401(k) SAVINGS PLAN**

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of the Plan

The following description of the Young's Market Company, LLC and Affiliates 401(k) Savings Plan (the Plan) provides only general information. For a more complete description of the Plan's provisions, participants should refer to the Summary Plan Description maintained by the Plan's Benefit Administration Committee.

(a) General

The Plan is a defined-contribution plan available to all nonbargaining unit employees of Young's Market Company, LLC and its affiliates (collectively, the Company, Employer, or Plan Sponsor) who have at least three months of service and are at least 21 years of age. On August 1, 2011, one of the affiliates participating in the Plan, Young's Market Company, LLC of Arizona, ceased operations and participation in the Plan. Young's Holdings Inc. and the Republic National Distributing Company (RNDC) formed a new entity; Young's Market Company Southwest LLC (name changed on November 7, 2011 to Young's Market Company of Arizona LLC), which began participating in the Plan on August 1, 2011. With this change, the Plan was amended to be a multiple employer plan. As of January 1, 2012, employees of Young's Market Company of Arizona, LLC who had worked for RNDC prior to August 1, 2011, ceased participation in the Republic National Distributing Company 401(k) Plan and began participating in the Plan. The Young's Market Company of Arizona LLC employees who began participation in the Plan on January 1, 2012 includes certain bargaining unit employees. Additionally, \$5,677,137 of assets associated with these employees' accounts in the RNDC Plan were transferred to the Plan during the year ended December 31, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants may contribute pretax annual wages, as defined by the Plan, subject to Internal Revenue Code (the Code) limitations. Participants may also contribute amounts representing distributions from other defined-benefit or defined-contribution plans. Nonbargaining participants may defer up to 100% of a participant's compensation and bargaining participants may defer up to 15% of a participant's compensation. Participants may change their salary deferral percentages at any time. The Company provides or makes a matching contribution of 100% of a nonbargaining participant's contribution of the first 3% of base compensation and 50% of the next 2% of base compensation. The Company makes a matching contribution of 25% of a bargaining participant's elective deferral of 4% to 8% of base compensation. The Company contributions are nondiscretionary employer contributions. Additional amounts may be contributed at the option of the Employer.

(c) Participant Accounts

Each participant's account is credited with the participant's and employer nondiscretionary contributions and an allocation of plan earnings and administrative expenses. Forfeitures of terminated participants' nonvested accounts are first applied to plan administrative expenses and are then applied to reduce employer matching contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

401(k) SAVINGS PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(d) *Vesting*

Participants are immediately vested in their contributions and nondiscretionary employer contributions plus actual earnings thereon. Vesting in any discretionary employer contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A nonbargaining participant is 100% vested after five years of credited service and a bargaining participant is 100% vested after six years of credited service. There were no discretionary employer contributions during 2012 and 2013.

(e) *Investment Options*

Upon enrollment in the Plan, participants may allocate their contributions to investment options managed by Principal Life Insurance Company (Principal) prior to October 1, 2013 and Putnam Investor Services Inc. (Putnam) effective October 1, 2013. All investments are participant directed.

(f) *Participant Loans*

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum of \$50,000, or the greater of \$10,000 or 50% of their vested account balance. Maximum loan term is 5 years unless it is used for the purchase of a residence, then the maximum term is 15 years. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid at least quarterly through payroll deductions.

(g) *Payment of Benefits*

The Plan provides for various forms of payments including lump-sum distributions and various types of annuities upon termination of service.

(h) *Plan Termination*

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(2) Significant Accounting Policies

(a) *Basis of Accounting*

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) *Investment Valuation and Income Recognition*

The assets of the Plan were invested under a Flexible Investment Group Annuity Contract with Principal prior to October 1, 2013. Effective October 1, 2013, Putnam took over the management of the Plan's investments. Investment performance is dependent on the investment experience, which is variable and not guaranteed. Purchases and sales of investments are reflected on the trade-date basis. Interest income is recorded on the accrual basis.

YOUNG'S MARKET COMPANY, LLC AND AFFILIATES
401(k) SAVINGS PLAN

Notes to Financial Statements

December 31, 2013 and 2012

Investments in pooled separate accounts were stated at fair value at December 31, 2012 as determined by Principal using a market approach and were based on the net asset value of units held by the Plan at year-end. The net asset value is used as a practical expedient to estimate fair value. Effective October 1, 2013, plan assets, with the exception of the guaranteed interest accounts, were transferred to Putnam and were primarily invested in registered investment funds. Investments in registered funds at December 31, 2013 were stated at fair value based on the quoted net asset value of units held by the Plan at year-end.

Guaranteed interest accounts are considered fully benefit responsive and are valued at fair value as determined by Principal based on discounted cash flows using current interest rates. Fair value approximates contract value, which represents contributions plus earnings, less withdrawals, and expenses.

Assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The funds are managed based on the specific target retirement years and assume a retirement age of 65.
- (d) This investment represents an investment in the Putnam S&P 500 Index Fund. The fund invests primarily in the securities that constitute the Standard & Poor's 500 composite stock price index, either directly or indirectly through the purchase of shares of collective investment trusts having objectives similar to that of the fund. The fair value of the investment has been estimated using the net asset value per share calculated by the fund. The underlying assets of the fund are valued using quoted market price or last reported bid price if no sales are reported. To the extent that these prices are not available, the security is valued at fair value by the trustee in accordance with its policies and procedures. Such valuations consider such factors as significant market or specific security events such as interest rate or credit quality changes, discount rates, U.S. treasury, U.S. swap, and credit yields and index levels, which are all observable by market participants.
- (e) These investments include pooled separate accounts that invest in mutual funds, domestic equities, international equities, and/or fixed income securities. The fair value of the investments in these categories has been estimated using the net asset value per share, in which the underlying investments have observable Level 1 inputs. There are currently no redemption restrictions for these investment categories, and the investments can be redeemed on a daily basis.
- (f) The investments at December 31, 2012 include commercial real estate and mortgage loans, which are backed by the associated properties. The fair value of the investment in this category has been estimated using the net asset value per share. The fair value of the underlying real estate investments is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates, and discount rates. In addition, each property is appraised annually by an independent appraiser. There were no withdrawal restrictions as of December 31, 2012 or December 31, 2013.
- (g) This investment represents an investment in the MetLife Stable Value Group Annuity Contract. The contract invests in separate accounts to provide total returns relative to a certain benchmark. Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at the net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or

transfer of all or a portion of their investment at contract value. The contract value is guaranteed by MetLife. The crediting rate is calculated and adjusted on a quarterly basis. The key factors that influence future crediting interest rates include the market value of the underlying investments, anticipated market yields-to-maturity of benchmark indices of underlying investments, expected payments into and out of the contract. The average yield earned by the contract was (1.94%) for the year ended December 31, 2013. The average yield credited to participants was 2.21% for the year ended December 31, 2013. It is highly unlikely that any event would occur that would limit the fund's ability to transact at contract value with each issuer.

- (h) This investment is a group annuity contract issued by Principal. Contributions and transfers allocated to this option will be credited interest at a guaranteed interest rate Principal declares for a set period of time. Guaranteed interest rates for new allocations are subject to change daily, and each amount allocated to the guaranteed interest account will earn interest based on this guaranteed interest rate in effect for the date that the amount is allocated to this guaranteed interest account. The interest crediting rates ranged from 0.34% to 0.67% and 0.57% to 4.10% at December 31, 2013 and December 31, 2012, respectively. The average yield earned by the Plan was 0.49% and 1.98% for the years ended December 31, 2013 and 2012, respectively. The average yield credited to participants was 0.48% and 1.80% for the years ended December 31, 2013 and 2012, respectively. A surrender charge may apply to transfers or withdrawals from an unmatured guaranteed interest account. The reference rate used to determine if a charge applies is equal to the applicable U.S. Treasury rate plus 0.50%. A charge applies when the reference rate is higher than the rate being credited to the unmatured funds being transferred or withdrawn. A surrender charge may not apply to withdrawals due to retirement, termination of employment, disability, or death.
- (i) These investments are exchange-traded mutual funds that normally invest their assets in equity securities. Equity securities include common stocks, preferred stocks, securities convertible into stocks, and depositary receipts for those securities. The focus is on the stocks of companies believed to be undervalued compared to their perceived worth (value companies). The funds may invest in companies of any size, while focusing on companies with large capitalizations. The funds may invest in foreign securities and derivatives.

Notes to Financial Statements

December 31, 2013 and 2012

As of December 31, 2012, investment valued using level 3 fair value inputs represent investments in commercial real estate and mortgage loans. The following table presents additional information about valuation methodologies used for such investments. In addition to the techniques and inputs noted in the table below, other valuation techniques and methodologies may be used when determining fair value measurements. The table below is not intended to be all-inclusive, but rather provide information on the significant Level 3 inputs as they relate to fair value measurements.

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Inputs
Real estate	\$ 2,381,763	Discounted Cash Flows	Discount rate	6.5%–20.0%
			Terminal capitalization rate	4.8%–9.0%
			Average market rent growth rate	2.3%–5.5%
			Loan to value ratio	17.1%–86.3%
			Market interest rate	2.5%–5.0%

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be realized.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Real estate pooled separate account
Balance as of December 31, 2012	\$ 2,381,763
Net realized and unrealized gains	294,963
Purchases	182,401
Sales	(2,859,127)
Balance as of December 31, 2013	\$ —

(c) Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

(d) Expenses

All administrative expenses are paid by the Company, except for consulting fees and management fees related to the contract with the administrators, which are paid by the Plan.

(e) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

(3) Investments

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company is the Plan's trustee through September 30, 2013. While acting as the Plan's trustee Principal Trust Company held the Plan's investments and executed all investment transactions. Effective October 1, 2013, Putnam became the Plan's trustee. Investment related information disclosed in the accompanying financial statements, notes, and supplemental schedules, including investments held at December 31, 2013 and 2012, interest, and net realized and unrealized appreciation in fair value of investments for the years ended December 31, 2013 and 2012, was obtained or derived from investment information supplied to the plan administrator and certified as complete and accurate by Principal Trust Company and Putnam.

(4) Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 22, 2013 that the Plan is qualified under Section 401(a) of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believes

Notes to Financial Statements

that the Plan is designed and is currently being operated in compliance with the requirements of the Code and has indicated that it will take the necessary steps, if any, to bring the Plan's operations and/or document into compliance with the Code.

GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(5) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(6) Party-in-Interest Transactions

The Plan invested in pooled separate accounts and guaranteed interest accounts that are managed by Principal, an affiliate of Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan's assets through September 30, 2013 and in mutual funds that are managed by Putnam, an affiliate of Putnam Fiduciary Trust Company, the trustee of the Plan's assets effective October 1, 2013. These investments and related transactions are considered party-in-interest transactions for which a statutory exemption exists.

(7) Department of Labor Audit

The Plan settled with the Department of Labor on March 8, 2013 for the audit years of 2008 through 2011. As a result of the audit, the Plan Sponsor remitted \$24,619 of lost earnings to the Plan in 2012 related to untimely contribution remittances and loan repayments.
