FUJIFILM Recording Media Manufacturing U.S.A., Inc.
Long Term Savings Plan
Notes to Financial Statements
April 14, 2014

Note 1 – Description of Plan

The following description of the FUJIFILM Recording Media Manufacturing U.S.A., Inc. Long Term Savings Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective January 1, 1994 and most recently, amended and restated effective January 1, 2013 and includes all non-union, non-leased employees who are age 21 and have completed one year of eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Trustees are responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Trustees. On April 14, 2014, the Plan was merged into FUJIFILM Long Term Savings Plan (see Note 9).

Contributions

Participants may contribute a pre-tax amount equal to not less than 1 percent nor more than 65 percent, of their compensation for the contribution period. Effective January 1, 2012, an eligible employee is automatically enrolled in the Plan at 5 percent (3 percent if hired prior to January 1, 2012) of eligible compensation, increasing by 1 percent a year up to a total of 10 percent unless opting not to have any contributions or a different amount paid on their behalf. Participants may also make a post-tax contribution in an amount equal to not less than 1 percent nor more than 10 percent of their compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contribution into various investment options offered by the Plan. The Company matches 50 percent of the first 6 percent of the participant's base compensation that a participant contributes to the Plan. The Company also makes a safe harbor profit sharing contribution of 3.25 percent of each participant's compensation. The safe harbor profit sharing contributions amounted to approximately \$72,924 and \$356,000 for the period from January 1, 2014 to April 14, 2014, and the year ended December 31, 2013, respectively. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions as well as an allocation of (a) the Company's profit sharing contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of Plan losses and expenses. Earnings (losses) are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and the 3.25 percent safe harbor profit sharing contribution plus actual earnings thereon. The balance of vesting in the participants' accounts is based on years of continuous service. A participant becomes 20 percent vested after one but less than two years of service, 40 percent vested after two but less than three years of service, 60 percent after three but less than four years of service, 80 percent after four but less than five years of service and 100 percent vested after five years of service. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Note 1 – Description of Plan (continued)

Forfeited Accounts

Forfeitures of non-vested benefits are used to reduce Plan expenses and contributions by the Company. At December 31, 2013, forfeited non-vested accounts totaled \$364. For the period from January 1, 2014 to April 14, 2014 and for the year ended December 31, 2013, \$379 and \$2,320, respectively, was used to reduce Plan expenses and Company contributions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant with a vested interest over \$5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a distribution in a series of installments, a distribution in the form of an annuity, or a combination of these forms. If the vested interest is less than \$5,000, a participant shall receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. The loans must be repaid over a period not to exceed five years or ten years for the purchase of a primary residence. Principal and interest is paid ratably through bi-weekly payroll deductions.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract (a stable value fund) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund, (the "Fund"), a pooled separate account of The Prudential Retirement Insurance and Annuity Company, is based on the fair value of the underlying investments as reported and certified by the trustee. The Fund has an investment objective to receive a constant rate of return on funds held in the separate account. Generally, there are no restrictions on a participant's ability to redeem their investment in the Fund; however, withdrawals prompted by certain events (as described in Note 5) may restrict a participant's ability to redeem the investment. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits

Benefits are recorded when paid by the Plan.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through January 30, 2015, the date the financial statements were available to be issued.

Note 3 – Investments

Other than the fair value of the Fund and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held December 31, 2013, and net appreciation in the fair value of investments, and interest and dividends for the period January 1, 2014 to April 14, 2014 and the year ended December 31, 2013, was obtained and derived from information supplied to the Plan administrator and certified as complete and accurate by The Prudential Retirement Insurance and Annuity Company ("Prudential") and Prudential Bank & Trust, F.S.B. (the trustees of the Plan). The contract value of the fund was certified by Prudential.

Note 3 – Investments (continued)

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2013.

The following presents investments that represent 5 percent or more of the Plan's net assets:

	<u>December 31,</u> <u>2013</u>

* Investments was not over 5% threshold for a specified year

Other	<u>(7,018)</u>	<u>28,323</u>
	<u>\$ (180,545)</u>	<u>\$ 2,301,866</u>

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; •
---------	---

FUJIFILM Recording Media Manufacturing U.S.A., Inc.
Long Term Savings Plan
Notes to Financial Statements
April 14, 2014

Note 4 – Fair Value Measurements (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 14, 2014, and December 31, 2013.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: The value of the fund is based on the Plan's pro-rata share of the pooled separate account at year end. The pooled separate account is not available in an exchange and active market, however, the fair value is determined based on the pro-rata share of the underlying investments in the pooled separate account.

Self-directed: Consists of interest bearing cash, common stocks and mutual funds. The common stocks are valued at the closing price reported in the active market in which the individual securities are traded. The mutual funds are valued at the NAV of shares held by the Plan at year end. Cash is valued at fair value based on current maturities of the underlying assets of the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 – Valuation of Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Prudential which maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The stable value fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The fund is presented on the face of the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Prudential, represents contributions made to the fund,

Note 5 – Valuation of Stable Value Fund (continued)

plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA of 1974. The Plan administrator does not believe that the occurrence of any such value event limited the Plan's ability to transact at contract value with participants.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:

	<u>January 1, 2014 to April 14, 2014</u>	<u>Year Ended December 31, 2013</u>
Based on actual earnings	2.55%	2.49%
Based on interest rate credited to participants	2.72%	3.10%

Note 6 – Tax Status

The Plan obtained its latest determination letter on April 13, 2010, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan prior to the merger was designed and was being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan was qualified and the related trust was tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 14, 2014, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2011.

Note 7 – Related Party Transactions

The investments owned by the Plan are managed by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$1,443 and \$3,040 for the period from January 1, 2014 to April 14, 2014 and for the year ended December 31, 2013; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 9 – Merger of Plans

During 2014, the Board of Directors of FUJIFILM Recording Media Manufacturing U.S.A., Inc., as permitted by the Plan document, made the decision to merge the Plan into FUJIFILM Long Term Savings Plan, effective April 14, 2014. Notwithstanding any other provision of the Plan to the contrary, a participant's vested interest under the Plan on and after the effective date of the merger shall not be less than the vested interest in the participant's account on the day immediately preceding the effective date. All other benefits of the Plan are similar to the benefits offered in the FUJIFILM Long Term Savings Plan.
