INDEPENDENT AUDITORS' REPORT

Administrative Committee of the Veterinary Service, Inc.
Employee Stock Ownership Plan
Modesto, California

Report on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Veterinary Service, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of March 31, 2014, and 2013, and the related statement of changes in net assets available for benefits for the year ended March 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of March 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended March 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the basis financial statements taken as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets Held For Investment Purposes at March 31, 2014, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as whole.

NOTE 1 – DESCRIPTION OF THE PLAN

General: Veterinary Service, Inc. (the Company), established the Veterinary Service, Inc. Employee Stock Ownership Plan (the Plan) effective April 1, 1990. The Plan, as amended, operates as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code 2586 (the Code), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. An administrative committee appointed by the Company's Board of Directors administers the Plan.

Eligibility: Each employee shall become a participant in the Plan as of the first day of the plan year in which the employee first completes 1,000 hours of service, provided the employee has attained the age of 18.

Payment of benefits: No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to their beneficiary or, if none, their legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash. Account balances exceeding $50,000 shall be paid in five substantially equal annual installments.

If a participant's vested amount exceeds $1,000, any distribution made prior to the date the participant attains normal retirement age can only be made with the participant's consent.

Voting rights: The Trustee, in accordance with instructions, shall vote all Company stock held by the Plan from the administrative committee. The participants shall be entitled to direct the voting of Company stock allocated to their Company stock account with respect to a vote required for the approval of any merger, consolidation, recapitalization, reclassification, liquidation, dissolution, sale, or other transactions prescribed by regulations. The Trustee votes unallocated shares held by the Plan.

Participant accounts: The Plan is a defined contribution Plan under which a separate individual account is established for each participant. As of the end of each plan year, each participant is allocated a share of the current year's earnings based on their account balance as of the beginning of the year. The contribution for each year is divided among eligible participants in proportion to their share of covered compensation.

Contributions: Employer contributions are at the discretion of the Company's Board of Directors.
The Company's contribution is allocated to each participant based on covered compensation, as defined by the Plan.

Vesting: Participants vest in their accounts based on years of service, as defined by the Plan. A participant is fully vested after six years of credited service, after attaining normal retirement age, or upon death.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6 year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Forfeited accounts: The non-vested balances are forfeited and reallocated to the remaining participants. In the plan year ended March 31, 2014, there was a redistribution of $94,092 of forfeited, non-vested accounts.

Notes receivable from participants: A participant that is 100% vested in a plan benefit and is an active employee of the Company may apply to the plan committee for a loan from the participant's other investments account under the Plan at a minimum of $10,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's other investment account and bear interest at rates which are commensurate with local prevailing rates as determined periodically by the plan committee. Principal and interest is paid ratably through monthly payroll deductions. If a participant defaults on loan payments the loan may be deemed a distribution by the plan committee.

Administrative expenses: The Company pays the administrative costs of the Plan associated with plan communication and recordkeeping, as well as provides equipment, personnel, and supplies to administer the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting: The Plan maintains its accounting records and financial statements on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuations and concentration: The common shares of the qualified employer securities are valued at fair value on March 31, 2014 and 2013, as determined by annual independent appraisals. It is reasonably possible that the value of the shares could change significantly at any time and, given that over 94% of the plan's net assets consist of Company securities, a significant decrease in the value of the shares could have a severe impact on the plan's asset value.

Payment of benefits: Benefits are recorded when paid. The total vested benefits due to participants terminated but not paid at March 31, 2014 and 2013 was $7,044,786 and $2,294,768, respectively.

NOTE 3 – ADMINISTRATION OF PLAN ASSETS

The plan's assets, which consist principally of sponsor company common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, who invests cash received and interest income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 4 – INVESTMENTS

The Plan's investment in qualified employer securities at March 31 is as follows:

	2014	2013
Number of shares	125,683	125,683
Cost	$ 8,475,292	$ 8,475,292
Fair value	$ 30,828,783	$ 24,121,081

Investments exceeding 5% of the plan's net assets available for benefits consist of the qualified employer securities.

The plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $6,707,702.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2014 and 2013:

Qualified employer securities: The fair value of the sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective value or reflective of future fair values. Furthermore, although the plan's administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value:

Assets at Fair Value as of March 31, 2014:

	Level 1	Level 2	Level 3	Total
Qualified employer securities	$ –	$ –	$ 30,828,783	$ 30,828,783
Total assets at Fair Value	$ –	$ –	$ 30,828,783	$ 30,828,783

Assets at Fair Value as of March 31, 2013:

	Level 1	Level 2	Level 3	Total
Qualified employer securities	$ –	$ –	$ 24,121,081	$ 24,121,081
Total assets at fair value	$ –	$ –	$ 24,121,081	$ 24,121,081

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended March 31, 2014.

	Qualified Employer Securities
Level 3 Assets	
Balance, beginning of year	$ 24,121,081
Unrealized gains (losses) relating to assets still held at the reporting date	6,707,702
Balance – end of year	$ 30,828,783

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

NOTE 6 – RELATED-PARTY TRANSACTIONS

Administrative expenses for the Trustee's fees and Plan audit fees are paid directly by the Plan Sponsor.

NOTE 7 – PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 8, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTE 8 – TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of total expense per the financial statements at March 31, 2014 to the Form 5500:

Total Expenses per the financial statements	$ 1,588,314
Interest expense included as expense on Form 5500	1,725
Total expense per the Form 5500	$ 1,590,039

NOTE 10 – S CORPORATION DISTRIBUTION

The Company is an S corporation for tax purposes. The Company declared distributions of $1,019,253 and $1,185,242 for the years ended March 31, 2014 and 2013, respectively, of which $1,019,253 is due to the ESOP in 2014.

NOTE 11 – SUBSEQUENT EVENTS

The plan sponsor has evaluated subsequent events through November 21, 2014, the date the financial statements were available to be issued.
