INDEPENDENT AUDITOR'S REPORT

To the Plan Sponsor
Holloman Corporation Employee
Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Holloman Corporation Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets Held at End of Year is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

HOLLOMAN CORPORATION EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Holloman Corporation Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement, as restated and amended, for complete information.

General

The Holloman Corporation Employee Stock Ownership Plan (the Plan) was established as of January 1, 2002. The Plan is designed to qualify as both a Stock Bonus Plan under Section 401(a) and an Employee Stock Ownership Plan as defined in Section 4975(e)(7) of the Internal Revenue Code of 1986 (the Code), as amended. The Plan is subject to the regulations of the Code and the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a Plan Committee of at least two persons appointed by Holloman Holdings Corporation (the Company) Board of Directors. Trustee(s) who receive direction from the Plan Committee are also appointed by the Company's Board of Directors.

Stock Bonus Plan

The Stock Bonus Plan purchased common shares of the Company using the proceeds of borrowing from the Company and holds the stock in a trust established under the Plan. The borrowings are to be repaid by fully tax deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriated percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of stock. The lenders have no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012, present separately the assets and liabilities and changes therein pertaining to:

(a) The accounts of employees with vested rights in allocated stock (Allocated) and

(b) Stock not yet allocated to employees (Unallocated).

The Stock Bonus Plan also provides for discretionary contributions by the Company.

Employer Contributions

Contributions are to be allocated to participants pro-rata based upon the compensation of employees who are actively employed on the last day of the Plan year and have been credited with a year of service during the current year. Contributions made in excess of maximum allowed additions to the participants' accounts will be held in a suspense account and allocated to the participants in the following year. Employer contributions for the year ended December 31, 2013, totaled $187,047.

NOTE 1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – CONTINUED

Eligibility

Each employee employed during the Plan year beginning with the effective date shall be eligible to participate in the Plan. Otherwise, each employee becomes an "Eligible Employee," and thereby eligible to participate in the Plan, upon completion of one thousand (1,000) hours of service and attainment of age seventeen (17) as provided in the Plan.

At each valuation date, participant's accounts are allocated: (a) employer contributions, if any, (b) withdrawals and payments, and (c) Plan earnings or losses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants with less than five years of service are zero percent vested after which they become 100 percent vested at five years of service.

Distributions

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share. Distributions are generally paid in substantially equal annual installments over a five year period.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2013, the Company repurchased from participants 2,624 shares at prices determined from the independent appraisal.

Voting Rights

All Company stock held by the Trust is voted by the Trustee in accordance with instructions from the Committee. Notwithstanding the foregoing, participants and/or beneficiaries are entitled to direct the voting of any voting shares of Company stock allocated to their accounts with respect to certain transactions prescribed by regulation.

NOTE 1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – CONTINUED

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age fifty-five (55) with at least ten (10) years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated non-vested shares allocated to remaining participants at December 31, 2013 totaled 696 shares. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investment Valuation and Income Recognition

Investments are stated at estimated fair value at December 31, 2013 and 2012. Fair values of the Company common stock are determined by annual independent appraisals. Unrealized appreciation or deprecation in the fair value of investments held at year-end, and the gain or loss on sales of investments during the year, are determined using the value at the beginning of the year, or the purchase price if acquired since that date.

Income Taxes

The Plan follows the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 740, *Income Taxes*, relating to accounting for uncertainties in income taxes. FASB ASC 740 requires the Plan to recognize in the financial statements the financial effects of a tax position only if it is determined that it is more likely than not that the tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Plan management has analyzed the tax positions taken by the Plan and has concluded, as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. Tax years open to examination include the years 2010 to 2013.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Payment of Benefits

Benefits are recorded when paid.

NOTE 3. INVESTMENTS

Assets of the Plan are primarily invested in the Company common stock. Stock purchased with the proceeds of loans is not allocated to the participants' accounts until release as collateral on the loan. The net increase or decrease in the fair value of the unallocated shares is not allocated to participants' accounts until the shares are released.

The Plan's investments, at December 31, are presented in the following tables:

2013	Number of Shares	Cost	Fair Value

Money market fund	-	25,625	25,625
Total	$ 69,537	$ 5,695,343	$ 25,625,851

NOTE 4. FAIR VALUE MEASUREMENTS

The Plan has adopted FASB ASC 820, *Fair Value Measurement and Disclosures*, (Topic 820) which clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Topic 820 defines "fair value" as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity.

Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 inputs: Unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs: Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices in active markets that are either directly or indirectly observable for the asset or liability through correlation with market data or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs: Prices or valuations that require unobservable inputs that are both significant to the fair measurement and unobservable. Valuation under level 3 generally involves a significant degree of judgment from Plan management. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for the investments existed.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

Following is a description of the Plan's valuation methodologies used for assets measured at fair value.

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

The fair value of the Company common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The methods previously described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the classification of the securities by level. The carrying values of money market funds, accounts receivable, accounts payable and acquisition indebtedness included in the accompanying statements of net assets available for benefits approximated fair value at December 31, 2013 and 2012 and are thus not included in the following tables:

December 31, 2013

	Level 1	Level 2	Level 3	Total
Plan assets				
Holloman Holdings Corporation common stock	$ -	$ -	$ 43,446,585	$ 43,446,585

Total assets at fair value	$ -	$ -	$ 25,600,226	$ 25,600,226

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013 and 2012:

	Investment in Holloman Holdings Corporation Common Stock	
	2013	2012
Balance, beginning of year	$ 25,600,226	$ 18,361,364
Unrealized gains	18,812,581	7,395,921
Shares distributed to participants	(966,222)	(157,059)
Balance, end of year	$ 43,446,585	$ 25,600,226
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 18,812,581	$ 7,395,921

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net increase in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 5. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Holloman Holdings Corporation common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Participant's account balances and allocations are maintained by a third party administrator whose fees are paid by the Company. Appraisal and audit fees are also paid by the Company.

NOTE 6. NOTES PAYABLE

Notes payable at December 31, consist of the following:

	2013	2012
Note payable to the Company in the original amount of $5,852,000 due in annual installments of $153,317 plus interest at 5.5% per annum, maturing December 2016 and collateralized by 5,341 shares of the Company's common stock	$ 459,950	$ 613,267

Interest expense paid during 2013 totaled $33,729. Release of the Company's common stock is based on annual debt service payments.

Scheduled principal payments at December 31, 2013 through maturity are as follows:

2014	$ 153,317
2015	153,317
2016	153,316
	$ 459,950

NOTE 7. CONCENTRATION OF CREDIT RISK

Substantially all of the Plan's assets are invested in the common stock of the Company. The Company provides engineering, installation, and construction services to customers primarily in the oil and gas industry. The value of the Plan's investments and their future earnings are dependent on the Company's ability to remain profitable.

NOTE 8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 8, 2004, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Employer has relied on the favorable opinion letter issued by the IRS regarding the acceptability of the prototype plan under section 401 of the Code as not subject to tax under present income tax law. The plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code.

NOTE 9. PERFORMANCE UNIT PLAN

Performance units, also known as phantom stock, are available for grant under this plan. The purpose of this plan is to advance the interest of Holloman Corporation by providing an additional incentive in the form of performance units to attract and retain qualified and competent employees upon whose efforts and judgment its success is largely dependent, by allowing them to share in the economic benefits of ownership in Holloman Corporation. The performance units granted under this plan shall be issued in such amounts and to such persons as shall be selected by the Board in its sole discretion. In 2013, 16 performance units were issued to two individuals. These performance units were included in the calculation of the fair market value of the Company's capital stock per share price of $649.30 as of December 31, 2013. The units vest ratably, over a five-year period, are terminated or forfeited upon the holder's separation from the Company and do not entitle the holder to voting rights.

NOTE 10. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 1 and Note 5, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

NOTE 11. SUBSEQUENT EVENTS

The Plan has evaluated all events or transactions that occurred after December 31, 2013, through February 5, 2015, the date the financial statements were available to be issued.
