Entities That Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013:

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period	Investment Objective
Invesco Stable Asset	$ 38,168	N/A	Daily	Daily	Preserve principal and accumulated earnings.
SSGA S&P 500 Index Class IX	$ 68,812	N/A	Daily	Daily	Seeks to replicate the performance of the Standard and Poor's 500 Index.

NOTE 4 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan invests in the Invesco Stable Value Asset Trust (the Trust) which is a fully benefit-responsive collective trust that seeks to achieve stability by preserving principal and accumulated earnings. This collective trust was established for purposes of collectively investing and reinvesting the assets of eligible pension and profit sharing trusts and other eligible entities. The Trust's primary investment objectives are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

As described in *Note 2*, contract value is the relevant measurement attribute for that portion of the net assets of the Trust attributable to fully benefit-responsive investment contracts because contract value is the amount unitholders would receive if they were to initiate permitted transactions under the terms of the underlying defined contribution plans.

To accomplish the primary objectives, the Trust enters into wrapper contracts (also known as synthetic guaranteed investment contracts (GIC)). In a synthetic GIC structure, the underlying investments are owned by the Plan for plan participants. The Trust enters into wrapper contracts from high-quality insurance companies or banks that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates. Each wrapper contract obligates the wrapper provider to maintain the contract value of the underlying investments.

Under the terms of the wrapper contract, the realized and unrealized gains and losses on the underlying investments are, in effect, amortized over the duration of the underlying investments through adjustments to the future contract interest crediting rate (which is the rate earned by participants in the Trust for the underlying investments). The wrapper contract provides that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero.

Certain events could limit the Trust's ability to transact at contract value with plan unitholders. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust or other events.

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the Plan's loss of its qualified tax status, material breaches of responsibilities that are not cured, or material and adverse changes to the provisions of the Plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments.

The average yields for the Stable Value Fund for the year ended December 31, 2013 are as follows:

Average yields	
Based on actual earnings	1.22%
Based on interest rate credited to participants	1.30%

NOTE 5 – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The Company has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank & Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2013, and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013, and information reflected in *Note 6*. Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule.

NOTE 6 – INVESTMENTS (UNAUDITED)

At December 31, 2013, all investments of the Plan were participant-directed. The following presents investments that represented 5% or more of the Plan's net assets at December 31, 2013:

T. Rowe Price Retirement 2030	$ 106,084
T. Rowe Price Retirement 2050	154,181
T. Rowe Price Retirement 2040	142,769
T. Rowe Price Retirement 2020	169,705
AmerCent One Choice 2045	189,876
AmerCent One Choice 2035	180,682
AmerCent One Choice 2025	142,828

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by $104,194 as follows:

Collective trust funds	$ 8,053
Mutual funds	96,141
Net appreciation is fair value of investments	$ 104,194

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and units of the collective trust funds are managed by the trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

NOTE 8 – PLAN TERMINATION

While the Company hopes and expects to continue the Plan indefinitely, it reserves the right to terminate, discontinue making contributions to, amend or modify the Plan at any time, acting through written resolution of the controlling entity of the Company. Upon termination of the Plan, participants will become 100% vested in their total account balance.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – TAX STATUS

The Company adopted a prototype non-standardized profit sharing plan with cash or deferral arrangement sponsored by ADP Inc. The prototype obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

U.S. GAAP requires management to evaluate the tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan was adopted by the Company effective January 1, 2013 and, therefore, there are no tax returns open to examination prior to 2013.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013, to Form 5500:

Net assets available for benefits per the financial statements	$ 1,722,836
