Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

A. Consistency of Methods and Assumptions

Unless stated to the contrary, the following methods and assumptions are consistent with those used in the previous valuation performed as of September 1, 2012. The report reflects the change in the funding segment rates to be within a 85-115% corridor of the 25-year average under the Moving Ahead for Progress in the 21st Century Act.

B. Actuarial Cost Method

As mandated by law, the actuarial cost method used to calculate the costs of the Plan for retirement, termination and surviving spouse's benefits is known as the Traditional Unit Credit Actuarial Cost Method. Under this method, each active participant's accrued benefit at the valuation date is calculated based on the terms of the plan and the actuarial assumptions. Vested benefits are determined as required under the law and regulations.

The Actuarial Accrued Liability is determined from the benefit based upon service accrued to the valuation date and compensation at the valuation date. The Normal Cost is determined from the difference between the Actuarial Accrued Liability using service and salary estimated to be earned at the end of the valuation year and the Actuarial Accrued Liability using service and salary earned at the beginning of the valuation year. Unfunded liabilities are amortized over 7 years as required under the law and regulations.

C. Benefit Limitations under IRC Section 415(b)

The benefit limitation imposed by Section 415(b) of the Internal Revenue Code, relating to the maximum benefit under a defined benefit plan, has been taken into account. On this basis, the maximum annual projected benefit utilized in this valuation is \$205,000 for purposes of calculating funding costs.

D. Asset Valuation Method

Plan assets are held in a trust with Charles Schwab and Fidelity Investments and valued at market value.

E. Participants Included in the Calculations

Based on employee data received from the Employer, all employees who are eligible for participation in the plan as of the valuation date are included in the calculations. Former employees, or their beneficiaries or contingent annuitants, where applicable, are also included if the employee data indicates that they are entitled to an immediate or deferred benefit under the provisions of the plan.

No liability is held for nonvested, inactive employees who have a break-in-service, or for employees who have quit or been terminated even if a break-in-service had not occurred as of the valuation date. Future service is projected on the basis of hours worked in the Plan Year preceding the valuation date.

D. Employment after Normal Retirement Date

If employment continues after Normal Retirement Date, pension payments do not commence until the first day of the month coinciding with or next following actual retirement. E. Years of Service

One Year of Service is earned for each Plan year in which the Participant completes at least 1,000 hours of service with the Employer.

F. Compensation

Compensation is defined as the annual remuneration subject to withholding of United States income tax that is paid to a Participant during the Plan year. Compensation in any year for purposes of benefit accrual is limited by Section 401(a)(17) of the Internal Revenue Code. The current limit is \$255,000.

1. *Mortality* - Preretirement: None. Postretirement: The 1994 Group Annuity Mortality Table, projected to 2002, unloaded and blended 50% Male / 50% Female.
2. *Interest Rate* - 6.00%.

Such qualified joint and 50% survivor annuity shall commence on the first day of the month following the date of death of the Participant and shall continue during the lifetime of such eligible surviving spouse.

M. Optional Forms of Pension

The optional payment methods described below are the actuarial equivalent of the normal form otherwise payable as of the Participant's retirement date. The Plan's actuarial equivalence is based on the prevailing Commissioner's standard table and the 30-year Treasury rate for the June prior to the first day of the Plan year.

1. *Life Annuity* - Participant receives a pension commencing at actual retirement and continuing for his lifetime. Upon the Participant's death, all payments cease.
