1. DESCRIPTION OF PLAN

General

The following description of the Medco Enterprises, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective January 1, 1996, Medco Enterprises, Inc. (the "Company" or the "Employer") established the Plan. The Plan is a defined contribution retirement plan covering all eligible employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Employees of the Company, who are age twenty-one or older and have completed one year of service, as defined in the Plan document, or, if earlier, ninety continual days of service, are eligible to participate in the Plan. Employees subject to a collective bargaining agreement, leased employees and non-resident aliens are not eligible to participate in the Plan. Additionally, employees, who are age twenty-one or older and have completed twelve months of service, including at least 1,000 hours in that year, are eligible to share in the employer matching contribution, qualified matching contribution or non-elective contributions, as defined in the Plan document.

Elective Deferrals

The Plan allows each participant to contribute from 1% to 50% of his or her compensation, as defined, up to the maximum annual amount allowed by law. These deferrals may be made in whole percentages or in specific dollar amounts as designated by the participant. Participants may also elect to defer up to 100% of eligible compensation for one or more pay periods, subject to the maximum annual amounts noted above. In addition, participants may defer 100% of bonus and severance compensation, subject to certain limitations. Catch-up contributions are allowed. After-tax contributions are not allowed.

Rollovers

Any employee, regardless of whether the Plan's eligibility requirements have been met, may make a rollover contribution into the Plan.

Employer Contributions

The Employer may, at its discretion, make a matching contribution to the Plan in any specific dollar amount or any percentage of elective deferrals. No matching contributions were made in the year ended December 31, 2013.

Participant Accounts

The Plan is a participant-directed account plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants' accounts are credited with participant contributions, rollovers and an allocation of any Employer contributions. Plan earnings and administrative expenses are allocated based on a participant's account balance in proportion to the balances of all participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant will be fully vested in their entire account upon reaching normal retirement age, as defined in the Plan document. Participants are at all times 100% vested in elective deferrals, rollovers, and certain matching contributions. Certain employer contributions vest 0% in the first year and 20% each year thereafter.

1. DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Forfeitures may be used for several purposes such as to pay Plan expenses. Remaining forfeitures may be used to reduce matching contributions and then may be allocated to participants' accounts. There were no forfeited amounts in 2013 and 2012, and there was no balance in the forfeiture account at December 31, 2013 and 2012.

Investment Options

Contributions are invested by ING Life Insurance and Annuity Company ("ING"), the trustee of the Plan, according to the options elected by the participants. All participant and Employer contributions are directed by the participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived. The Plan offers investment options in a fixed income fund (a group annuity contract), and a separate account, which permits participants to select among 10 underlying publicly traded mutual funds and one money market fund.

Notes Receivable from Participants

Participants are permitted to borrow from their participant accounts at a minimum of $1,000 not to exceed a maximum of $50,000, or 50% of the participant's vested account balance, whichever is less. The notes are secured by the participant's vested funds and, except for funds used to acquire a principal residence, must have a repayment period of no greater than five years. The interest rate for loans outstanding as of December 31, 2013 was 4.25%. Interest rates are commensurate with local prevailing rates at the time of borrowing as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions not less frequently than quarterly. Repayment of the entire balance is permitted at any time.

Payment of Benefits

Participants' benefits under the Plan are payable to participants or their beneficiaries upon termination of employment, normal retirement, disability, financial hardship or death. Benefits are payable in one lump sum payment. Hardship withdrawals are available, as are in service distributions to participants who have attained the age of 59½. Corrective distributions are made, returning contributions to participants, in order to comply with Department of Labor regulations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and when applicable, disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are absorbed by ING. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments in the separate account, which is a common collective trust, are valued at the net asset value ("NAV") of units of the separate account. The NAV, as provided by ING, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Interest income is accounted for on the accrual basis. Dividend income is accounted for on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation/depreciation on investments bought and sold as well as held during the year.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurement defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring the most observable units to be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about inputs market participants would use at the measurement date. The fair value hierarchy is categorized into three levels based on inputs as follows:

Level 1 – Valuation based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Valuation based on quoted prices for similar assets or liabilities in active markets; for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the financial instrument has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the financial instrument.

Level 3- Valuation based on inputs that are unobservable and significant to the overall fair value measurement.

Level 3 assets and liabilities are measured at fair value based on one or more of three approaches noted in accounting pronouncements. The three approaches are as follows:

- Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- Cost approach – Based on the amount that currently would be required to replace the service capacity of an asset (i.e. current replacement cost); and

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (continued)

- Income approach – Uses valuation techniques to convert future amounts to a single present discounted amount based on market expectations about those future amounts (including present value techniques, option-pricing models, and lattice models).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Administrative Expenses

The Company has elected to pay all administrative expenses incurred by the Plan except for certain transaction fees such as loan and distribution requests, which are absorbed by ING. The method of allocating the expenses depends on the nature of the expense itself.

Reclassifications

Certain amounts in the 2012 financial statements have been reclassified to conform to the presentation in the 2013 financial statements. These reclassifications had no effect on net assets available for benefits.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

ING certified as to the completeness and accuracy of the investment assets, transactions, income and schedules of the investment assets as of December 31, 2013 and 2012 and for the year ended December 31, 2013.

The ING Fixed Account is considered non-benefit responsive. At December 31, 2013 and 2012, the fair value approximated contract value. The interest rate credited to the account, guaranteed not to fall below 3%, was 3% for each of the years 2013 and 2012.

The following information, included in the accompanying financial statements and supplemental schedule at December 31, 2013 and 2012, was obtained from data that has been prepared and certified by ING:

Fixed income fund	$ 17,161
Separate account	304,896
Total	$ 322,057

4. FAIR VALUE MEASUREMENTS

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2013 and 2012. In accordance with FASB ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement. There have been no changes to the valuation methodologies used at December 31, 2013 and 2012.

Total Plan investment assets at fair value classified within Level 3 were $617,873 and $538,630 as of December 31, 2013 and 2012, respectively, which consists of the fixed income fund. Such amounts were approximately 25% and 27% of total investment assets in the Plan's statements of net assets available for benefits at fair value as of December 31, 2013 and 2012, respectively.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

	Fair Value Measurements at December 31, 2013			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Fixed Income Fund	$ 617,873	$ -	$ -	$ 617,873
Separate Account	1,887,235	-	1,887,235	-
	$ 2,505,108	$ -	$ 1,887,235	$ 617,873

	Fair Value Measurements at December 31, 2012			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Fixed Income Fund	$ 538,630	$ -	$ -	$ 538,630
Separate Account	1,486,513	-	1,486,513	-
	$ 2,025,143	$ -	$ 1,486,513	$ 538,630

Separate accounts are valued at the NAV of units held by the Plan at year end as reported by the trustee on the last day of the Plan year. The fund's net asset value is determined by the bank sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

The fixed income fund is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the user.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent):

December 31, 2013

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Separate account	$ 1,887,235	$ -	Daily to monthly	None to 30 days
	$ 1,887,235	$ -		

December 31, 2012

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Separate account	$ 1,486,513	$ -	Daily to monthly	None to 30 days
	$ 1,486,513	$ -		

The separate account was established to support the operations of variable annuity contracts, with holdings of 23 lifestyle funds and 1,498 investment divisions (1,164 of which invest in independently managed mutual funds and 334 of which invest in mutual funds managed by an affiliate of ING) at December 31, 2013. The account provides for variable accumulation and benefits under the contracts by crediting annuity considerations to one or more divisions within the account as directed by the contract owners who bear the investment risk.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2013.

Fair Value Measurements Using Significant Unobservable Inputs - Level 3

	Fixed income Fund
Beginning balance	$ 538,630
Net realized/unrealized gains included in earnings	17,161
Purchases and issuances	93,762
Settlements	(31,680)
Ending balance	$ 617,873
The amount of total investment gains or losses for the period included in earnings attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 17,161

5. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in a group annuity contract and a separate investment account that invests in publicly traded mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. RELATED PARTIES/PARTIES-IN-INTEREST

Certain Plan investments are shares in a separate account managed by ING, which qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment.

7. TAX STATUS

The volume submitter plan adopted by the Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The volume submitter plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right at any time to terminate the Plan in accordance with ERISA by delivering to ING written notice of such termination. Upon termination of the Plan, no further contributions will be made to the Plan and all amounts credited to participant's accounts will become fully vested.

9. SUBSEQUENT EVENT

ING U.S., Inc. separated its U.S. based retirement, investment, management and insurance operations, including ING Life Insurance and Annuity Company, the trustee. In April 2014 ING U.S., Inc. changed its legal name to Voya Financial, Inc. and its investment management and employee benefit businesses began using the Voya Financial brand.

The Plan has evaluated subsequent events through September 28, 2014, which is the date the financial statements were available to be issued.
