INDEPENDENT AUDITORS' REPORT

To the Wegmans Retirement Plan Committee:

We have audited the accompanying financial statements of the Wegmans Retirement Plans (the "Plan"), which comprise the statements of net assets available for benefits as of June 30, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Wegmans Retirement Plans as of June 30, 2014 and 2013, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such schedule has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedule is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN

The following description of The Wegmans Retirement Plans (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General—The Plan was established on July 1, 1953. The Plan is a defined contribution plan covering substantially all employees of Wegmans Food Markets, Inc. (the "Company"), except those employees that are classified as independent contractors, leased employees, or who are members of a collective bargaining unit whose collective bargaining agreement does not provide for participation, who have attained the age of twenty-one and have completed one year of service in which they have worked a minimum of 1,000 hours. A year of service is defined as twelve consecutive months beginning on the employee's date of hire or a Plan year beginning with the Plan year following the employee's date of hire. Eligible employees are permitted to make elective deferrals beginning the first day of the Plan year and the day which is six months after the first day of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participants in the Plan who fail to complete 1,000 hours of service during the Plan year are considered to be "inactive participants" with respect to the Company's discretionary contribution and do not share in such contribution for the Plan year, but may continue to make elective deferrals and continue to receive Company matching contributions.

Administration—The Retirement Plan Committee of the Company serves as Plan administrator (the "Administrator") and is solely responsible for the general administration of the Plan and carrying out Plan provisions. Fidelity Management Trust Company (the "Trustee") serves as trustee of the Plan and also provides the Plan's third-party recordkeeping services.

Contributions—Participants may elect to contribute up to 50% of their eligible compensation, subject to the maximum amount allowed under the Internal Revenue Code (the "Code"). Deferral limits under the Code were $17,500 during both of the years ended December 31, 2014 and 2013. In addition, participants who attained the age of 50 before the end of the calendar year were eligible to make "catch up" contributions up to $5,500 during each of the years ended June 30, 2014 and 2013.

Participants are allowed to make rollover contributions from other qualified plans into the Plan in accordance with regulations under the Code.

The Company makes a matching contribution equal to a percentage of the participant's elective deferrals. For the years ended June 30, 2014 and 2013, the Company made a matching contribution equal to 50% of the participant's elective deferrals up to 6% of the participant's eligible compensation. The Company's matching contribution is made on a quarterly basis. During the years ended June 30, 2014 and 2013, matching contributions totaled $17,152,641 and $15,431,896, respectively.

The Company may also make a discretionary contribution to all eligible participants based on the relationship of their individual annual compensation, up to a maximum amount allowed by the Code, adjusted to reflect length of service, to the total adjusted annual compensation for all participants. The Company's discretionary contribution is made on an annual basis. During the years ended June 30, 2014 and 2013, discretionary contributions were $26,677,263 and $23,590,523, respectively.

Effective June 30, 2014, the Plan was amended to cover certain eligible employees whose employment is covered under a collective bargaining agreement between the Company and Teamsters Local Union No. 118 (the "Union"). This amendment requires supplemental contributions to compensate for transition benefits for those eligible Union employees.

During the year ended June 30, 2014, the Company made a supplemental contribution to the Plan of $4,785,285 for Union transition benefits. This is recorded in Employer contributions receivable at June 30, 2014.

Participant Accounts—Each participant's account is credited with the participant's contributions, the Company's matching contribution and an allocation of (a) the Company's discretionary contribution and (b) Plan earnings or losses, and is charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting—Participants are immediately vested in their elective deferrals, rollover contributions, the Company's matching contributions and actual earnings thereon. Vesting in the Company's discretionary contribution portion of their account plus earnings is based on years of service. A participant is 100% vested after three years of service. Participants will become fully vested in the Company's discretionary contributions, regardless of the length of service, if the participant terminates employment due to total disability, death or retirement on or after age 60 with at least five years of participation in the plan.

Notes Receivable from Participants—Participants may borrow up to 50% of their account balances. The minimum loan withdrawal is $1,000, and the maximum loan balance is $50,000 less the highest outstanding balance of a loan made during the one-year period prior to the new loan. Participants are charged a $50 loan fee for each new loan and may only have one outstanding loan at a time. The terms of each loan are set by the Administrator, within Internal Revenue Service ("IRS") regulation guidelines, in a uniform and nondiscriminatory manner. Note repayment terms range up to a maximum of five years, unless secured by a participant's principal residence. Interest is charged at a fixed rate, as determined by the Administrator, commensurate with the rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through payroll deductions with the entire balance due immediately upon the participant's termination of employment with the Company. As of June 30, 2014, participant loans have maturities through 2029 and interest rates ranging from 4.25% to 10.5%.

Investments—Participants direct the investment of their account into various investment options offered by the Plan. The Plan offers a number of investment options including mutual and money market funds and common collective trusts. Participants may change their allocations between funds offered by the Plan at any time. The investment options and related investment categories as June 30, 2014 are as follows:

Brokeragelink—The Brokeragelink account is a brokerage account that allows participants to direct their elective deferrals, rollover contributions and Company matching and discretionary contributions in a broad range of mutual funds not offered within the Plan's standard investment options. The initial deposit into the brokerage account is $2,500, and participants that establish an account can then make contributions through payroll deductions. Interest, dividends and net appreciation (depreciation) are automatically reinvested in the same fund, unless the participant chooses otherwise.

Payment of Benefits—Upon termination of employment due to death, total disability or attaining normal retirement age, a participant or designated beneficiary may elect to either receive a lump-sum distribution equal to the current value of the participant's account, or to receive periodic installments in accordance with the Trustee's Systematic Withdrawal Payments.

If upon termination of employment for other than attaining normal retirement age, death or total disability, and the participant's vested account balance is greater than $1,000, the participant may elect to receive a lump-sum distribution, a direct rollover to a qualified plan under Section 401 of the Code or a direct rollover to a qualified Individual Retirement Account equal to the current value of his or her vested account balance, or may elect to keep their investments in the Plan. If the vested account balance is less than $1,000, the balance will be distributed to the participant after termination.

Forfeitures—At June 30, 2014 and 2013, forfeited nonvested accounts totaled $36,837 and $58,338, respectively. These accounts will be used to reduce future employer contributions. During the years ended June 30, 2014 and 2013, employer contributions were reduced by $36,837 and $58,289, respectively, from forfeited nonvested accounts.

Other Income—During the year ended June 30, 2014, the Plan received revenue sharing of $425,000 from the investments held by the Plan. This is reported as other income on the statement of changes in net assets available for benefits and was contributed to eligible participants on a pro-rata basis.

Administrative Expenses—Administrative expenses charged to the Plan totaled $156,439 and $149,414 for the years ended June 30, 2014 and 2013, respectively. Administrative expenses include investment advisory fees and fees for loan and distribution transactions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Contracts—In accordance with Financial Accounting Standards Board (FASB) Accounting Standards codification (ASC) Topic 210-946, *Financial Services—Investment Companies*, (formerly Financial Accounting Standards Board Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans*), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates—The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Significant estimates include, but are not limited to, the fair value of the common collective trusts. Accordingly, actual results may differ from those estimates.

Investments—Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Administrator determines the Plan's valuation policies utilizing information provided by the Trustee and investment advisors. See Note 3 for a discussion of fair value measurements.

Risks and Uncertainties—The Plan invests in various investment securities, including mutual and money market funds and common collective trusts. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Income Recognition and Changes in Plan Assets—Contributions are recorded by the Plan when withheld from participants and accrued by the Company. Interest and dividends are allocated to the Plan as earned. Purchases and sales of securities are recorded on a trade date basis. Net appreciation of investments on the accompanying statements of changes in net assets available for benefits includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual and money market funds and common collective trusts are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as reductions of investment income for such investments.

Notes Receivable from Participants—Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as deemed distributions based upon the terms of the Plan document.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Subsequent Events—For the year ended June 30, 2014, the Plan Administrator has evaluated subsequent events through December 19, 2014, which is the date the accompanying financial statements were available to be issued.

Subsequent to year end, the Plan has established new eligibility requirements. Effective, July 1, 2014, eligible participants may make pre-tax contributions to the Plan after they are hired, or if later, after they attain age 21. However, eligible participants must be at least age 21 and complete one year of service in which they have worked a minimum of 1,000 hours to receive Company contributions under the Plan.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2—Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3—Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

The fair value of investments measured on a recurring basis at the reporting date of June 30, 2014 is presented below:

	Level 1	Level 2	Total
Mutual funds:			
Fixed income	$ 39,455,788	$ -	$ 39,455,788
U.S. equities	305,857,841		305,857,841
International equities	33,786,713		33,786,713
Target retirement date	769,611,667		769,611,667
Brokeragelink	14,477,841		14,477,841
Common collective trusts:			
Stable value		46,051,832	46,051,832
U.S. equities		28,157,596	28,157,596
Money market fund	15,084,166		15,084,166
Total	$ 1,178,274,016	$ 74,209,428	$ 1,252,483,444

The fair value of investments measured on a recurring basis at the reporting date June 30, 2013 is presented below:

	Level 1	Level 2	Total
Mutual funds:			
Fixed income	$ 44,862,314	$ -	$ 44,862,314
U.S. equities	237,215,378		237,215,378
International equities	26,404,351		26,404,351
Target retirement date	642,553,216		642,553,216
Brokeragelink	9,617,931		9,617,931
Common collective trusts:			
Stable value		43,442,581	43,442,581
U.S. equities		21,424,862	21,424,862
Money market fund	17,889,358		17,889,358
Cash	4,562		4,562
Total	$ 978,547,110	$ 64,867,443	$ 1,043,414,553

Mutual and money market funds are valued at the net asset value ("NAV") of shares held by the Plan at year end. NAV is derived from the quoted market prices of underlying investments.

The common collective trusts are valued based on the net asset value ("NAV") of the underlying investments based on quoted market prices obtained through authorized pricing sources or valuation techniques used by each fund's manager. Valuation techniques used by each fund's manager may include significant market or security specific events, changes in interest rates and credit quality and developments in foreign markets which are monitored and by evaluating performance of American depositary receipts, future contracts and exchange traded funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While the Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different

methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used to determine fair value at June 30, 2014 and 2013. There have been no transfers between fair value hierarchy levels during the year ended June 30, 2014.

4. INVESTMENTS

5. STABLE VALUE FUND

The Fidelity MGD Income Portfolio II (the "Portfolio" or "Stable Value Fund") is a fully benefit-responsive common collective trust sponsored by an affiliate of the Trustee. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Portfolio's constant net asset value of $1 per unit. Distribution to the Portfolio's unit holders is declared daily from the net investment income and automatically reinvested in the Portfolio on a monthly basis, when paid. It is the policy of the Portfolio to use its best efforts to maintain a stable net asset value of $1 per unit, although there is no guarantee that the Portfolio will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Portfolio, plus earnings, less participant withdrawals and administrative expenses. The Portfolio imposes certain restrictions on participants. Participants are not permitted to make direct transfers from the Portfolio into a competing fund without first exchanging transfers into a non-competing fund for a period of 90 days.

The Portfolio may be subject to circumstances that affects its ability to transact at contract value. The following employer-initiated events may limit the ability of the Portfolio to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA,
- Any communication given to Plan participants designed to influence a participant not to invest in the Portfolio or to transfer assets out of the Portfolio,
- Any transfer of assets from the Portfolio directly into a competing investment option,
- The establishment of a defined contribution plan that competes with the Plan for employee contributions,
- A complete or partial termination of the Plan or its merger with another plan.

Plan management believes that the occurrence of events that would cause the Portfolio to transact at less than contract value is not probable.

At June 30, 2014 and 2013, the fair value to contract value ratio was 101.9% and 101.4% respectively. As of June 30, 2014 and 2013, an adjustment is reflected on the accompanying statements of net assets available for benefits. The adjustment from fair value to contract value is as follows as of June 30:

	2014	2013
Stable Value Fund—at fair value	$46,051,832	$43,442,581
Adjustment from fair value to contract value	(837,781)	(602,759)
Stable Value Fund—at contract value	$45,214,051	$42,839,822

For the years ended June 30, 2014 and 2013, the average yield earned by participants in the Stable Value Fund was 1.2%.

6. NET ASSET VALUE PER SHARE

A summary of the Plan's investments where fair value is estimated using the NAV per share is as follows for the years ended June 30:

	2014				
Investment	Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Fidelity MGD Income Portfolio II [(a)]	$ 46,051,832	$ -	Immediate	None	None
Fidelity U.S. Equity Index Pool [(b)]	28,157,596		Immediate	None	None
	$ 74,209,428	$ -			

	2013				
Investment	Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Fidelity MGD Income Portfolio II [(a)]	$ 43,442,581	$ -	Immediate	None	None
Fidelity U.S. Equity Index Pool [(b)]	21,424,862		Immediate	None	None
	$ 64,867,443	$ -			

* The fair values of the investments have been estimated using the net asset value of the investment.

a) This fund's strategy seeks to preserve the principal investment while earning interest income. The fund tries to maintain a stable $1 unit price, but it cannot guarantee that it will be able to do so.

b) This fund's strategy seeks to provide investment results that correspond to the total return performance of common stocks publicly traded in the United States. Under normal circumstances, 90% of the pool will be invested in securities of companies which compose the S&P 500 Index.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds, money market funds and common collective trusts managed by Fidelity Investments, an affiliate of the Trustee. All transactions with Fidelity Investments qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services were $156,439 and $149,414 for the year ended June 30, 2014 and 2013, respectively. Transactions involving notes receivable from participants also qualify as party-in-interest transactions.

8. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated May 24, 2012, that the Plan and related trust are designed in accordance with the applicable regulations of the Code. The Administrator and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Code and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements for the years ended June 30, 2014 and 2013.

GAAP requires the Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan and has concluded that as of June 30, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax

periods in progress. The Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their Company discretionary contributions as of the date of termination.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to the Form 5500 as of June 30:

	2014	2013
Net assets available for benefits per accompanying financial statements	$ 1,324,314,407	$ 1,104,753,298
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	837,781	602,759
Net assets available for benefits per Form 5500	$ 1,325,152,188	$ 1,105,356,057

The following is a reconciliation of the change in net assets available for benefits per the accompanying financial statements to net income per the Form 5500 as of June 30:

	2014	2013
Net increase in net assets available for benefits per accompanying financial statements	$ 219,561,109	$ 157,451,701
Change in fair value to contract value for fully benefit-responsive investment contracts	235,022	(559,083)
