Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

The Plan Administrator
API Foils North America Pension Plan
Lawrence, Kansas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of API Foils North America Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended March 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of or for the year ended March 31, 2014, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

API FOILS NORTH AMERICA PENSION PLAN
EIN / PN: 48 - 1199126 / 001
Attachment to 2013 Schedule SB (Form 5500)
Line 22 - Description of Weighted Average Retirement Age

Retirement Age: Retirement Age is assumed to be the later of age 65 and 5 years of service.

<u>Weighted Average Retirement Age:</u>	<u>65.0000</u>
--	----------------

Actuarial Cost Method

Actuarial Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in “Plan Assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of October 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the IRS Non-transitional Segment Rates approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date.

In addition, beginning with the 2012 plan year, solely for purposes of determining the minimum required contribution level, applicability of benefit restrictions, and for the at-risk determination, the adjusted 24-month average segment rates established by the Highway and Transportation Funding Act (HATFA) have been incorporated.

The adjusted 24-month average segment rates are generated by taking the unadjusted 24-month average segment rates for the sponsor-chosen lookback month and adjusting them so that each individual segment rate is not outside of the stipulated corridor around the corresponding 25-year average segment rate for the given plan year. For the 2013 plan year, the stipulated corridor is 85% - 115% of these 25-year average segment rates.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.

All funds invested are valued in the following manner:

Definitions

- | | |
|-------|--|
| i(t) | assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3 rd segment rate for the 6-month Period t. |
| C(t) | sum of contributions and other additions to the fund from all sources other than investment transactions in 6-month Period t. |
| W(t) | sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in 6-month Period t. |
| AV(t) | Actuarial Value of Assets as of 6-month Period t. |
| MV(t) | Market Value of Assets as of 6-month Period t. |

Actuarial Cost Method

EV(t) Expected Value of Assets as of 6-month Period t.

G/L(t) Gain or Loss for 6-month Period t.

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 3 6-month periods, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the 6-month period for which C and W are invested

$$G/L(t-1) = EV(t) - MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 3/4 * G/L(t-1) + 1/2 * G/L(t-2) + 1/4 * G/L(t-3)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)]

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

- 3.32% for 10/01/2012 to 03/31/2013

Actuarial Assumptions

The Mortality and Discount Rates are prescribed assumptions for finding which have been applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectation) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Mortality

PPA Funding: The IRS 2013 Static Mortality Table

ASC 960: PPA Mandated Mortality (the IRS 2013 Static Mortality Table for the current valuation)

Discount Rate

For minimum required contribution level, applicability of benefit restrictions, and at risk determination only: Segment Rates with a 4 month lookback, as adjusted by the 85% - 115% corridor around the 25-year average segment rates:

<u>Years</u>	<u>Rate</u>
0 – 5	5.23%
6 – 20	6.51%
21 +	7.16%

For all other purposes: Segment Rates with a 4 month lookback, unadjusted:

<u>Years</u>	<u>Rate</u>
0 – 5	1.66%
6 – 20	4.47%
21 +	5.52%

Investment Return

6.75%

Interest is per annum, compounded annually, net of investment and contract fees applied in determination of Present Value of Accumulated Plan Benefits for ASC-960 accounting.

Investment return assumption is also applied in determination of Actuarial Value of Assets, but it is limited to the applicable 3rd segment rate.

Lump Sum Factors

Mortality: The applicable lump sum mortality tables as defined in IRC Section §417(e) as of the valuation date.

Form of Payment Pre-retirement death benefit is anticipated to be paid as an annuity for the life of the spouse. All other benefits for participants not yet in pay status are anticipated to be paid as lump sums.

Retirement Age 65. Participants at or beyond this age are assumed to retire immediately.

Plan Provisions

Plan Eligibility

Class:	Member of the non-bargaining class.
Entry Date:	Date of employment.
	No new participants are eligible after September 30, 2004.

Normal Retirement Benefit

Age:	Attained age 65 and the beginning of the plan year in which 5 years of plan participation is earned.
Form:	Monthly annuity payable for life (optional forms may be elected in advance of retirement.
Amount (accrued benefit):	The sum of (a) and (b), reduced by (c):

(a) 1% of average compensation on November 1, 1985 multiplied by accrual service prior to November 1, 1985.

(b) 1% of monthly compensation for each year of accrual service on and after October 31, 1985.

Effective October 1, 1998 the percentage under this section is increased from 1% to 1.35% for participants employed in certain job categories listed in Appendix A of the Plan.

(c) Accrued benefit under the ICI Specialty Chemicals Plan.

Benefit accrual is frozen as of September 30, 2004.

Early Retirement Benefit

Age:	Attained age 55.								
Service:	Ten years of service.								
Form:	Same as normal retirement benefit.								
Amount:	Accrued benefit on early retirement date reduced to its actuarial equivalent based on 7% interest and the 1984 Unisex Pension Mortality Table to reflect the fact that early retirement date precedes normal retirement date. Subsidized early retirement benefits are available for those employees after age 55 that meet the rule of 90, with the following reductions:								
	<table> <tr> <th><u>Months Preceding Normal Retirement Date</u></th><th><u>Percentage</u></th></tr> <tr> <td>1st 36 Months</td><td>1/6 of 1%</td></tr> <tr> <td>Next 24 Months</td><td>1/3 of 1%</td></tr> <tr> <td>Next 60 Months</td><td>5/12 of 1%</td></tr> </table>	<u>Months Preceding Normal Retirement Date</u>	<u>Percentage</u>	1 st 36 Months	1/6 of 1%	Next 24 Months	1/3 of 1%	Next 60 Months	5/12 of 1%

Attachment to 2013 Schedule SB (Form 5500)
Line 22 - Description of Weighted Average Retirement Age

Retirement Age: Retirement Age is assumed to be the later of age 65 and 5 years of service.

Weighted Average Retirement Age:

65.0000

Actuarial Cost Method

Actuarial Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in “Plan Assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of October 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the IRS Non-transitional Segment Rates approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date.

In addition, beginning with the 2012 plan year, solely for purposes of determining the minimum required contribution level, applicability of benefit restrictions, and for the at-risk determination, the adjusted 24-month average segment rates established by the Highway and Transportation Funding Act (HATFA) have been incorporated.

The adjusted 24-month average segment rates are generated by taking the unadjusted 24-month average segment rates for the sponsor-chosen lookback month and adjusting them so that each individual segment rate is not outside of the stipulated corridor around the corresponding 25-year average segment rate for the given plan year. For the 2013 plan year, the stipulated corridor is 90% - 110% of these 25-year average segment rates.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.

All funds invested are valued in the following manner:

Definitions

- | | |
|-------|--|
| i(t) | assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3 rd segment rate for the 6-month Period t. |
| C(t) | sum of contributions and other additions to the fund from all sources other than investment transactions in 6-month Period t. |
| W(t) | sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in 6-month Period t. |
| AV(t) | Actuarial Value of Assets as of 6-month Period t. |
| MV(t) | Market Value of Assets as of 6-month Period t. |

Actuarial Cost Method

EV(t) Expected Value of Assets as of 6-month Period t.

G/L(t) Gain or Loss for 6-month Period t.

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 3 6-month periods, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the 6-month period for which C and W are invested

$$G/L(t-1) = EV(t) - MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 3/4 * G/L(t-1) + 1/2 * G/L(t-2) + 1/4 * G/L(t-3)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)]

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

Actuarial Assumptions

The Mortality and Discount Rates are prescribed assumptions for finding which have been applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectation) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Mortality

PPA Funding: The IRS 2013 Static Mortality Table

ASC 960: PPA Mandated Mortality (the IRS 2013 Static Mortality Table for the current valuation)

Discount Rate

For minimum required contribution level, applicability of benefit restrictions, and at risk determination only: Segment Rates with a 4 month lookback, as adjusted by the 90% - 110% corridor around the 25-year average segment rates:

<u>Years</u>	<u>Rate</u>
0 – 5	5.23%
6 – 20	6.51%
21 +	7.16%

For all other purposes: Segment Rates with a 4 month lookback, unadjusted:

<u>Years</u>	<u>Rate</u>
0 – 5	1.66%
6 – 20	4.47%
21 +	5.52%

Investment Return

6.75%

Interest is per annum, compounded annually, net of investment and contract fees applied in determination of Present Value of Accumulated Plan Benefits for ASC-960 accounting.

Investment return assumption is also applied in determination of Actuarial Value of Assets, but it is limited to the applicable 3rd segment rate.

Lump Sum Factors

Mortality: The applicable lump sum mortality tables as defined in IRC Section §417(e) as of the valuation date.

Interest
PPA Funding: Same as Discount Rate

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of API Foils North America Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended March 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of or for the year ended March 31, 2014, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of Plan

The following brief description of the API Foils North America Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The Plan is a noncontributory defined benefit plan covering all nonunion employees of API Foils, Inc. (the Company), who meet certain eligibility requirements as to length of service and age. It is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA), as amended. The Investment Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The effective date of the Plan is November 1, 1985. The original name of the Plan was the Dri-Print Foils, Inc. Pension Plan. Dri-Print Foils, Inc. merged with Astor Universal Foils, Inc. during 1998 and the merged plan is the API Foils North America Pension Plan. Employees of the merged companies are eligible for participation in the Plan. Former employees of Dri-Print Foils, Inc. are eligible to be participants of this Plan as of their employment commencement date. Former employees of Astor Universal Foils, Inc. are eligible to be participants of this Plan as of April 8, 1998 or as of their employment commencement date. However, all years of service with Astor Universal Foils, Inc. are counted for purposes of determining vesting service.

Effective October 1, 2004, the Plan was amended to permanently cease benefit accruals to all participants. In addition, no future employees will become active plan participants and no future changes in compensation will be taken into account in determining a participant's accrued benefit. Any benefit accrued under the Plan by a participant before October 1, 2004 will remain in the Plan until the participant elects to begin to take pension distributions.

Pension Benefits

The Plan provides participants or their beneficiaries with benefits in accordance with a benefit formula. The benefit amount is based on age, years of service, compensation, and other relevant factors. Full vesting is provided after five years of service have been completed.

Employees are entitled to receive benefit payments at the normal retirement age of 65, although earlier retirement with lesser benefits is permitted. Benefit payments are paid in the following forms: (1) single life annuity for participant only; (2) years certain and life annuity with a five, ten or fifteen-year period certain for participant or designated beneficiary; (3) percentage certain and life annuity with a 50%, 66 2/3%, 75% or 100% certain for participant or designated beneficiary; or (4) lump sum distribution.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

Certain administrative expenses relating to the operations of the Plan are paid by the Company. All other administrative expenses are paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through December 2, 2014, the date the financial statements were available to be issued.

API FOILS NORTH AMERICA PENSION PLAN

Notes to Financial Statements March 31, 2014 and 2013

(3) Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts that are estimated to ensure all employees' benefits will be fully provided for by the time they retire. The Company's contributions of \$167,180 and \$123,733 for the years ended March 31, 2014 and 2013, respectively, met or exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(4) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect any time during the five years preceding plan termination.
- Other vested benefits insured by the Pension Benefits Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

API FOILS NORTH AMERICA PENSION PLAN

Notes to Financial Statements March 31, 2014 and 2013

(4) Plan Termination, Continued

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2014, that ceiling was \$4,943 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

(5) Investments

The following presents investments that represent 5% or more of the Plan's net assets at March 31:

	2014	2013
Prudential Core Plus Bond/ PIMCO Fund	\$ 1,759,614	\$ 1,434,713
Prudential Large Capital Blend/ MFS Fund	\$ 459,546	\$ 459,226
Prudential Large Capital Value/ LSV Asset Management Fund	\$ 360,371	\$ 378,185
Prudential Large Capital Growth/ JP Morgan Fund	\$ 341,811	\$ 330,666
Prudential International Blend/ Munder Capital Fund	\$ 213,008	\$ 195,285

During 2014 and 2013, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by \$329,742 and \$284,901, respectively.

(6) Investments Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, as permitted under such elections, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Prudential Retirement Insurance and Annuity Company (Prudential) except for comparing such information to information included in the Plan's financial statements and supplemental schedules. The following information was certified as complete and accurate by Prudential:

- Investments, at fair value, at March 31, 2014 and 2013.
- Net appreciation in fair value of investments for the years ended March 31, 2014 and 2013.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year).
- Schedule H, Line 4j – Schedule of Reportable Transactions.

(7) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

(7) Fair Value Measurements, Continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2014 and 2013.

Pooled separate accounts: Valued at the net asset value (NAV) of units held by the Plan at year end based on the market value of its underlying investments. Although the pooled separate accounts are not available in an active market, the NAV of the units are approximated based on the quoted prices of the underlying investments that are traded in an active market. The Company has no unfunded commitments related to any of these investments and there are no Plan initiated redemption restrictions on these investments. There are no redemption restrictions on holdings in the investments and the Plan can redeem these investments daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(8) Actuarial Present Value of Accumulated Pension Benefits, Continued

The change in the actuarial present value of accumulated plan benefits for the years ended April 1:

	2013	2012
Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,858,695	\$ 3,513,084
Increase (decrease) attributable to:		
Benefits accumulated and actuarial (gain) loss	42,675	(49,790)
Increase for interest due to decrease in the discount period	255,984	254,943
Assumption changes	8,973	372,331
Benefits paid	(134,886)	(231,873)
Net increase	172,746	345,611
Actuarial present value of accumulated plan benefits at end of year	\$ 4,031,441	\$ 3,858,695

(9) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated participants or their beneficiaries are based principally on the participants' annual benefit earned prior to November 1, 1985 and the benefit earned after November 1, 1985 reduced by any benefit earned under the ICI Specialty Chemical Pension Plan. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to the employee service rendered at the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

(9) Actuarial Present Value of Accumulated Plan Benefits, Continued

The actuarial present value of accumulated plan benefits is determined by an actuary from Prudential Retirement Services and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations are as follows at April 1:

	2013	2012
Interest rate	6.75%	6.75%
Discount rate	4.5%	4.5%
Mortality (predecrement and and postdecrement)	IRS 2013 Static Mortality Table	IRS 2012 Static Mortality Table
Retirement age	Attained age 65	Attained age 65
Funding method	Unit Credit Actuarial Cost Method	Unit Credit Actuarial Cost Method

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. As a result of the above changes in actuarial assumptions, the actuarial present value of accumulated plan benefits increased by \$8,973 for the year ended March 31, 2014.

(10) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are pooled separate accounts managed by Prudential. Prudential is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment.

(11) Tax Status

The Internal Revenue Service (IRS) has determined and informed the plan sponsor by a letter dated December 11, 2007, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(11) Tax Status, Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for fiscal years prior to 2011.

(12) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes, could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rate, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
