Note 1 – Description of Plan

The following description of the FUJIFILM SonoSite, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a prototype defined contribution plan established effective April 4, 1998 and most recently, restated effective October 1, 2012. Non-union, non-leased and nonresident alien, full-time employees of FUJIFILM SonoSite, Inc. (the "Company") become eligible to participate upon attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees are responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Participants may contribute a pre-tax amount equal to not less than 1 percent nor more than 75 percent, of their compensation for the contribution period. Participants may also make a post-tax contribution in an amount equal to not less than 1 percent nor more than 75 percent of their compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from certain other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contribution into various investment options offered by the Plan. The Plan accepts Roth Elective Deferrals made on behalf of participants. The Company is allowed to contribute a discretionary match and a profit sharing contribution. The Company elected to make a discretionary matching contribution equal to 50% of the participant's elective deferral before catch-up contributions up to 4% of eligible compensation for the years ended December 31, 2013 and 2012. The Company did not authorize a discretionary profit sharing contribution for the years ended December 31, 2013 and 2012. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions as well as an allocation of (a) the Company's profit sharing contribution, if any (b) plan earnings, and (c) an allocation of plan losses and expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and qualified contributions plus actual earnings thereon. The balance of vesting in the participants' accounts is based on continuous years of service. A participant becomes 20 percent vested after one year of service, 40 percent vested after two years of service, 60 percent after three years of service, 80 percent after four years of service and 100 percent vested after five years of service. However, if an active participant dies or incurs a disability prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Forfeited Accounts

Forfeitures of non-vested accounts are used to reduce employer contributions made by the Company. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$59,696 and \$10,558, respectively. For the years ended December 31, 2013 and 2012, \$22,955 and \$70,021, respectively, were used to reduce Company contributions.

Note 1 – Description of Plan (continued)

Payment of Benefits

On termination of service including death, disability or retirement, a participant or beneficiary may elect to receive a lump-sum distribution equal to the participant's vested interest in his or her account. If the vested interest is less than \$1,000 a participant shall receive the value of the vested interest in his or her account as a lump sum distribution. Participants are also eligible to receive withdrawals in the event of certain financial hardships. A participant's right to make deferrals to the Plan will be suspended for six months after receipt of a hardship withdrawal. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.75% to 6.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. The loans must be repaid over a period not to exceed five years or an agreed upon term for the purchase of a primary residence. Principal and interest is paid ratably through bi-weekly payroll deductions.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the sum of invested principal of the trust plus all investment earnings. The Statements of Net Assets Available for Benefits present the fair value of the common collective trust as well as the adjustment of the fully benefit-responsive common collective trusts from fair value to contract value. The Statements of Changes in Net Assets available for benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value as reported to the Plan, except for its benefit-responsive investment contract which is valued at contract value, by Vanguard Fiduciary Trust Company ("Vanguard"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the plan's valuation policies utilizing information provided by the Plan's investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 – Summary of Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits

Benefits are recorded when paid by the Plan.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the plan document. Certain administrative expenses of the Plan that are paid by the plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 7, 2014, the date the financial statements were available to be issued. Effective April 1, 2014, the Plan changed the trustee of the Plan to Prudential Retirement Insurance Company of America.

Note 3 – Investments

Other than fair value of the common collective trust and the related adjustment from fair value to contract value for full benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Vanguard Fiduciary Trust Company (the trustee of the Plan). The contract value of the common collective trust was certified by the trustee.

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2013 and 2012.

*investment was not over the 5% threshold for specified year

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements
December 31, 2013

Note 4 – Fair Value Measurements (continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 6 – Tax Status

The Company adopted a Vanguard prototype plan which received a favorable opinion letter dated March 31, 2008, in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since adopting the Vanguard prototype plan. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

Note 7 – Transfers to Affiliated Plan

In 2013, certain participants and their related plan assets were transferred to an affiliate of the Company.

Note 8 – Related Party Transactions

The investments owned by the Plan are managed by an affiliate of Vanguard, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$19,469 and \$8,393 for the years ended December 31, 2013 and 2012 respectively; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Benefits Payable

As of the date the financial statements were available to be issued, the Company had not completed the discrimination testing for the Plan for the year ended December 31, 2013. For the year ended December 31, 2012, \$151,294 (less than 0.4 percent of net assets available for plan benefits as of December 31, 2012) was refunded during 2013 as a result of the 2012 discrimination tests. Management believes the amount of refunds, if any, resulting from the 2013 testing would not be material to the financial statements and, therefore, no liability has been recorded for such refunds.
