Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Mutual of America Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of June 30, 2014 and 2013, and for the year ended June 30, 2014, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of June 30, 2014, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1. Plan Description

The following description of the 401(k) Profit-Sharing Plan for Employees of Goodwill Industries Vocational Enterprises, Inc. (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all qualified employees of Goodwill Industries Vocational Enterprises, Inc. (Company). Employees are immediately eligible to participate in the Plan on the first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's Board of Directors is responsible for oversight of the Plan. The Finance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

Contributions: Each year, participants may contribute pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing certain distributions from other qualified plans. The Company contributes four percent of each participant's eligible compensation as defined in the Plan. Participants are eligible to receive Company contributions the first day of the month following one year of employment service, which consists of 1,000 hours. The Company may, at its discretion, make an additional employer contribution to the Plan. Participants who are eligible to receive Company contributions and are employed on the last day of the Plan year are eligible to receive discretionary employer contributions. The Company declared a two percent discretionary contribution for the 2014 plan year, which was paid subsequent to year-end. Contributions are subject to certain limitations.

Participant accounts: Each participant account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options: Participants direct their salary deferral and Company contributions to selected investments as made available and determined by the Plan Custodian. Participants may change their investment options any time throughout the year.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest 20 percent per year and are 100 percent vested after five years of credited service, attainment of normal retirement age, death or total and permanent disability during the term of employment, or termination of the Plan.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a market rate. Loan terms range from 1 to 5 years or not to exceed 10 years for the purchase of a primary residence. Principal and interest are paid ratably each month through payroll deductions.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the vested balance in his or her account or installment payments over a specified period of time in accordance with Plan provisions. Upon termination, participants may elect to hold their investments in the Plan, unless the investment is less than \$1,000, in which case the investment is automatically distributed. A participant may elect to receive an in-service distribution if certain conditions are met.

Forfeited accounts: Forfeited nonvested accounts will be used to reduce future employer contributions. Forfeitures of \$8,819 were used to reduce the Company's contributions during the 2014 Plan year.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Generally accepted accounting principles (GAAP) require the statements of net assets available for benefits to present the fair value of the investment contract, as well as any adjustment of the fully benefit-responsive investment contract from fair value to contract value. The changes in value of these investments are reflected on the statement of changes in net assets available for benefits on a contract value basis.

Use of estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Finance Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Administrative expense: Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Current accounting developments: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this ASU cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments which were immediately effective upon issuance. The adoption of this update did not have a significant effect on these financial statements.

Notes to Financial Statements

Subsequent events: The Plan has evaluated subsequent events through December 4, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Mutual of America Life Insurance Company

The following is a summary of the Plan's asset information as of June 30, 2014 and 2013, and for the year ended June 30, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule relating to the following assets:

	2014	2013
Investments:		
Pooled separate accounts	\$ 1,110,631	\$ 873,252
Investments in funds held in insurance company general account	492,318	443,747

Mutual of America also certified to the completeness and accuracy of \$153,773 of net appreciation in fair value of pooled separate accounts, \$4,700 of interest related to the interest accumulation account, and \$1,374 of interest from notes receivable from participants for the year ended June 30, 2014.

The following presents investments that represent five percent or more of the Plan's net assets as of June 30, 2014 and 2013.

	2014	2013
Investments, pooled separate accounts at fair value:		
Mutual of America:

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

Shares of pooled separate accounts: Pooled separate accounts invest in single mutual funds. The fair values of these pooled separate accounts are primarily based on quoted market prices for the underlying securities or similar instruments.

Investment in funds held in insurance company general account: Investment contracts are reported at contract value, which approximates fair value (see Notes 5 and 9). This determination is based on Mutual of America's credit rating and yield during 2014 and 2013 being comparable to similar alternative investments and also because the interest rate resets quarterly.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

401(k) Profit-Sharing Plan for Employees of Goodwill Industries Vocational Enterprises, Inc.

Notes to Financial Statements

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2014, there were no transfers in or out of Levels 1, 2, or 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014 and 2013.

	Assets at Fair Value as of June 30, 2014

Notes to Financial Statements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the range of values for those inputs:

Investment Contracts:	Fair Value as of June 30,		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
	2014	2013			
Mutual of America Guaranteed Interest Accounts	\$ 492,318	\$ 443,747	Discounted cash flow	Risk-adjusted discount rate applied	1%-1.35% (*)

* Calculation of a weighted average was not feasible as the Plan holds a large number of contracts. Additionally a Plan level weighted average would not be a meaningful measurement with respect to any individual contract.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of June 30, 2014 and 2013.

- (a) The pooled separate accounts in this category seek current income and capital appreciation. Selected funds within this category may invest in fixed income funds of the investment company or equity funds of the investment company. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

401(k) Profit-Sharing Plan for Employees of Goodwill Industries Vocational Enterprises, Inc.

Notes to Financial Statements

- (b) The pooled separate accounts in this category seek competitive total return through an actively managed portfolio of stocks, bonds and money market instruments that offer income and capital growth opportunity. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.
- (c) The pooled separate accounts in this category seek reasonable income and capital appreciation with a portfolio that has a goal to achieve a yield similar to or exceeding the S&P 500. Selected funds within this category may invest in equity securities (common stocks) of U.S. Companies. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.
- (d) The pooled separate accounts in this category provide as high a level of current income over time as is believed to be consistent with prudent investment risk. Selected funds within this category may invest in investment-grade, publicly traded debt securities, mortgage- or asset-backed securities or securities issued or guaranteed by the U.S. Government or its agencies. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.
- (e) The pooled separate accounts in this category seek current income and capital appreciation appropriate for the assets allocation associated with its target retirement date. Selected funds within this category may invest in fixed income investment company funds and equity investment company funds.

Note 5. Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract (Interest Accumulation Account) with Mutual of America. Mutual of America maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The contract is included in the financial statement at contract value, as reported by Mutual of America. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Mutual of America indicates that contract value approximates fair value for these investments at June 30, 2014 and 2013. The crediting interest rate is based on a formula agreed upon with the issuer and may not be less than 1 percent nor greater than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

The contract does not contain a scheduled maturity date.

Average Yields	2014	2013
Based on actual earnings	1.00%	1.35%
Based on interest rate credited to participants	1.00%	1.35%

401(k) Profit-Sharing Plan for Employees of Goodwill Industries Vocational Enterprises, Inc.

Notes to Financial Statements

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to change or to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 4, 2014, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is being operated in compliance with the applicable provisions of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods under progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8. Related Party Transactions and Party In Interest Transactions

Certain Plan investments are in a general account and in pooled separate accounts managed by Mutual of America Life Insurance Company. Mutual of America Life Insurance Company is a custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to Mutual of America of \$1,231, which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities in its pooled separate accounts. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Approximately 31 percent and 34 percent of the Plan's investments are held in a guaranteed interest account with Mutual of America at June 30, 2014 and 2013, respectively, as disclosed in Note 5. As such, this is considered to be a concentration of credit risk.

GAAP requires the financial statements to present the fair value of investments. The above investments have been presented at contract value, which approximates fair value, as reported to the Plan by Mutual of America. This determination is based on Mutual of America's credit rating and yield during 2014 and 2013 being comparable to similar alternative investments. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant.
