Report on the Financial Statements

We have audited the accompanying financial statements of Thermoflex Corp. Employee Stock Ownership Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the initial year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate to the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. DESCRIPTION OF PLAN

The following description of the Thermoflex Corp. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Thermoflex Corporation (the "Company") established the Plan effective as of January 1, 2013. The Plan began operating as a leveraged employee stock ownership plan ("ESOP"), effective March 31, 2014 with the purchase of Company stock (see below), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

As of December 31, 2013, the initial employer contribution, as determined pursuant to a valuation has been reflected in the amount of $827,541 on the Statement of Changes in Net Assets Available for Benefits.

The Plan is administered by the ESOP Committee which is comprised of three or more members appointed by the Company's board of directors. All Plan contributions are held in a trust established under the Plan, which is managed and controlled by an independent third party – First Bankers Trust Services, Inc. ("First Bankers") – as the Plan's trustee. The Principal Financial Group ("Principal"), also an independent third party, is the third-party administrator of the Plan.

Effective March 31, 2014 (Note 6), the Plan purchased 100,000 shares, representing 100% of company voting stock, using the proceeds of an ESOP loan in the amount of $16,100,000 made between the Plan and the Company, and holds such stock in the trust established by the Plan. The borrowing is to be repaid over 20 years through either fully deductible Company contributions to the trust, investment income or proceeds from sale of pledged stock. As the Plan makes each payment of principal and interest, an appropriate percentage of stock is allocated to eligible participants' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. At December 31, 2013, all assets presented in the financial statements are considered unallocated (as no stock has yet been allocated to participants) since the Plan's first loan repayment did not occur until September 2014 (Note 6).

1. DESCRIPTION OF PLAN (CONTINUED)

Eligibility

Employees (including leased employees, as defined) who are not covered by collective bargaining agreements between the Company and employee representatives, and who are not nonresident aliens, are eligible to participate in the Plan as follows:

a. each employee (as defined) as of the adoption date, December 30, 2013, is deemed a participant effective January 1, 2013; and

b. employees hired after the adoption date are eligible to participate in the Plan after one year of service (defined as 1,000 hours) and the attainment of age 21.

Participants who do not have at least 1,000 hours during such Plan year or are not employed on the last working day of a Plan year, unless due to death, disability or retirement, are not eligible for an allocation of Company contributions for such year.

Eligible employees may enter the Plan on January 1 or July 1 immediately following fulfillment of eligibility requirements.

Employer contributions

The Company is obligated to make annual contributions in cash to the Plan, which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its borrowing.

Payment of benefits

Distributions on account of death, disability or retirement will commence no later than one year after the close of the plan year following the event. If termination of employment occurs for reasons other than death, disability or retirement, the Plan provides that distributions will commence in the fifth plan year following the plan year in which the participant otherwise separates from service. The Plan provides for benefits payable in cash or stock, in accordance with the Plan agreement.

Administrative expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. Additionally, forfeitures may be used to pay Plan expenses.

Voting rights

Each participant is entitled to exercise voting rights attributable to shares allocated to his or her account by directing the trustee as to how to vote shares of stock allocated to his or her account. The Plan's trustee shall vote all unallocated shares of stock as well as allocated shares of stock for which no direction has been received from participant's whose accounts contain allocated shares, as directed by the ESOP Committee.

1. DESCRIPTION OF PLAN (CONTINUED)

Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan provisions and IRC. Upon termination of the Plan, the ESOP Committee shall direct the trustee to pay all liabilities and expenses of the trust fund and sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's stock released by the trustee from the unallocated account and forfeitures of terminated participant's nonvested accounts. Only participants who are eligible employees of the Company as of the last day of the plan year receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of such participant's account balances to the total.

Vesting

Participants will vest in the balances in their accounts based on total years of service with the Company. Participants are fully vested at the completion of three years of service with the Company. Participants with less than three years of service are not vested in any of their account allocations.

Participants who attain normal retirement age, die or become fully disabled while employed by the Company immediately become fully vested in their accounts.

Put option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price represents the current value of the stock at any time during two option periods: 60 days from the date of distribution of the stock or 60 days after the current value of the stock determined in the following plan year. The Company can pay for the purchase with interest over five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

1. DESCRIPTION OF PLAN (CONTINUED)

Diversification

Diversification is offered to participants as they approach normal retirement age so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Active participants who are at least age 55 and have completed at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year election period. In each of the first five years during the election period, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth and final Plan year during the election period, the percentage changes to 50%. Participants who elect to diversify may make a transfer to another tax-qualified plan maintained by the Company, to be invested at the direction of the participant among three or more investment funds, or receive a cash distribution.

Forfeitures

Forfeited nonvested accounts are allocated to each participant's account based on the ratio of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures may be used to pay Plan expenses or to reduce Company contributions prior to being allocated to participants' accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator and management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and uncertainties

The Plan's assets will be invested in Company stock, which will be exposed to various risks of interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other techniques. Due to the level of risk associated with the investment in the stock and to uncertainties inherent in the estimations and assumptions process, it will be at least reasonably possible that changes in the value of the stock will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

3. TAX STATUS

The Company intends to file an application for a favorable letter of determination with the Internal Revenue Service ("IRS") during the next filing cycle. However, the Plan administrator and the Plan's tax counsel believe the Plan is designed, and currently being operated, in compliance with applicable requirements of the IRC, and they therefore believe the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for the initial tax period in progress, and the Plan is not subject to income tax examinations for years prior to the Plan's origination in 2013.

4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets at December 31, 2013 consist of cash and a receivable from the Company.

Company contributions are held and managed by the trustee, which invests cash received, interest and dividend income and makes distributions to participants as directed. The trustee also administers the payment of interest and principal on the loan.

Recordkeeping is performed by Principal.

Certain administrative functions are performed by the Company's officers or employees. No such officers or employees receive compensation from the Plan. Administration expenses for the trustee's fees are paid directly by the Company.

5. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are held by First Bankers, the Plan's trustee, and Principal is the third-party administrator. Each qualifies as a party-in-interest as defined by ERISA.

6. SUBSEQUENT EVENTS

On March 31, 2014, the Plan purchased all 100,000 issued and outstanding voting shares of common stock from the Company for $16,100,000, based on the fair value of $161 per share on the valuation date of December 30, 2013. The purchase price was paid by the Plan to the sellers in cash. The Plan received the equivalent amount of cash from the Company as a loan for the purpose of purchasing the shares in return for a note payable between the Company and the Plan.

Effective April 1, 2014, the Company's stock, as of December 31, 2013, was appraised at $136 per share, for a total of $13,600,000, by an independent business valuation appraiser, resulting in an unrealized loss in fair market value of $2,500,000 subsequent to year-end. No subsequent appraisals of the Company's stock value have taken place through the report date.

6. SUBSEQUENT EVENTS (CONTINUED)

On September 11, 2014, the Company paid the outstanding employer receivable of $826,541 owed at December 31, 2013. The payment consisted of $577,551 of principal, used to pay down the loan, and $248,990 of interest.

The following table reflects the release of allocated stock in connection with the aforementioned repayment.

	Allocated	Unallocated	Total
Thermoflex Corporation stock:			
Number of shares	3,717.9407	96,282.0593	100,000
Cost	$ 598,588.45	$ 15,501,411.55	$ 16,100,000
Fair value	$ 505,639.94	$ 13,094,360.06	$ 13,600,000

On December 31, 2014, the Company made its 2014 contribution to the Plan in the amount of $152,894. Such amount was used solely to pay down loan interest, and has not yet been allocated, as the 2014 fair value per share has not yet been determined.

The Plan has evaluated subsequent events through January 29, 2015, which is the date the financial statements were available to be issued. No events, other than noted above, have occurred from the date of the financial statements to January 29, 2015 that would require adjustment to or disclosure in the accompanying financial statements.
