Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of the United Bancorp, Inc. of Martins Ferry, Ohio Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

United Bancorp, Inc. (Company) established the Plan on November 19, 2005. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA). The Plan is administered by an Employee Benefits Administration Committee comprising up to three persons appointed by the United Bancorp, Inc.'s Board of Directors. The trust department of an independent third-party bank is the Plan's Trustee.

The Plan purchased Company common shares using the proceeds of a bank borrowing (see Note 7) guaranteed by the Company, and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of 15 years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

Unallocated and Allocated Shares

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- a) the accounts of employees with vested rights in allocated stock (Allocated)
- b) stock not yet allocated to employees (Unallocated)

Participation

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such plan year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Notes to Financial Statements
December 31, 2013 and 2012

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting

Participants are fully vested in the ESOP contributions after three years of service with no vesting prior to that time. Participants terminating due to normal retirement, death, or disability will be 100% vested. Forfeitures are used to reduce employer contributions.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to the participant's beneficiary or, if none, his or her legal representatives) or otherwise terminates employment with the Company and its participating subsidiaries. Distributions were made in cash, or if a participant elected, in the form of Company common shares plus cash for any fractional share until November 12, 2009. On that date the Plan was amended to state that distributions are to be made in the form of Company common shares plus cash for any fractional share.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any share for which a participant has not given instructions. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Quoted market prices are used to value investments. The common shares of the Company are valued at the closing price reported on the active market on which they are traded.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Plan Tax Status

The Plan obtained its latest determination letter on September 24, 2013 in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for years before 2010.

Interest and dividends realized on the Plan's investments for 2013 and 2012 were \$97,137 and \$139,624, respectively.

From time to time, participants will use balances accumulated in the mutual fund to purchase additional shares of common stock.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Note 6: Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consist principally of United Bancorp, Inc. common shares.

Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Officers or employees of the Company or its subsidiaries perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 7: Loan Payable

In 2005, the Plan entered into a \$3,416,578 term loan agreement with the Company. The proceeds of the loan were used to purchase 293,017 shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over 15 years. The loan bears interest at a fixed rate of 6.25% for ten years. At that point the interest will become variable (changing each quarter to equal LIBOR plus 1.35%).

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2014	\$ 235,671
2015	250,829
2016	266,963
2017	284,135
2018	302,411
Thereafter	664,427
	\$ 2,004,436

Note 8: Employer Contributions

The Company may make matching contributions in connection with the related 401(k) Plan each year. In addition, the Company may make discretionary contributions to the Plan each year.

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

Note 9: Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with such investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
