1. DESCRIPTION OF PLAN:

The following description of the Cincinnati Museum Association 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a cash or deferred arrangement covering substantially all full-time employees of the Cincinnati Museum Association (the "Association") who are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute pre-tax compensation up to the maximum allowable amount by regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute after-tax Roth elective contributions, which are treated as elective contributions for all purposes of the Plan, and amounts representing distributions from other qualified defined benefit or contribution plans. The Association may make contributions at the discretion of the Board of Trustees. This discretionary contribution is remitted to the Plan at or after its fiscal year-end. For the year ended August 31, 2014, a discretionary employer contribution of 2% of eligible employee compensation was approved. Participants must have earned one year of service and be employed on the last day of the Plan year, to be eligible for the employer contribution.

Participant accounts

Each participant's account is credited with the participant's contribution, allocation of the Association's contribution, and Plan earnings. Allocations of Association contributions are based on participant earnings, as defined by the Plan. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their voluntary contributions, plus actual earnings thereon. Vesting in the discretionary Association contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after 3 years of credited service.

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of his or her vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive their vested balance in the Plan using any of the distribution methods provided for in the Plan Document.

Benefits under the Plan due a former participant whose vested balance does not exceed \$1,000 and has terminated for reasons other than death, disability or retirement, shall be paid from his account within 60 days, or as soon as administratively practicable, following the close of the Plan year during which employment terminates. Participants with vested account balances between \$1,000 and \$5,000 are subject to an automatic rollover distribution into an Individual Retirement Account (IRA). If the value of the participant's account is in excess of \$5,000, the participant will not receive a distribution unless he has consented in writing. In cases of death, disability or retirement, benefits shall be paid within 60 days following the end of the Plan year following the date the aforementioned event took place. In service withdrawals are permitted for participants who have attained the age of 59 and $\frac{1}{2}$.

Forfeited accounts

At August 31, 2014 and 2013, there were no forfeited nonvested accounts. Forfeitures can be used to reduce future employer contributions or offset administrative expenses. Forfeitures of \$1,368 were used to pay administrative expenses related to the Plan during the year ended August 31, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common collective trust funds. As required by professional standards, the statements of net assets available for benefits presents the fair value of the investments in the common collective trust funds as well as the adjustment of the investments in the common collective trust funds from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of August 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

Certain expenses of maintaining the Plan are paid directly by the Association and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through January 30, 2015, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan provides for participant directed investment programs for individual participants. Investments of employee contributions and related Association contributions can be made into the various funds in accordance with each participant's election.

Fund balances that represent 5% or more of the Plan's net assets available for benefits at August 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Vanguard Target Retirement 2025 Fund	\$ 404,966	376,507
Vanguard 500 Index Signal Shares Fund	439,261	332,981
Vanguard Target Retirement 2035 Fund	409,953	318,500
Vanguard Target Retirement Income Fund	295,222	256,503
American Funds Amcap Fund	193,091	179,036
Vanguard Target Retirement 2045 Fund	221,119	165,826
T. Rowe Price Equity Income Fund	**	162,384

** Investment was not greater than 5% of net assets available for benefits at year end.

During the year ended August 31, 2014, the Plan's investments (including investments bought, sold and held during the year) appreciated as follows:

Mutual funds	\$ 422,569
Common collective trust funds	<u>30</u>
	\$ <u>422,599</u>

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2014 and 2013.

Mutual funds: Valued at the daily quoted closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidated will be carried out in an orderly business manner.

Notes to the Financial Statements
August 31, 2014 and 2013

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of August 31, 2014 and 2013.

5. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Association has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, if the Plan is ever terminated, the interest of each participant would become 100% vested and would be distributed in single lump sum payments.

6. INCOME TAX STATUS:

The Association has adopted a Prototype Non-standardized Plan Document maintained by Alerus Financial, N.A. that has obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. While the Association has not obtained its own determination letter on the Plan and the Plan has been amended since the date of the opinion letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

The Plan remits certain trustee, administration and record keeping fees to Alerus Financial, N.A., the trustee. The Association pays other administration expenses of the Plan and also provides certain administrative services at no cost to the Plan.

8. INFORMATION CERTIFIED BY THE TRUSTEE:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Alerus Financial, N.A., the trustee of the Plan has certified the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of August 31, 2014 and 2013, the schedule of assets (held at end of year) as of August 31, 2014, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended August 31, 2014.

9. RISKS AND UNCERTAINTIES:

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENT:

Effective October 1, 2014 the plan was amended and restated. Effective October 1, 2014, ADP Retirement Services became the third party administrator of the Plan and State Street Bank and Trust Company became the trustee of the Plan.
