Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by PNC Bank, NA (the "Custodian"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and participant notes receivable and executes related transactions. The plan administrator has obtained certifications from the Custodian as of November 13, 2014 and December 31, 2013 and for the period from January 1, 2014 through November 13, 2014 and the year ended December 31, 2013 that the information provided to the plan administrator by the Custodian is complete and accurate.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 1 - Plan Description

The following description of Ormet Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan was terminated effective May 1, 2014. Accordingly, the descriptions below are provisions of the Plan prior to termination. See Note 7 for additional information.

General - The Plan is a defined contribution plan covering substantially all salaried employees of Ormet Primary Aluminum Corporation (the "Company"), Ormet Corporation (the "Parent Company"), and Ormet Aluminum Mill Products Corporation (a wholly owned subsidiary of the Parent Company). The Plan also covers certain hourly and AmClyde employees at Ormet Primary Aluminum Corporation's Burnside, Louisiana facility, which was sold during 2013, and the previously held Jackson, Tennessee facility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 15 percent of the annual compensation and up to 100 percent of any bonus amount as defined by the Plan, subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. There are no longer any new AmClyde participants due to the closure of the Company's marine terminal in a previous year.

The Plan provides for an employer-matching contribution for all salaried employees. The amount of the match is 50 percent of the first 4 percent of pretax deferrals.

The Plan provides employer discretionary contributions for all eligible employees in an amount equal to 2 percent of a covered employee's base pay. The discretionary contribution is for any salaried employee who is not excluded under Section 1.32(a) of the amendment effective May 1, 2007, who is hired or rehired by the Company on or after April 15, 2007, and who is not eligible to accrue benefits under the Ormet Pension Plan on or after April 15, 2007. Discretionary contributions amounted to approximately \$3,000 for the period ended November 13, 2014 and \$125,000 for the year ended December 31, 2013.

Contributions to the Plan were not permissible following May 1, 2014, the effective date of Plan termination (see Note 7).

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution, rollovers, and allocations of the Company's contributions and plan earnings. Allocations are based on the participants' compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - All accounts, other than the Company discretionary contributions, are fully vested and nonforfeitable at all times. Vesting in the Company discretionary contribution is based on years of service as follows: 0 percent with zero to two years, 25 percent with two to three years, 50 percent with three to four years, 75 percent with four to five years, and 100 percent with over five years of service.

During 2013, the Company had a reduction in force that resulted in a partial plan termination. Affected participants, those involuntarily terminated subsequent to September 2013, became 100 percent vested in their account balances as a result of the partial plan termination. All other participants remained subject to the Plan's vesting requirements through the effective date of Plan termination. See Note 7 for additional information.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company discretionary contributions or to pay administrative expenses of the Plan.

Participant Notes Receivable - Participants may borrow from their accounts up to a maximum equal to \$50,000 or 50 percent of their account balance, whichever is less. The notes receivable must be adequately secured and subject to a market rate of interest. Principal and interest are paid ratably through monthly payroll deductions. Participants may borrow funds for a term of no more than five years, unless the note is used to purchase a primary residence.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. The Plan also allows for hardship withdrawals and in-service distributions as described in the plan document.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by PNC Bank, NA (PNC). PNC is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Also, various administrative costs are paid by the Company.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 1 - Plan Description (Continued)

Termination - The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances. See Note 7 for additional information.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - As discussed in Note 7 to the financial statements, the Plan Sponsor terminated the Plan during the period. As a result, the Plan changed its basis of accounting for periods subsequent to December 31, 2013 from the going-concern basis to a liquidation basis.

Pursuant to Plan termination, the Plan adopted the liquidation basis of accounting in fiscal year 2014. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected and liabilities are recorded at amounts expected to be paid during the course of liquidation (see Note 7).

Investment Valuation - The Plan's investments are stated at fair value, except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the funds. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts, fixed-income securities, wrapper contracts, and money market funds. The fair value of the guaranteed investment contract is based on current yields of similar instruments with comparable durations taking into account the contract terms, including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is determined using quoted market prices or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The money market funds are valued at amortized cost, which approximates fair value. The fair value of wrapper contracts provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

Mutual funds are valued based on quoted market prices. See Note 6 for additional information.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Administrative Expenses - Various administrative costs are paid by the Company.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including December 17, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

PNC Bank, NA (the "Custodian") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements as of November 13, 2014 and December 31, 2013 and for the period ended November 13, 2014 and year ended December 31, 2013 are based solely on information provided and certified by the Custodian. No investments were held as of November 13, 2014.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Reconciliation to Form 5500

As of December 31, 2013, the accompanying financial statements have included contributions receivable from the Company and participants in the amount of \$29,992. In the 2013 Form 5500, the Plan has recorded its assets on the cash method of accounting and did not record contributions receivable as of December 31, 2013. Accordingly, contribution income on Form 5500 for the period from January 1, 2014 through November 13, 2014 is \$29,992 higher than the amount reported in the accompanying financial statements.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013. There were no Plan assets held as of November 13, 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 6 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2013

	Level 1	Level 2	Level 3	Balance at December 31, 2013
Mutual funds:				
Equity investments	\$ 14,738,981	\$ -	\$ -	\$ 14,738,981
Fixed-income investments	318,776	-	-	318,776
Balanced investments	634,639	-	-	634,639
Retirement year-based investments	1,200,645	-	-	1,200,645
Common collective trust fund - Stable value fund (1)	-	8,206,929	-	8,206,929
Total	<u>\$ 16,893,041</u>	<u>\$ 8,206,929</u>	<u>\$ -</u>	<u>\$ 25,099,970</u>

(1) This class represents an investment in an actively managed common collective trust fund that invests primarily in guaranteed investment contracts, fixed-income securities, wrapper contracts, and money market funds. There were no unfunded commitments or redemption restrictions.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during the period from January 1, 2014 through November 13, 2014 or during 2013.

Note 7 - Termination of Plan

Effective May 1, 2014, the board of directors of Ormet Primary Aluminum Corporation, the Plan's sponsor, elected to terminate the Plan. All unvested accounts became fully vested as of May 1, 2014. The Plan adopted the liquidation basis of accounting in fiscal year 2014. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected and liabilities are recorded at amounts expected to be paid during the course of liquidation. All plan assets were distributed and the Plan ceased to exist as of November 13, 2014.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 1 - Plan Description

The following description of Ormet Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan was terminated effective May 1, 2014. Accordingly, the descriptions below are provisions of the Plan prior to termination. See Note 7 for additional information.

General - The Plan is a defined contribution plan covering substantially all salaried employees of Ormet Primary Aluminum Corporation (the "Company"), Ormet Corporation (the "Parent Company"), and Ormet Aluminum Mill Products Corporation (a wholly owned subsidiary of the Parent Company). The Plan also covers certain hourly and AmClyde employees at Ormet Primary Aluminum Corporation's Burnside, Louisiana facility, which was sold during 2013, and the previously held Jackson, Tennessee facility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 15 percent of the annual compensation and up to 100 percent of any bonus amount as defined by the Plan, subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. There are no longer any new AmClyde participants due to the closure of the Company's marine terminal in a previous year.

The Plan provides for an employer-matching contribution for all salaried employees. The amount of the match is 50 percent of the first 4 percent of pretax deferrals.

The Plan provides employer discretionary contributions for all eligible employees in an amount equal to 2 percent of a covered employee's base pay. The discretionary contribution is for any salaried employee who is not excluded under Section 1.32(a) of the amendment effective May 1, 2007, who is hired or rehired by the Company on or after April 15, 2007, and who is not eligible to accrue benefits under the Ormet Pension Plan on or after April 15, 2007. Discretionary contributions amounted to approximately \$3,000 for the period ended November 13, 2014 and \$125,000 for the year ended December 31, 2013.

Contributions to the Plan were not permissible following May 1, 2014, the effective date of Plan termination (see Note 7).

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution, rollovers, and allocations of the Company's contributions and plan earnings. Allocations are based on the participants' compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - All accounts, other than the Company discretionary contributions, are fully vested and nonforfeitable at all times. Vesting in the Company discretionary contribution is based on years of service as follows: 0 percent with zero to two years, 25 percent with two to three years, 50 percent with three to four years, 75 percent with four to five years, and 100 percent with over five years of service.

During 2013, the Company had a reduction in force that resulted in a partial plan termination. Affected participants, those involuntarily terminated subsequent to September 2013, became 100 percent vested in their account balances as a result of the partial plan termination. All other participants remained subject to the Plan's vesting requirements through the effective date of Plan termination. See Note 7 for additional information.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company discretionary contributions or to pay administrative expenses of the Plan.

Participant Notes Receivable - Participants may borrow from their accounts up to a maximum equal to \$50,000 or 50 percent of their account balance, whichever is less. The notes receivable must be adequately secured and subject to a market rate of interest. Principal and interest are paid ratably through monthly payroll deductions. Participants may borrow funds for a term of no more than five years, unless the note is used to purchase a primary residence.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. The Plan also allows for hardship withdrawals and in-service distributions as described in the plan document.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by PNC Bank, NA (PNC). PNC is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Also, various administrative costs are paid by the Company.

Note 1 - Plan Description (Continued)

Termination - The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances. See Note 7 for additional information.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - As discussed in Note 7 to the financial statements, the Plan Sponsor terminated the Plan during the period. As a result, the Plan changed its basis of accounting for periods subsequent to December 31, 2013 from the going-concern basis to a liquidation basis.

Pursuant to Plan termination, the Plan adopted the liquidation basis of accounting in fiscal year 2014. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected and liabilities are recorded at amounts expected to be paid during the course of liquidation (see Note 7).

Investment Valuation - The Plan's investments are stated at fair value, except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the funds. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts, fixed-income securities, wrapper contracts, and money market funds. The fair value of the guaranteed investment contract is based on current yields of similar instruments with comparable durations taking into account the contract terms, including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is determined using quoted market prices or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The money market funds are valued at amortized cost, which approximates fair value. The fair value of wrapper contracts provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

Mutual funds are valued based on quoted market prices. See Note 6 for additional information.

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Administrative Expenses - Various administrative costs are paid by the Company.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including December 17, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

PNC Bank, NA (the "Custodian") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements as of November 13, 2014 and December 31, 2013 and for the period ended November 13, 2014 and year ended December 31, 2013 are based solely on information provided and certified by the Custodian. No investments were held as of November 13, 2014.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Reconciliation to Form 5500

As of December 31, 2013, the accompanying financial statements have included contributions receivable from the Company and participants in the amount of \$29,992. In the 2013 Form 5500, the Plan has recorded its assets on the cash method of accounting and did not record contributions receivable as of December 31, 2013. Accordingly, contribution income on Form 5500 for the period from January 1, 2014 through November 13, 2014 is \$29,992 higher than the amount reported in the accompanying financial statements.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013. There were no Plan assets held as of November 13, 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Ormet Savings and Retirement Plan

Notes to Financial Statements November 13, 2014 and December 31, 2013

Note 6 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2013

	Level 1	Level 2	Level 3	Balance at December 31, 2013
Mutual funds:				
Equity investments	\$ 14,738,981	\$ -	\$ -	\$ 14,738,981
Fixed-income investments	318,776	-	-	318,776
Balanced investments	634,639	-	-	634,639
Retirement year-based investments	1,200,645	-	-	1,200,645
Common collective trust fund - Stable value fund (1)	-	8,206,929	-	8,206,929
Total	<u>\$ 16,893,041</u>	<u>\$ 8,206,929</u>	<u>\$ -</u>	<u>\$ 25,099,970</u>

(1) This class represents an investment in an actively managed common collective trust fund that invests primarily in guaranteed investment contracts, fixed-income securities, wrapper contracts, and money market funds. There were no unfunded commitments or redemption restrictions.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during the period from January 1, 2014 through November 13, 2014 or during 2013.

Note 7 - Termination of Plan

Effective May 1, 2014, the board of directors of Ormet Primary Aluminum Corporation, the Plan's sponsor, elected to terminate the Plan. All unvested accounts became fully vested as of May 1, 2014. The Plan adopted the liquidation basis of accounting in fiscal year 2014. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected and liabilities are recorded at amounts expected to be paid during the course of liquidation. All plan assets were distributed and the Plan ceased to exist as of November 13, 2014.
