INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Associated Benefits Corporation
Plan Administrator for The Restated Noncontributory
Retirement Plan for Cooperatives and Participants
(Participating Employer — Western Iowa Cooperative, Group 299):

We have audited the accompanying financial statements of The Restated Noncontributory Retirement Plan for Cooperatives (Participating Employer — Western Iowa Cooperative, Group 299) (the "Plan"), which comprise the statements of net assets available for benefits as of March 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of March 31, 2014 and 2013, and the changes therein for the years then ended and its financial status as of April 1, 2013 and 2012, and the changes therein for the year ended April 1, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the Table of Contents is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedule is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF THE PLAN

The following description of The Restated Noncontributory Retirement Plan for Cooperatives (Participating Employer — Western Iowa Cooperative, Group 299) ("Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a noncontributory defined benefit plan administered by Associated Benefits Corporation ("Plan Administrator") that covers substantially all full-time employees of Western Iowa Cooperative Employees who work 1,000 hours or more per year are eligible on the first day of the first or the seventh month of the Plan year following the attainment of age 21 and four months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits — Participants can retire with their full pension on the first day of the month coincident with or immediately following their 65th birthday (normal retirement), attainment of age 62 with at least 5 years of service, or upon satisfying the Rule of 85 by reaching a combined total of age and years of service of 85 total years.

The monthly pension benefit under the Plan is equal to 1.1 percent of average monthly earnings, as defined, multiplied by years of credited service. The normal form is a pension payable for the participant's lifetime. However, an actuarially reduced joint and 50 percent survivorship basis with 120 guaranteed monthly payments is the automatic form for married participants unless both the participant and spouse elect another form.

Participants become 100 percent vested in the employer contributions and earnings thereon after completion of five years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan's investment in the Retirement Trust for Cooperatives (the "Trust") utilizes various investment securities including U.S. government securities, corporate debt instruments, and equity funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumption pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses — Administrative expenses consisting of Trustee fees, investment management fees, actuarial fees and payments to the Pension Benefit Guarantee Corporation (PBGC) are paid from Plan assets. Other administrative expenses, including expenses of the Plan Administrator, are paid by the participating employer. Trustee fees and investment management fees are deducted from investment income or loss.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Subsequent Events — Subsequent events related to the financial statements have been evaluated through August 29, 2014, which is the date the financial statements were available to be issued and the Plan has determined that there are no material events that require adjustment to or disclosure in these financial statements.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the participating employer. The participating employer's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The participating employer met the minimum funding requirements of ERISA for the years ended March 31, 2014 and 2013. For financial statement purposes, all employer contributions made to meet the minimum funding requirements of ERISA are considered attributable to the current plan year and are accrued in the financial statements if not paid by year end. For PBGC funding purposes, all employer contributions made to the Plan prior to the filing of the Form 5500 are considered attributable to the previous year.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' contributions, compensation, and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of April 1, 2013 and 2012 were as follows:

	April 1, 2013	**April 1, 2012**
Interest rate	7.5 percent per annum	8.0 percent per annum
Mortality	Section 1.430(h)(3)-1 prescribed separate static annuitant and nonannuitant tables for the valuation year. These tables are based on the RP 2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA	Section 1.430(h)(3)-1 prescribed separate static annuitant and nonannuitant tables for the valuation year. These tables are based on the RP 2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA
Turnover	Based on selected rates of turnover for the first four years of service and on termination rates from Table T-5 of the Actuary's Pension Handbook	Based on selected rates of turnover for the first four years of service and on termination rates from Table T-5 of the Actuary's Pension Handbook
Spouse's benefit	80 percent of employees are assumed married with male spouses 2 years older	80 percent of employees are assumed married with male spouses 2 years older
Salaries	Will increase according to an age-related table ranging from 8.25 percent down to 2.75 percent	Will increase according to an age-related table ranging from 8.3 percent down to 2.8 percent

	April 1, 2013	April 1, 2012
Expenses	Investment related expenses and administration expenses will be paid from investment income in excess of assumed rate of return	Investment related expenses and administration expenses will be paid from investment income in excess of assumed rate of return
Contingency fund charge	0.3456 percent of covered payroll	0.3637 percent of covered payroll

In addition, eligible employees will retire according to the following schedule — employees eligible for the special rule of 85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to rule of 85 retirements after the first year since becoming eligible and regular retirements. The first year rates will not start before age 55 even if the rule of 85 applies earlier, nor will they ever fall below the ultimate rate for that age.

As of April 1, 2013 and 2012, the rates of retirement assumed were as follows:

Age	First Year	Ultimate
55-60	6 %	3 %
61		10
62		30
63		25
64		25
65		40
66		25
67		25
68		25
69		25
70 and over		100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The actuarial present value of accumulated Plan benefits, using the aggregate cost method, is as follows:

	As Determined on April 1, 2013	As Determined on April 1, 2012
Vested:		
Active participants	$ 2,636,573	$2,343,054
Beneficiaries and retirees	627,187	344,869
Other participants (including participants active at other groups)	694,208	550,034
	3,957,968	3,237,957
Nonvested active participants	96,217	74,748
Total actuarial present value of accumulated Plan benefits	$ 4,054,185	$3,312,705

The changes in the actuarial present value of the Plan's accumulated benefits from April 1, 2012 to April 1, 2013 are as follows:

Actuarial present value of accumulated Plan benefits at beginning year	$3,312,705
Increase (decrease) during the year attributable to:	
Benefit accumulations/actuarial gains and losses	212,782
Increase for change in actuarial assumption	337,869
Increase for interest due to the decrease in the discount period	262,163
Benefits paid	(71,334)
Net increase	741,480
Actuarial present value of accumulated Plan benefits at end of year	$4,054,185

5. FAIR VALUE MEASUREMENTS

In accordance with GAAP, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques — Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at March 31, 2014 and 2013.

Investments in equity funds are valued at net asset value per share or its equivalent without adjustment as determined by the issuer of the fund based on the fair value of the underlying investments. Investments in equity funds are categorized as Level 2.

Cash and money market funds held are primarily short-term money market commingled funds that are categorized as Level 2. They are valued at cost plus accrued interest, which approximates fair value.

United States government and agency obligations and notes, bonds, and debentures are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. Notes, bonds and debentures are categorized as Level 2.

The following table provides examples of inputs that are commonly relevant for valuing particular classes of fixed-income securities in which the plan invests. These classifications are not exclusive, and any of the inputs may be used to value any other class of fixed-income security.

Fixed-Income Class	Examples of Standard Inputs
Corporate bonds	Standard inputs and events affecting market sectors and individual issuer credit worthiness
U.S. Treasuries, U.S. government agencies, state and local obligations, non-US government securities	Standard inputs and Treasury curves and spreads
Mortgage backed securities, asset backed securities	Prepayment speeds, actual pool, and collateral information
All	Trade execution data, live trading levels, cash flows, bids, offers, quotes, spreads, indices, Treasury curves, observed market movements, volatility, specific terms and conditions (collectively referred to as “standard inputs”)

The following tables set forth by level within the fair value hierarchy a summary of the Trust's investments measured at fair value on a recurring basis at March 31, 2014 and 2013.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the years ended March 31, 2014 and 2013.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Asset Value (NAV) per Share —The Plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of March 31, 2014 and 2013. The following tables for March 31, 2014 and 2013 set forth a summary of the Trust's investments with a reported NAV.

*The fair values of the investments have been estimated using the net asset value of the investment.

(a) The domestic stock funds seek to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. The funds employ a "multi-style, multi-manager" approach whereby portions of the domestic stock funds are allocated to different money managers who employ distinct investment styles. The funds use three principal investment styles intended to complement one another:

Growth: Emphasizes investments in equity securities of companies with above-average earnings growth prospects.

Value: Emphasizes investments in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

(b) The international stock funds provide participation in financial markets outside of the United States. The international stock funds invest in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. These funds invest primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. As with the domestic equity funds, the international equity funds combine Growth, Value, and Market-Oriented Advisers to ensure style diversification.

(c) The fixed income funds strategies seek to invest at least 80% of their net assets plus any borrowing for investment purposes in a diversified portfolio of bonds, including corporate bonds of domestic and foreign issuers payable in U.S. dollars, short-term debt instruments, mortgage-related securities, and U.S. Treasury securities and other debt securities issued or guaranteed by the U.S. Government (including its agencies and instrumentalities). Although the strategies seek to invest primarily in investment-grade debt securities (i.e., those rated in the four highest rating categories by S&P or Moody's), they may include investing a portion of their net assets in bonds rated below investment grade.

(d) The real estate stock funds provide broad exposure to equity securities of real estate companies throughout the world, primarily real estate investment trusts (REITs) and other real estate operating companies whose value is derived from ownership, development and management of commercial properties. The real estate stock funds seek to provide current income and long-term capital growth with above-average consistency.

6. INVESTMENTS AND INTEREST IN THE RETIREMENT TRUST FOR COOPERATIVES

Wells Fargo Bank, N.A. manages the Trust on behalf of the Plan under the terms of the trust agreement between the Wells Fargo Bank, N.A. and the Plan. The Plan is a participant in the Trust. The authority to invest is vested in the appointed money managers, subject to the funding policy and investment objectives established by the Plan Administrator. The investments and changes therein of the Trust have been reported to the Plan by Wells Fargo Bank, N.A. ("Trustee") as having been determined through the use of fair values. Since the Plan's funds are commingled with other plans participating in the Trust, the investments reported in these financial statements reflect only the Plan's allocable portion of the individual investments. Although assets of all plans are commingled in the Trust, the Plan Administrator maintains supporting records for the purpose of allocating the net investment income to the participating plans. The net investment income is allocated by the Plan Administrator to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The following presents the Trust's net assets as of March 31, 2014 and 2013:

	2014	2013
INVESTMENTS — At fair value:

Plan's allocable portion of net investment gain of The Retirement Trust for Cooperatives	$ 757,834	$ 513,515

The Trust participates in a securities lending program through the Trustee. Under this program, the Trust's investment securities are loaned to investment brokers for a fee. At the inception of each loan, the Trust requires a minimum of 102% of the fair value of the loaned securities to be separately maintained as collateral for the loans. The Trust has reinvested the collateral in common collective trusts holding cash, letters of credit, securities issued or guaranteed by the U.S. government, its agencies, and instrumentalities and corporate bonds. At March 31, 2014 and 2013, approximately $1,200,000 and $3,500,000, respectively, of the Trust's securities were on loan under the Trustee's securities lending program. Securities loaned under such transactions may be sold or repledged by the transferee. Loss from the program was $196 and $2,406 for the years ended March 31, 2014 and 2013, respectively.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Trust investments are shares of mutual funds which are managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Trust for the investment management services are included as a reduction of the return on each fund.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Participating Employer and the Plan Administrator by a letter dated December 22, 2011, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Participating Employer and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Participating Employer and the Plan Administrator believe it is no longer subject to income tax examinations for years prior to 2011.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the participating employer has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Schedule SB, Part V – Summary of Plan Provisions

Mercer has used and relied on the plan documents, including amendments, and interpretations of plan provisions, supplied by Associated Benefits Corporation. as summarized below. Associated Benefits Corporation is solely responsible for the validity, accuracy and comprehensiveness of this information. If any plan provisions supplied are not accurate and complete, the results of any calculation may differ significantly from the results that would be obtained with accurate and complete information. Moreover, plan documents may be susceptible to different interpretations, each of which could be reasonable, and the results of estimates under each of the different interpretations could vary.

The following is a summary of what we understand to be the most relevant plan provisions for purposes of our valuation; these provisions should not be used for purposes of determining benefits under the plan.

Contribution account (continued)	An account is established for each participant consisting of his employee contributions with interest through April 30, 1975. Employee contributions after May 1, 1975 are added to the Account and the Account is credited with the following annual rates: 4/1/2000 to 3/31/2001 8.08% 4/1/2001 to 3/31/2002 5.95% 4/1/2002 to 3/31/2003 5.60% 4/1/2003 to 3/31/2004 3.56% 4/1/2004 to 3/31/2005 3.80% 4/1/2005 to 3/31/2006 4.92% 4/1/2006 to 3/31/2007 5.68% 4/1/2007 to 3/31/2008 5.54% 4/1/2008 to 3/31/2009 3.45% 4/1/2009 to 3/31/2010 2.59% 4/1/2010 to 3/31/2011 3.25% 4/1/2011 to 3/31/2012 2.98% 4/1/2012 to 3/31/2013 1.38%	N/A
Monthly earnings	Monthly Earnings are calculated by dividing the prior calendar year total earnings by the number of weeks worked and multiplying the result times 4 1/3 to obtain a monthly rate. Earnings are limited to $200,000 per year indexed as provided for by law – limit for 2012 is $250,000.	Same. Note that total earnings include 401(k) and Section 125 elective deferrals.
Average monthly earnings	Plan benefits are computed using the average of the monthly earnings for the highest five consecutive years prior to termination.	Same.

Schedule SB, Part V – Summary of Plan Provisions

	Contributory Plan	Noncontributory Plan
Credited service	Prior to May 1, 1975, Credited Service is the number of years and months from date of hire. Since May 1, 1975, Credited Service is the number of 1,000-hour plan years. If less than 1,000 hours in year of hire or termination, partial credit is given equal to the number of full months worked divided by 12. Employers who adopt the Plan choose whether to grant Credited Service prior to date of adoption.	Same.
Normal retirement date	Participants are entitled to retire and receive their full pension benefit on the first of the month coincident with or immediately following their 65th birthday.	Same.
Normal retirement benefit	The monthly pension is equal to the percent of Average Monthly Earnings specified in the Employer's Adoption Agreement multiplied by years of Credited Service. The following employers (by group number) have selected the 1.55% post March 31, 1994 accrual formula: 32, 71, 122, 138, and 168. The following employers (by group number) have selected the 1.65% post March 31, 1994 accrual formula: Groups 81.	The monthly pension is equal to 1.1% of Average Monthly Earnings multiplied by years of Credited Service. Participants have a minimum benefit equal to the accrued benefit as of the later of March 31, 1989 and the date the Employer adopted the Noncontributory Plan, PLUS 1.1% of Average Monthly Earnings multiplied by years of Credited Service earned after the later of March 31, 1989 and the date of adoption. Section 401(a)(17) Members have an additional minimum benefit equal to the accrued benefit frozen as of 3/31/94 (determined limiting Earnings to $235,840) PLUS 1.1% of Average Monthly Earnings multiplied by Credited Service after April 1, 1994. The frozen March 31, 1994 accrued benefit is adjusted to reflect increases in the Member's Average Monthly Earnings after March 31, 1994 as allowed by 42 C.F.R. Section 1.401(a)(4)-13.

Schedule SB, Part V – Summary of Plan Provisions

	Contributory Plan	Noncontributory Plan
Normal retirement benefit (cont'd)	Participants have a minimum benefit equal to the accrued benefit frozen as of 3/31/1994 under the prior contributory formula (1.1% of Average Monthly Earnings up to $400 PLUS 1.65% of Average Monthly Earnings in excess of $400 multiplied by Credited Service) PLUS the future benefit percent of Average Monthly Earnings specified in the Employer's Adoption Agreement multiplied by years of Credited Service after April 1, 1994. Central Valley Ag (Group 327) – the monthly pension is equal to 1.25% of Average Monthly Earnings multiplied by years of Credited Service through June 30, 2010 plus 1.75% of Average Monthly Earnings multiplied by Years of Credited Service on and after July 1, 2010. For plan years after March 31, 1994, participants are guaranteed a minimum accrual for each plan year. The minimum accrual is equal to one-half of the accrual on the benefit formulas since April 1, 1994 PLUS the benefit deemed to be purchased by employee contributions made since April 1, 1994 under IRC Section 411(c)(2).	NEW Cooperative, Inc. (Group 23) – the monthly pension is equal to 1.4% of Average Monthly Earnings multiplied by years of Credited Service. Green Plains Grain Company LLC (Group 177) – Accruals frozen as of January 1, 2009. IAHC FC Stone Group, Inc. (Group 201) – the monthly pension is equal to 1.25% of Average Monthly Earnings multiplied by years of Credited Service. Accruals frozen as of September 1, 2008.
Form of monthly retirement income	The standard form of receiving monthly retirement income will be for a participant's lifetime. However, if the participant is married and unless he specifically elects the standard form or another alternate form of benefit and his spouse consents, his benefits will be paid on a joint and 50% survivorship basis with 120 guaranteed payments.	Same.

Schedule SB, Part V – Summary of Plan Provisions

	Contributory Plan	Noncontributory Plan
Optional forms	Lifetime with 60, 120 or 180 payments guaranteed. Joint and ½, ⅔, ¾ or full, with 120 payments guaranteed. 60, 120 or 180 guaranteed payments only. Lump sum, if actuarial value is less than $5,000.	Same.
Optional form conversion factors	For lifetime annuities: 8% and the 1984 Unisex Pension Mortality Table. For lump sum and certain only annuities: the applicable interest rate under Internal Revenue Code 417(e)(3)(C) for the third calendar month preceding the month that contains the distribution and the applicable mortality table published in accordance with Internal Revenue Code Section 417(e)(3)(B).	Same.
Early retirement benefit	A participant may retire at (i) age 55 with 10 years of service, (ii) age 62 with five years of service, or (iii) any time after the sum of his attained age and service is 85 or more provided that he has at least 20 years of Credited Service and his last five years of service count as Credited Service. The benefit is calculated in the same manner as the normal retirement benefit, based on Credited Service to early retirement. If the participant qualifies under (iii) above, there is no reduction in the benefit. Otherwise, the benefit is reduced 1/300 for each month by which the early retirement date precedes age 62.	Same.

Schedule SB, Part V – Summary of Plan Provisions

	Contributory Plan	Noncontributory Plan
Termination benefit (vested)	Employer chooses: 1. Participants who terminate employment after completing five years of service are 100% vested in their accrued benefit which is payable at age 65. Employers with this vesting schedule (by group number): 32, 81, 122, 138, 168, and 327. Participants are vested in accordance with the following schedule: **Years of service** / **Vested %** Less than 2 years / 0% 2 years / 20% 3 years / 40% 4 years / 60% 5 years / 80% 6 years or more / 100% Employers with this vesting schedule (by group number): 71 Participants who are not vested are entitled to their Employee Contribution Benefit payable at age 65. At the time of termination, a participant may, by written request receive his Contribution Account. His accrued benefit is reduced by the portion of the benefit funded by his Contribution Account.	Same. Employers with 5-year cliff vesting (by group number): 23, 76, 170, 175, 190, 205, 226, 258, 299, 345, 351, 361, and 382 Employers with graded vesting (by group number): 26, 36, 135, 154, 156, 177, 201, 223, 229, and 291

Death benefit	The spouse or beneficiary of a participant who dies after becoming eligible for early or normal retirement is entitled to receive a death benefit equal to the greater of the Actuarial Value of i) the survivor income payable had the participant retired and elected the joint and 100% survivor option on the first day of the month preceding his death, and ii) the participant's accrued benefit payable for 60 months. If an active participant dies prior to meeting eligibility requirements for early or normal retirement, the spouse or beneficiary is entitled to receive a death benefit equal to the greater of the Actuarial Value of i) the survivor income payable had the participant terminated employment and immediately begun receiving benefits under 50% Joint & Survivor option, and ii) the member's accrued benefit payable for 60 months. If survived by a spouse, the death benefit is paid as a life annuity equivalent in value to the greater of the Actuarial Values. The spouse may elect to receive the benefit as a 60 month certain annuity. If not survived by a spouse, the death benefit is paid as a 60 month annuity. Such death benefit shall be paid first to the beneficiary designated by the participant. If no beneficiary is designated, it is paid first to the surviving spouse; if there is no surviving spouse, then in equal parts to the surviving children of the member; or if there are no surviving children, then in equal parts to the surviving parents of the member; or if there are no surviving parents, then in equal parts to the surviving siblings of the member. The death benefit is payable to the member's estate if the member is not survived by a spouse, child, parent, or sibling and has not designated a beneficiary.	Same.

Disability benefit	If a participant is determined to be totally and permanently disabled, he is entitled to an immediate monthly income equal to his accrued benefit reduced 1/300 per month for each month prior to age 62 down to age 55 and actuarially thereafter. A minimum monthly benefit of $50.00 is payable to a participant with at least five years of Credited Service at date of disability.	Same.
Late retirement	Benefit at actual retirement is based on Credited Service and Average Monthly Earnings to termination date.	Same.
Changes since prior valuation	Dedham Coop Association (Group 12), which merged into West Central Cooperative (Group 138) is now reflected in this valuation. The Dedham Plan was frozen as of December 1, 2012, and those employees subsequently earn benefits under the provisions of the West Central Cooperative Plan.	
Benefits not included in the valuation	To the best of our knowledge, no benefits were excluded from the valuation.	
Significant events	To the best of our knowledge, no significant events occurred during the year.

Actuarial Assumptions

Interest

Funding

All plan sponsors except Group 138 have elected to use segmented rates with no lookback. Post MAP-21 stabilization these rates are 4.94%, 6.15% and 6.76%. (For 2012, these rates were 5.54%, 6.85% and 7.52%). The unstabilized (Pre MAP-21) rates are 1.50%, 4.22% and 5.26% (For 2012, these rates were 1.90%, 4.90% and 6.01%). The unstabilized rates for Group 138 are 1.66%, 4.47% and 5.52%, based upon a 4 month lookback.

ASC 960

7.50% per annum for all groups. (8.00% in prior valuation)

Expenses

Administrative related expenses (actuarial fees, PBGC premiums, and trustee fees) assumed to be 0.35% of assets.

Mortality

Section 430(h)(3) prescribed separate static annuitant and nonannuitant tables for the valuation year. These tables are based on the RP 2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

Turnover

Based on select rates of turnover for the first four years of service and ultimate rates thereafter. Turnover rates reflect findings from the analysis of plan experience for the 2012 valuation year. Sample rates are shown below.

	Rate of turnover				
	Completed years of service				
Age	0	1	2	3	4+
25	25.00%	25.00%	20.00%	15.00%	11.00%

Salary increases

Salaries will increase according to an age-related table ranging from 8.25% down to 2.75% per annum. Illustrative future salary increase information is as follows:

Age	Salary increase
20	8.25%
25	7.50%
30	6.25%
35	5.50%
40	5.00%
45	4.25%
50	4.00%
55	3.75%
60	2.75%
65	2.75%

The salary increase assumption reflects findings from the analysis of plan experience for the 2012 valuation year.

Incidence of retirement

No special retirement rates apply for Rule-of-85 retirements.

For employees who become eligible to retire prior to age 55, turnover rates are used.

For frozen groups 177 and 201, same assumptions until eligible for unreduced retirement, but then 100% at unreduced retirement age.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

	Retirement rates reflect findings from the analysis of plan experience for the 2012 valuation year.
Spouse's benefit	80% of all employees are assumed married with husbands two years older than their wives.
Form of payment	1/3 of participants are expected to commence benefits as a Life Only annuity, 1/3 as a 100% J&S annuity, and 1/3 as a 5-Year Certain annuity
Commencement for vested terminations	Age 62
Contingency fund charge	0.3456% of covered payroll (0.3637% in prior valuation).
Conversion basis -	For the Contributory Plan, contribution accounts are converted to equivalent monthly benefits using segmented interest rates.

Actuarial Methods

An actuarial valuation is only a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict the plan's future financial condition or its ability to pay benefits in the future and does not provide any guarantee of future financial soundness of the plan. Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, the period of time over which benefits are paid, plan expenses and the amount earned on any assets invested to pay benefits. These amounts and other variables are uncertain and unknowable at the valuation date.

Because modeling all aspects of a situation is not possible or practical, we may use summary information, estimates, or simplifications of estimates to facilitate the modeling of future events in an efficient and cost-effective manner. We may also exclude factors or data that, if used, in our judgment, would not have significantly affected our results. Use of such simplifying techniques does not, in our judgment, affect the reasonableness of valuation results for the plan.

Valuations do not affect the ultimate cost of the plan, only the timing of when benefit costs are recognized. Cost recognition occurs over time. If the costs recognized over a period of years are lower or higher than necessary, for whatever reason, normal and expected practice is to adjust future cost levels to recognize the entire cost of the plan over time.

Asset Valuation Method

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430. Contributions made after April 1, 2013 have not been reflected in these initial results.

A characteristic of this asset method is that over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

(a) **Participants included:** Associated Benefits Corporation provides us with data on only those employees who have completed the eligibility requirements so only participants are included in the valuation of the liabilities.
(b) **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
(c) **Insurance contracts:** The plan does not have any insurance contracts.
(d) **Transferred participants:** The liabilities for benefits earned prior to their transfer by employees who have transferred to another Associated Benefits Corporation employer have been included with the liabilities for terminated vested participants at their former employer.
(e) **Nonvested terminated participants:** Benefits for return of employee contributions were estimated for four nonvested terminated participants.

Actuarial Cost Method

Minimum Funding Method

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum Deductible Contribution Method

The maximum deductible contribution is the greatest of (a) the minimum required contribution, (b) the funding target plus target normal cost plus cushion amount minus the actuarial value of assets, and (c) the plan's at-risk funding target plus at-risk target normal cost minus the actuarial value of assets (if the plan is not-at-risk). The cushion amount is estimated as 50 percent of the funding target. If desired, a more exact calculation of the maximum deductible contribution can be provided.

New Valuation System

The plans were converted to the new Mercer valuation system for the April 1, 2013 valuation, resulting in a change in funding method for the 2013/14 plan year. This change in valuation software satisfies the requirements of Announcement 2010-3 for automatic IRS approval for changes in funding method.

Schedule SB, line 24 – Change in actuarial assumptions

The expected return on plan assets was changed from 8.00% to 7.50%.
