Board of Directors
Eastbay Equities Inc. 401(k) Retirement Plan
Pleasant Hill, California

We have conducted a DOL limited-scope audit of the financial statements of Eastbay Equities Inc. (Company) 401(k) Retirement Plan (Plan) for the year ended December 31, 2013 and have issued our report thereon dated September 30, 2014. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 24, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in the notes to financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2013. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

> Management's estimate of the fair value of investments is based on quoted market values for publicly traded securities. We evaluated the key factors and assumptions used to develop the fair value of investments in determining that it is reasonable in relation to the financial statements taken as a whole. We have relied on the certification of investments obtained from the custodian of the Plan assets.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no material uncorrected misstatements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 30, 2014.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

✳ ✳ ✳ ✳ ✳

This information is intended solely for the information and use of the audit committee, board of directors and management of the Plan and is not intended to be and should not be used by anyone other than these specified parties.

EASTBAY EQUITIES, INC. 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 1 – DESCRIPTION OF PLAN

The following description of the EastBay Equities, Inc. (Company) 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan commenced on January 1, 2000 and is a defined contribution plan covering eligible employees of the Company. Eligible employees must be at least 21 years of age and have completed one year of service, as defined in the Plan document. Employees may participate in the Plan on the first day of the month immediately following completion of the age and service requirements. The Plan document defines a year of service as a 12-month period in which the employee works a minimum of 1,000 hours. The first eligibility service period starts on the employee's first day of employment with the Company. After the first 12-month eligibility service period, the Plan measures the employee's eligibility service period on a Plan year basis.

Contributions – Eligible participants may contribute up to 50% of their eligible compensation to the Plan, not to exceed the maximum allowed by the Internal Revenue Service. The Company makes matching contributions to the Plan equal to 50% of employee salary deferrals up to a maximum of $1,000, plus any additional discretionary contributions.

Discretionary Company contributions are determined by the Board of Directors on a year-to-year basis. The Company made no discretionary contribution for the 2013 or 2012 Plan years.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Such loans are secured by the balances in the participants' accounts and bear interest at rates ranging from 5% to 10% which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are repaid through participant payroll deductions. Interest is recognized with each payment received. Unpaid loans for terminated employees are considered deemed distributions.

Rollovers and transfers – Participants who have a balance in another qualified employee benefit plan, as described in Section 401(a) of the Internal Revenue Code, may transfer or rollover the lump sum values of their account directly into the Plan, provided it meets the requirements of the Internal Revenue Code.

NOTE 1 – DESCRIPTION OF PLAN *(continued)*

Vesting – Employee deferral contributions are fully vested when contributed. Matching and discretionary contributions become fully vested over a period of six years of service as follows.

Years of Service	Vesting Schedule
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment options – Upon enrollment in the Plan, a participant may direct employee and employer contributions to be invested into various funds offered by the Plan. Investments in these funds do not have guaranteed income or principal. Participants may change their deferral percentages at any time, and may change their investment options by contacting the third party administrator directly, or through accessing the third party administrator's internet site.

Payment of benefits – Upon a participant's termination of employment, death or disability, the participant (or the participant's beneficiary in the event of death) may elect to receive a lump sum distribution equal to the value of his or her account, or equal installment payments over the period of the life expectancy of the participant or the life expectancy of the participant and a designated beneficiary.

Additionally, the Plan allows participants to make withdrawals on account for hardship.

Forfeitures – At December 31, 2013 and 2012, there were no forfeited nonvested accounts. Forfeited nonvested accounts are used to offset future Company matching contributions. During 2013 and 2012, employer matching contributions were offset by $199 and $997, respectively, from forfeited nonvested accounts.

Distributions during employment – As a general rule, participant's contributions will remain in the Plan as long as the participant remains employed by the Company.

Plan expenses – The expenses of operating and maintaining the Plan have been paid by the Company and through utilization of forfeited accounts. In the event the Company does not continue to pay the Plan expenses, the Plan expenses will be paid by the Plan and charged on a pro-rata basis to the value of the participants' account balances.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Basis of accounting – The annual financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Investments are presented at fair value in accordance with GAAP as prescribed for defined contribution plans.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Estimates – The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. Significant estimates include the fair value of investments.

Income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

Certified investments – Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank & Trust Company, the Trustee of the Plan. The contract value of the guaranteed investment contract was certified by the Trustee.

Financial instruments – Financial instruments included in the Plan's statements of net assets available for benefits include investments and receivables. For receivables, the carrying amounts represent a reasonable estimate of the corresponding fair values. Investments are reflected in the accompanying statements of net assets available for benefits at their estimated fair values using methodologies described below.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES *(continued)*

Fair value measurements – The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The three-level hierarchy for fair value measurements is defined as follows:

Level 1 – Valuation is based on observable inputs using quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Valuation is based on inputs from sources other than quoted prices in active markets that are either directly or indirectly observable as of the reporting date. This may include quoted prices for similar assets in an active market, quoted prices for similar assets in a market that is not active, or valuation methods using models, interest rates and yield curves as observable inputs.

Level 3 – Valuation is based on unobservable inputs for the assets or liabilities, reflecting the Plan's assumptions that a market participant would use in pricing the asset or liability, to the extent that observable inputs (Levels 1 and 2) are not available. Level 3 assets and liabilities include situations where there is little or no market activity for the assets or liabilities, and significant management judgment or estimates are required.

Investments consist of mutual funds, interest bearing cash and common/collective trusts. Mutual funds and interest bearing cash are classified as Level 1 of the fair value hierarchy because they are valued using quoted market prices, broker dealer quotations or alternative pricing sources with reasonable levels of price transparency. Common/collective trusts are classified as Level 2 because they are valued using quoted prices for similar assets in an active market.

While the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such assets and liabilities existed, or had such assets and liabilities been liquidated, and these differences could be material to the financial statements.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are classified as distributions based upon the terms of the plan document. As of December 31, 2013 and 2012, $6,684 and $3,771 was recorded as interest income on notes receivable from participants, respectively.

Payment of benefits – Benefits are recognized when paid to participants.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Administrative expenses – Certain administrative expenses, including legal and accounting, are paid by the Plan Sponsor and, accordingly, are not reflected in the accompanying financial statements of the Plan.

Income tax – GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Company did not identify any uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

Subsequent events – The Company evaluates events that occur subsequent to the balance sheet date of periodic reports, but before financial statements are issued for periods ending on such balance sheet dates, for possible adjustment to such financial statements or other disclosure. This evaluation generally occurs through the date at which the Company's financial statements are electronically prepared for filing with Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. For the financial statements as of and for the period ending December 31, 2013, this date was September 30, 2014.

NOTE 3 – INVESTMENTS (UNAUDITED)

The following presents investments that represent 5% or more of the Plan's assets as of December 31.

Mutual funds	$ 80,427
Common/collective trust funds	42,369
	$ 122,796

NOTE 3 – INVESTMENTS (UNAUDITED) *(continued)*

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under Employee Retirement Income Security Act. Accordingly, State Street Bank & Trust Company, the Trustee of certain Plan assets, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits, as of December 31, 2013 and 2012.
- Dividends and net appreciation in fair value of investments, as shown in the statements of changes in net assets available for benefits, for the year ended December 31, 2013 and 2012.
- The schedule of assets held for investment purposes at end of year as of December 31, 2013, as shown in the attached schedule at page 13.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 3 – FAIR VALUE MEASUREMENT

The following table presents the fair value of investments on the accompanying statements of net assets available for benefits at December 31 by fair value hierarchy.

	2013		
Investments	Level 1	Level 2	Total
Mutual funds	$ 576,737	$ -	$ 576,737

	$ 413,032	$ 345,312	$ 758,344

NOTE 4 – NONPARTICIPANT-DIRECTED INVESTMENTS

The Plan's participants direct all investments. There are no non-participant directed investments as of December 31, 2013 and 2012.

NOTE 5 – RELATED PARTY TRANSACTIONS

The Sponsor paid certain Plan expenses totaling approximately $4,660 during 2013 for administrative fees and other charges from the Custodian. There are no non-participant directed investments as of December 31, 2013 and 2012.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of termination, the full value of each participant's account shall, to the extent funded, be fully vested on the date of such termination.

NOTE 7 – TAX STATUS

The Company has adopted a prototype plan which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. The IRS made a favorable determination that the Plan document is in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. GAAP requires The Plan Sponsor to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – FIDELITY BOND

The plan was coverey by a fidelity bond which automatically increases that limit of liability to equal the amount required under ERISA at the beginning of the Insured Plan's fiscal year or $500,000, whichever is less during 2013. As of December 31, 2013, 10% of plan assets were approximately $88,000 and as a result the Company was in compliance with the ERISA bonding requirements.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to Form 5500.

NOTE 10 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by State Street Bank & Trust Company. State Street Bank & Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Investment management fees are paid to the Trustee by the Company.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
