INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements
We were engaged to audit the accompanying statements of the Roush Honda Employee Stock Ownership Plan (the "Plan") as of December 31, 2013 and 2012, which comprise the statements of net assets available for benefits, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matter – Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented as of December 31, 2013, for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ROUSH HONDA EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN

General

The Roush Honda Employee Stock Ownership Plan (the "Plan") was formed on December 30, 1991, by Roush Equipment, Inc. (the "Plan Sponsor"). Information concerning benefits, allocations, forfeitures, and other provisions under the Plan is included in the Roush Honda Employee Stock Ownership Plan Agreement which is available for review by participants. Participants should refer to this document for more complete information.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan includes accounts transferred to the Plan by certain participants from the terminated Roush Hardware Money Purchase Pension Plan (the "MPP").

Contributions

The Plan provides for discretionary employer contributions subject to limitations based on total participants' compensation and net income of the Company. Contributions are subject to certain limitations pursuant to Section 401(k) of the Internal Revenue Code.

Participant Accounts

Individual account balances are maintained for each participant. Account balances are adjusted annually at the end of each Plan year as follows:

Employer contributions and forfeitures are allocated to participants in the same proportion that each participant's compensation for the year bears to the total compensation of all such participants for the year.

A pro rata share of income, expenses, and realized (unrealized) gains (losses) is allocated to participants based on the percentage, which each participant's account balance at the beginning of the year bears, to the total of all participants' account balances at that date.

Eligibility

The Plan is a defined contribution benefit plan covering all full-time employees of Roush Equipment, Inc. (the "Company") who have one year of service and are age 21 or older.

Vesting

The Plan's vesting provisions are as follows:

Year	Percent
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

The years of vesting are calculated based on the number of hours of service. A minimum of 1,000 hours of services must be provided to complete a year of vesting service.

NOTE 1: DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits
Benefits are recorded when paid.

Forfeitures
There were no forfeited, non-vested accounts at December 31, 2013 and 2012. Forfeitures are allocated among eligible participants at the end of the Plan year in which the forfeiture occurs.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation
The accounting records of the Plan are maintained on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Voting Rights
Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. Any allocated Company stock with respect to which voting instructions are not given shall be voted in the manner determined by the Plan Administrator.

Put Option
Under Federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market, nor is it subject to trading limitations including a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification
Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may transfer cash to another Company qualified plan, be paid in cash, or, if otherwise eligible, receive a direct rollover out of the ESOP.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The Plan relies significantly on the use of estimates in determining the value of Roush Common Stock, which is the primary investment.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Trustee and administrative expenses are paid by the Plan Sponsor, which also provides other accounting and administrative support services to the Plan without compensation.

Recent Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topic in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent Events

Subsequent events have been evaluated through September 3, 2014, which is the date the financial statements were available to be issued.

NOTE 3: INVESTMENTS

The following is a summary of stock activity for the year ended December 31:

	2013	2012
Shares owned by the Plan at year end	13,391	13,306
Carrying value of shares at year end	$ 3,613	$ 3,089
Net appreciation of stock value	$7,016,956	$ 4,457,510

Since Roush Equipment, Inc. is a closely held entity, there is no established market price for the shares. Valuation of common shares was determined by an independent appraiser using a weighted average formula based on adjusted net assets and historical earnings. This investment represents 5% or more of net assets available for benefits.

NOTE 3: INVESTMENTS (CONTINUED)

The following is a summary of allocated and unallocated stock amounts for the year ended December 31:

	2013	2012
Allocated shares	13,391	13,306
Unallocated shares	-	-
Total shares	13,391	13,306
Cost	$ 1,676,936	$ 1,666,274
Estimated fair value	$ 48,382,183	$ 41,102,234

Pursuant to Section 6.3 of the Plan Document and the contribution limits imposed by IRC Section 404(a), the amounts over the limit are classified as unallocated and will be used to offset future contributions.

NOTE 4: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stock: Valued by an annual independent appraisal.

Money Market and Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

December 31, 2013

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Balanced	$ 8,786	$ -	$ -	$ 8,786
Small Mid Cap	3,213	-	-	3,213
Growth	4,747	-	-	4,747
Common Stock	-	-	48,382,183	48,382,183
Total assets at fair value	$ 16,746	$ -	$ 48,382,183	$ 48,398,929

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

December 31, 2012

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Balanced	$ 7,092	$ -	$ -	$ 7,092
Small Mid Cap	14,186	-	-	14,186
Growth	3,506	-	-	3,506
Common Stock	-	-	41,102,234	41,102,234
Total assets at fair value	$ 24,784	$ -	$ 41,102,234	$ 41,127,018

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

Summary of changes in the fair value of the Plan's Level 3 assets as of December 31, 2013

	Common stock
Balance, beginning of the year	$ 41,102,234
Net appreciation in fair value of common stock	7,016,956
Contributions	262,993
Balance, end of the year	$ 48,382,183

Summary of changes in the fair value of the Plan's Level 3 assets as of December 31, 2012

	Common stock
Balance, beginning of the year	$ 37,305,684
Net appreciation in fair value of common stock	4,457,510
Sales	(660,960)
Balance, end of the year	$ 41,102,234

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Gains and losses (realized and unrealized) included in the changes in net assets for the period above are reported in the net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves plan management's selection of an independent appraiser under contract. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

NOTE 5: RELATED PARTY OF PARTY IN INTEREST TRANSACTIONS

Certain Plan investments include shares of the Plan Sponsor. Roush Equipment, Inc. is the Plan Sponsor; therefore, these transactions qualify as party-in-interest.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, each participant's account automatically becomes 100% vested. The net assets of the trust would be distributed in a form of payment as determined by the Administrative Committee.

NOTE 7: TAX STATUS

The Plan obtained its latest determination letter on November 4, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
