Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unqualified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Did the accountant perform a limited scope audit pursuant to 29 CFR 2520.103-8 and/or 103-12(d)?

☐ Yes ☒ No

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: EISNERAMPER LLP

(2) EIN: 13-1639826

d The opinion of an independent qualified public accountant is **not attached** because:

(1) ☐ This form is filed for a CCT, PSA, or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)

b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)

	Yes	No	Amount
4a		X	
4b		X	

	Yes	No	Amount
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked, and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
Foster Wheeler Inc. Salaried Employees Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Foster Wheeler Inc. Salaried Employees Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements. We were engaged to audit the accompanying financial statement of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2012, and the related notes to the financial statement.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these 2013 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2013 financial statements. Because of the matter described in the *Basis for Disclaimer of Opinion on the 2012 Financial Statement* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2012 financial statement.

Opinion on the 2013 Financial Statements

In our opinion, the 2013 financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013, and the changes in net assets available for benefits for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Basis for Disclaimer of Opinion on the 2012 Financial Statement

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 7, which was certified by Russell Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the 2012 financial statement. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2012 that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the 2012 Financial Statement

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion on the 2012 Financial Statement* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2012 financial statement. Accordingly, we do not express an opinion on the 2012 financial statement.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the 2013 financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013 and the supplemental schedule of reportable transactions for the year ended December 31, 2013, are presented for the purpose of additional analysis and are not a required part of the 2013 financial statements, but are supplemental information required by the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2013 financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2013 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2013 financial statements or to the 2013 financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the 2013 financial statements as a whole.

Salaried Employees Pension Plan
Notes to Financial Statements
December 31, 2013 and 2012

1. Description of the Plan

The Foster Wheeler Inc. (the “Company”) Salaried Employees Pension Plan (the “Plan”) is a noncontributory defined benefit pension plan. The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Eligible employees of the Plan consist of substantially all salaried employees of many domestic subsidiaries of the Company hired prior to June 2003. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The plan administrator, the Retirement Plans Committee of Foster Wheeler Inc., determines the allocation of Plan funds among various investment institutions and securities. Those investment institutions are responsible for determining the underlying investments, in accordance with guidelines set forth by the plan administrator.

Effective January 1, 1999, the Company amended the Plan to provide for a cash balance formula for all employees who became eligible to participate in the Plan by virtue of a hire date after December 31, 1998. Furthermore, all active participants as of January 1, 1999 had a one-time irrevocable election to either participate under the existing benefit formula or be covered under the new cash balance formula for benefit accruals after December 31, 1998. For those employees who elected the cash balance formula, the accrued benefit that they have earned through December 31, 1998, under the Plan, if any, will be preserved and paid from the Plan in accordance with the applicable Plan provisions. The balances of those participants who did not elect the cash balance formula were maintained under the existing benefit formula. These participants will receive benefits under a final pay feature (“FPF”).

The cash balance formula provides a cash account which is increased each year by a contribution credit and an interest credit. For participants covered by the cash balance option, the contribution credit was equal to a percentage of the participant’s earnings, as defined in the amended Plan, in accordance with stratified schedules based on the participant’s age. The interest credit for the Plan year is equal to the 12 month average of the 30 Year Treasury Bond rate as declared by the Federal Reserve Board for the preceding calendar year, but in no event will the interest be credited at a rate less than 4.5%. The cash balance credit rate as of the most recent actuarial valuation is 5.25%.

Effective May 31, 2003, the Plan was frozen and Plan participants do not earn any future benefits under the terms of the Plan after that date. However, service will continue to be credited for purposes of determining eligibility for early retirement and vesting.

Participants under the cash balance formula were not credited with contribution credits after May 31, 2003. For participants under the FPF formula, their credited service and average monthly earnings as defined by the Plan, were calculated and fixed as of May 31, 2003. Other terms on the calculation of pension benefits were unchanged.

Eligibility and Vesting Service

Employees, who were hired prior to December 31, 1998, became participants in the Plan on the first day of the plan year following their date of employment. Employees, who were hired subsequent to December 31, 1998, became participants in the Plan on the 1st day of the month following their date of hire. Effective May 31, 2003, the Plan was frozen and closed to new entrants. Participants in the Plan without cash balance accounts are vested after completing five years of vesting service. Effective January 1, 2008, participants with cash balance accounts are vested after three years of vesting service. A year of vesting service is defined as a plan year during which at least 1,000 hours of service is credited. If participants are terminated before becoming fully vested, they forfeit the right to receive their accumulated benefits.

Pension, Disability and Death Benefits

For participants still earning eligibility service under the FPF, the Plan permits early retirement at ages 55 to 64 with ten years of credited service. The early retirement benefit may begin at the date of early retirement, reduced by 3% for each of the first five years and 5% for each additional year by which the early retirement date precedes the normal retirement date. All participants may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. If any vested participant dies prior to the date their pension payments commence, the surviving spouse of that deceased vested participant receives benefits at least equal to the amount which would have been payable to the spouse under a 50% joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree.

Vested participants, who have completed ten or more years of credited service and whose employment has terminated due to a permanent disability shall be entitled to an immediate retirement benefit commencing as of the first day of the following month in an amount equal to 50% of the normal retirement benefits they have accumulated under the Plan as of the time they became disabled. If these participants are terminated before rendering five years of service, they forfeit the right to receive their accumulated benefits. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits under the plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by its custodians and investment advisors. See Note 6 for a discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest and other income are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net

Foster Wheeler Inc.
Salaried Employees Pension Plan
Notes to Financial Statements
December 31, 2013 and 2012

appreciation/(depreciation) in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from the Plan's financial statements. Certain expenses incurred in connection with the general administration of the Plan such as actuarial, investment management and Pension Benefit Guaranty Corp. (PBGC) fees are paid by the Plan and are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Benefit Payments

Benefits payments are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make significant actuarial estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Subsequent Events

In February 2014, Foster Wheeler AG entered into a definitive agreement to be acquired by Amec plc. In November 2014, a tender offer was completed and the combined company was renamed Amec Foster Wheeler. Amec Foster Wheeler completed the acquisition of the Company in January 2015 by effecting a squeeze-out merger under Swiss law whereby any remaining holders of Shares were compensated on the same terms as the tender offer. The Company has become a wholly-owned subsidiary of Amec Foster Wheeler, and the impact of this acquisition on the Plan is not known.

The Company evaluated subsequent events through February 13, 2015, which is the date the financial statements were available to be issued.

3. Risk and Uncertainties

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of uncertainty related to certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. Users of these financial

Foster Wheeler Inc.

statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2013 may not necessarily be indicative of amounts that could be realized in a current market exchange.

4. Contributions and Benefits

Funding Policy

The Company's funding policy is to comply with the minimum funding requirements defined by ERISA. The Company has met the minimum funding requirement defined by ERISA for the plan year ending December 31, 2013.

A carryover amount totaling \$1,246,000 was applied to the minimum required contribution for the plan year ending December 31, 2013.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service which participants have rendered to date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability or termination of employment – are included to the extent they are deemed attributable to participant service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by the Plan's credentialed actuary, Milliman, Inc., and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payment.

For participants who elected the cash balance formula, the accumulated Plan benefit for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date.

The significant actuarial assumptions used in the valuations for the plan years ending December 31, 2013 and 2012 were as follows:

6. Fair Value Measurements

The Financial Accounting Standards Board (“FASB”) ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Foster Wheeler Inc.
Salaried Employees Pension Plan
Notes to Financial Statements
December 31, 2013 and 2012

U.S. Treasury Notes / Bonds. The Plan invests in publicly traded U.S. government treasury notes and bonds. The value of the U.S. treasury notes and bonds incorporates observable market data and considers the coupon rate and time to maturity.

Mutual Funds. At December 31, 2013, the Plan invests in two mutual funds that represent assets in below investment grade fixed-income securities, collateralized mortgage obligations, and other mortgage related securities. The Loomis Sayles Institutional High Income mutual fund is valued at Net Asset Value ("NAV") as determined at the close of each day. The Fidelity Real Estate High Income mutual fund is also valued at NAV, however is thinly traded and the fund attempts to obtain pricing data from one or more third party pricing vendors or brokers to value its investments. As a result of this investment not being actively traded, it is reflected as a Level 2 investment.

Commingled Funds. The Plan invests in various investment funds managed by the Strategic Investment Group ("Strategic") as of December 31, 2013 and Russell Trust Company ("Russell") as of December 31, 2012, each representing assets in trusts and limited partnerships which are exempt from federal income taxation under the Internal Revenue Code, and are primarily designed for pension, profit sharing and other employee benefit plans. Shares or units in these funds are not publicly traded and are valued at their NAV as provided by the investment manager or sponsor of the fund. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled Separate Account. The Plan had invested in the AXA Equitable No. 158 Separate Account ("Equitable") which is a pooled separate account. Equitable is valued at its NAV, as a practical expedient, based on the market value of the underlying investments. The NAV is not a publicly-quoted price in an active market. At December 31, 2012, Equitable was invested solely in the Russell Investment Grade Bond Y Fund, which, in turn is valued based upon its underlying investments. At December 31, 2013, however, no investments were held in the AXA Equitable No. 158 Separate Account ("Equitable") pooled separate account.

Hedge Funds. The Plan invests in hedge funds of derivative contracts and multi-strategy "fund-of-funds" formed to invest predominantly in limited partnerships and similar pooled investment vehicles. Each fund is valued at its NAV as a practical expedient, based on the value of the underlying investments daily or at the end of each month.

Futures Contracts. In 2012, a Risk Management Overlay Strategy ("Strategy") was adopted with the investment objective to reduce the volatility of investment asset returns and cushion losses with respect to the investment assets in severe market downturns without creating a substantial investment earnings drag in stable, rising markets. The Strategy is executed using exchange-traded futures contracts held by the Plan. The Plan's investment in the Strategic U.S. Equity Trust and the Strategic International Equity Trust are protected by the Strategy.

Futures contracts are valued at the quoted daily settlement price at the end of each day on the board of trade or when traded. Upon entering into a futures contract, the Plan is required to deposit in cash an amount equal to the initial margin requirements of the exchange. Pursuant to the futures contracts, the Plan receives from or pays to the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are settled daily and the Plan recognizes a realized gain or loss when a contract is closed or expires.

Foster Wheeler Inc.
Salaried Employees Pension Plan
Notes to Financial Statements
December 31, 2013 and 2012

Futures contracts involve, to varying degrees, credit and market risks. The Plan enters into futures contracts only on exchanges or boards of trade where the exchange or board of trade acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange or board of trade. Losses in value may arise from changes in the value of the underlying instruments or if there is an illiquid secondary market for the contracts. In addition, there is the risk that there may not be an exact correlation between a futures contract and the underlying index or security.

The notional value of open futures contracts at December 31, 2013 and December 31, 2012 totals \$52,372,026 and \$2,971,667, respectively, with a fair value totaling \$52,435,547 and \$2,992,930, respectively. The Plan had an unrealized gain from open stock index risk futures totaling \$640,474 and an unrealized loss from open interest rate risk futures totaling \$576,953. The net amount totaling \$63,521 is included in the margin account for futures contracts on the statement of net assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2013 and 2012, respectively:

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported as net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The purchase of Level 3 assets represents the initial investment in the ARCM Feeder Fund II which has a share lock-up period of 48 months. The transfer out of Level 3 to Level 2 is related to the Weatherlow Offshore Fund II Ltd which transferred levels upon the expiration of a share lock-up period.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in the economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair

Foster Wheeler Inc.
Salaried Employees Pension Plan

value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits. There were no other significant transfers in or out of levels 1, 2 or 3 as of December 31, 2013, other than what has been previously disclosed.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Mutual fund - bonds and notes (1)	\$ 16,534,454	N/A	Daily	N/A

Hedge funds - multi-strategy fund of funds (7)	83,167,991	N/A	Quarterly	65 - 90 Days

(1) The fund invests primarily in below investment grade fixed-income securities

(2) The fund invests primarily in commercial and residential mortgage-backed securities, debt securities of real estate entities, and equity securities of entities whose primary assets are mortgage loans or commercial or residential mortgage-backed securities

(3) The funds invest in US and foreign equities, exchange traded funds, mutual funds, and investments in other investment companies participating in the emerging, international equity and small cap markets

(4) The funds invest in mortgage related securities, public and private high-yield non-investment grade and non-rated debt securities, and collective investment funds. Additionally, an investment in distressed Asia Pacific debt and equity securities totaling \$280,000 as of December 31, 2013 has a further capital call totaling \$1,120,000, and this investment is redeemable after the expiration of a 48-month lock-up period.

(5) The fund invests in obligations, issued or guaranteed by the U.S. government or its agencies or instrumentalities, in repurchase agreements collateralized by U.S. government securities and in money market mutual funds and other investment pools.

(6) The fund invests in credit default swaps, forward contracts, and money market funds

(7) The funds invest in private investments (i.e., funds of funds invested in equities and fixed income markets) that employ a variety of investment techniques and strategies

For the investments held as of December 31, 2012, the commingled funds and pooled separate account had no unfunded commitments, specified redemption notice periods or limitations on redemption frequency. The hedge fund was redeemable at the end of the lock-up period upon not less than 65 days' notice.

The Plan administrator discusses and assesses fair value measurement with internally responsible personnel as well as with the Plan trustee and independent investment advisor and periodically reviews the hedge fund's overall returns and benchmarks its performance against similar hedge funds.

7. Investment Certification – 2012

For the statement of net assets available for benefits as of December 31, 2012 and related footnotes, the Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, The Russell Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments in the accompanying statement of net assets available for benefits as of December 31, 2012.

8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated September 29, 2011 that the Plan is qualified under the Internal Revenue Code ("IRC") and therefore the related trust is exempt from taxation. The letter expires on January 31, 2015. The plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for year prior to 2010.

Several investments held at December 31, 2013 are incorporated as either a Cayman Island exempted limited company or a Cayman Island exempted limited partnership. Plan management has yet to determine whether there is a foreign tax filing requirement related to these investments.

9. Related Party and Party In Interest Transactions

In 2013 and 2012, funds were managed by State Street Bank and Russell Trust Company respectively, trustee and custodian. Fees paid by the Plan to the State Street Bank totaled \$163,170 and Russell Trust Company totaled \$731,559 for the year ended December 31, 2013.

Fees were also paid by the Plan to Milliman, Inc., the Plan's actuary and recordkeeper, for the administration of the Risk Management Overlay Strategy program, actuarial, and consulting services totaling \$789,020. Fees were also paid to AXA Equitable Life Insurance Co., investment manager of the pooled separate account, totaling \$24,878 and to a legal advisor totaling \$12,959 for the year ended December 31, 2013.

10. Termination Priorities

In the event of termination, the Plan provides that the net assets be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA and its related regulations and, to

Foster Wheeler Inc.
Salaried Employees Pension Plan
Notes to Financial Statements
December 31, 2013 and 2012

the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation to participants, up to specified limitations, as described in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. The maximum guarantee is set by law and it is updated each calendar year. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. A statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2014, that ceiling is \$4,943 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). The amount is higher for those who retire later and lower for those that retire earlier or elect survivor benefits. Further limitations apply for plans created or amended to increase benefits within five years before the Plan's termination date. The PBGC guarantees the larger of 20% of the benefit increase or \$20 per month for each full year the benefit increase was in effect.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

11. Adjusted Funding Target Attainment Percentage ("AFTAP")

The Pension Protection Act (the "Act") of 2006 includes many provisions and numerous revisions to rules surrounding defined benefit plans that govern pension plan funding. The Act established new minimum funding standards for defined benefit plans and limits benefit increases and accruals for underfunded plans. Pursuant to the Act, each year actuaries are required to certify to a plan's

Foster Wheeler Inc.
Salaried Employees Pension Plan
Notes to Financial Statements

funded percentage. The Plan received such certification for the 2013 Plan year for the AFTAP, which is one way of measuring the funded status of a plan using actuarial assumptions mandated by the IRS, and the actuary determined that the 2013 AFTAP for the Plan is 104.99%. The Plan also received the certification of the 2014 AFTAP which is 101.88%.

12. Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

13. Reconciliation to the Form 5500

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22 - Description of Weighted Average Retirement Age

Rates of Retirement

<u>Age</u>	<u>Rate</u>	<u>Age</u>	<u>Rate</u>
55	.02	63	.10
56	.02	64	.10
57	.02	65	.25
58	.02	66	.25
59	.02	67	.25
60	.05	68	.25
61	.10	69	.25
62	.15	70	1.00

Weighted average retirement age is 64.

Methodology for weighted average retirement age computation

$$\text{The weighted average retirement age} = \sum_{n=0}^{k-x} n|q_x * (x + n)$$

x = the earliest retirement age for which a retirement rate is shown.

$n|q_x$ = the probability that (x) will survive for n years and retire in the $(n + 1)$ th year.

k = the maximum retirement age for which a retirement rate is shown.

Foster Wheeler Inc. Salaried Employees Pension Plan
EIN/PN: 22-3800664/002
Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial Methods

Attribution Method: Unit Credit

The valuation of retirement benefits is determined under the “Unit Credit Actuarial Cost Method”, as prescribed by the Pension Protection Act of 2006 (PPA). In this method, the regular plan cost arises from two sources: a Target Normal Cost and an Amortization Payment for the Funding Target Shortfall.

The Funding Target is determined as the actuarial present value of benefits as of the valuation date. The Shortfall is equal to the Funding Target Liability less the Actuarial Value of Assets adjusted by any existing credit balances.

The Target Normal Cost is the Actuarial Present Value of benefits expected to accrue during the valuation year plus anticipated administration expenses, if any.

Actuarial Asset Valuation Method: 2 year (3-point) Average Value of Assets as permitted under IRS Notice 2010-22 (averaging 2011, 2012, and 2013 values).

Assumptions

Interest Rates:

PPA Funding – 2013 Segment Rates with four month lookback subject to 2013 MAP-21 corridor (previously, 2012 Segment Rates with four month lookback subject to 2012 MAP-21 corridor).

Maximum Deductible Contribution – 2013 Pre-MAP-21 Segment Rates (4 month lookback) (previously, 2012 Pre-MAP-21 Segment Rates (4 month lookback)).

<u>Segment</u>	<u>MAP-21 Rates</u>	<u>Pre-MAP-21 Rates</u>
Under 5 Years	4.94%	1.75%
5 to 20 Years	6.15%	4.62%
20 years or more	6.76%	5.72%
Effective Rate	6.23%	4.78%

Cash Balance:

Crediting Rate – 5.25%

Distribution Timing:

Active Participants – At decrement

Terminated Vested Participants – At age 65

Mortality:

PPA Funding & FASB ASC Topic 960 – Generational RP-2000 Separate Annuitant and Non-Annuitant Mortality Tables, projected with Scale AA, for males and females (previously, The 2000 Retired Pensioners Separate Annuitants and Non-Annuitants Mortality Tables projected with Scale AA to 2012 with additional forward projections of 7 years for annuitants and 15 years for non-annuitants, for males and females).

Expense Assumption: Prior year's actual administrative expense rounded up to the next \$1,000.

Rates of Retirement:

Probabilities of retirement, when eligible, based on attained age, as follows:

<u>Age</u>	<u>Probability</u>	<u>Age</u>	<u>Probability</u>	<u>Age</u>	<u>Probability</u>
55	.02	61	.10	67	.25
56	.02	62	.15	68	.25
57	.02	63	.10	69	.25
58	.02	64	.10	70	1.00
59	.02	65	.25		
60	.05	66	.25		

Multiplying each age by the overall probability of retiring at that age, and summing the products, results in a weighted average retirement age of 64.

Terminated vested participants are assumed to retire at age 65.

Definitions

Plan Name: Foster Wheeler Inc. Salaried Employees Pension Plan

Effective as of December 31, 2003, the Foster Wheeler Environmental Corporation Salaried Employees Pension Plan and the Retirement Plan for Bargaining Unit Employees of Foster Wheeler Energy Corporation were merged into this plan. Frozen benefits were determined under the terms of these plans prior to the merger.

Effective Plan Date: April 1, 1946

Freeze of Plan Benefits: All plan benefits are frozen as of May 31, 2003.

Eligibility: First of the month following date of hire. No new entrants permitted on or after May 31, 2003.

Credited Service: Non-Contributory service as defined in the Plan.

Plan Year: January 1 to December 31.

Plan Compensation: Rate of basic earnings on December 31 including incentive compensation, but excluding overtime pay.

Employee Contributions: Effective April 1, 1989, no employee contributions are required or permitted.

Cash Balance Amendment: Employees as of December 31, 1998 made a one-time election to (a) continue under the existing Final Average Pay Formula or (b) retain their Final Average Pay accrued benefit as of December 31, 1998 and accrue benefits after that date under the new Cash Balance Formula. New employees are covered under the Cash Balance Formula.

Suspension of Benefits Notice to Active Employees: Suspension of Benefits Notices have been issued to active employees who were younger than age 65 as of September 2006. Actives older than age 65 as of September 2006 will receive an actuarially increased benefit from age 65 to their Deferred Retirement Date.

Normal Retirement Benefits

(a) Non-Contributory Final Average Pay Benefit – 1.2% of Final Average Monthly Earnings times Credited Service earned from April 1, 1976.

Final Average Monthly Earnings is the average of the monthly earnings during the highest 60 consecutive months, during the last 120 months prior to retirement or termination of employment.

(b) Non-Contributory Cash Balance Benefit – Benefit = (i) plus (ii)

- (i) Accrued benefit as of December 31, 1998
- (ii) Actuarial Equivalent of Cash Balance Account at retirement

Cash Balance Account is payable as a lump sum payment in lieu of an annuity upon eligibility for Normal, Early, Vested Pension, or Death Benefits.

Cash balance is based on an annual pay credit equal to:

Age Last Birthday as of End of Play Year	Percentage of Plan Earnings
Under 25	1.5%
25 – 29	2.0%
30 – 34	2.5%
35 – 39	3.0%
40 – 44	4.0%
45 – 49	5.0%
50+	6.0%

and interest credited each year is the 12 month average of the 30 Year Treasury Bond rate for the preceding year, but no less than 4.50% per year.

(c) Contributory Benefits – Frozen Contributory Benefits as of April 1, 1989.

(d) Local 66 Employees – For retirements prior to January 1, 1996: 1.2% of Final Average Monthly Earnings times Bargaining Unit service earned from April 1, 1987 plus \$17.25 times Bargaining Unit service earned prior to April 1, 1987 minus the accrued benefit from the Bargaining Plan and the prior Non-Contributory Plan.

For retirements on or after January 1, 1996 and before April 1, 1997: 1.2% of Final Average Monthly Earnings times service after April 1, 1980 plus \$12.50 per month times service before

April 1, 1980 minus the accrued benefit from the Bargaining Plan and the prior Non-Contributory Plan.

For retirements on or after April 1, 1997: 1.2% of Final Average Monthly Earnings times service after April 1, 1976 plus \$8.50 per month times service before April 1, 1976 minus the accrued benefit from the Bargaining Plan and the prior Non-Contributory Plan. Plus any cash balance account, if any.

- (e) Local 68 Employees – Eligible members of Local 68 entered the plan January 1, 2003. Pay credits were based on earnings through May 31, 2003 (regardless of hours worked in 2003).

Early Retirement Benefits

Retirement Benefits at Early Retirement Date: Benefit (i) plus (ii)

- (i) Benefit may begin at date of early retirement, Final Average Pay Benefit reduced by 3% for each of the first five years and 5% for each additional year by which the Early Retirement Date precedes the Normal Retirement Date.
- (ii) Actuarial Equivalent Annuity of Cash Balance Account, if any.

Deferred Retirement Benefits

Retirement Benefits at Deferred Retirement Date: Benefit (i) plus (ii)

- (i) Final Average Pay Benefit is increased to recognize service and earnings until actual retirement.
- (ii) Actuarial Equivalent Annuity of Cash Balance Account, if any.

The grandfathered group of participants, who were age 65 or older as of September 2006, will receive actuarially increased benefits at actual retirement.

Disability Retirement Benefits

Retirement Benefit at Disability Retirement Date: Benefit (i) plus (ii)

- (i) 0.50% of Final Average Monthly Earnings times Credited Service, doubled if not eligible for Social Security Benefits.

Schedule SB, Part V – Summary of Plan Provisions

Retirement Dates

Normal: First of month following 65th birthday.

Early: First of any month after 55th birthday and 10 years of service.

Deferred: After age 65.

Disability: First of month following 10 years of service, if totally and permanently disabled for 6 months.

Death Benefits

Pre-Retirement Spouse's Benefit: If the employee dies after age 55, the spouse receives a monthly benefit, payable immediately, equal to 50% of the benefit payable to the employee if he had retired early with the life annuity form.

If any employee dies prior to age 55, the spouse is entitled to a deferred monthly benefit equal to 50% of what the employee would have received if he had:

- (i) Terminated on his date of death,
- (ii) Retired early at age 55 with single life annuity form, and
- (iii) Died immediately thereafter.

If a pre-retirement spouse's benefit is not payable, then the employee contributions, if any, with interest are paid as a death benefit.

Surviving Orphan's Benefit: Payable in lieu of the return of employee contributions to surviving children of an employee who dies while in active service after age 55 and 10 years of service, and after death of eligible spouse, if any, in amount equal to the amount of spouse benefit. Payments to each child cease at age 19 (23 if a student), unless the child is then disabled.
