Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Xtek, Inc. Defined Benefit Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Xtek, Inc. Defined Benefit Pension Plan, which comprise the statements of net assets available for benefits as of June 30, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by BMO Harris Bank N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of June 30, 2014 and 2013, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) and the supplemental schedule of reportable transactions as of and for the year ended June 30, 2014 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Xtek, Inc. Defined Benefit Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Xtek, Inc. Defined Benefit Pension Plan, which comprise the statements of net assets available for benefits as of June 30, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by BMO Harris Bank N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of June 30, 2014 and 2013, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) and the supplemental schedule of reportable transactions as of and for the year ended June 30, 2014 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. PLAN DESCRIPTION:

The following is a brief description of the Xtek, Inc., Defined Benefit Pension Plan (the "Plan"). Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

The Plan is a defined benefit pension plan covering substantially all full-time employees of Xtek, Inc. (the "Company") who were hired before January 1, 2004. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension benefits

Employees are entitled to annual pension benefits beginning at their normal retirement age of 65. The Plan permits early retirement at age 55 with at least 10 years of service. The early retirement benefit is the actuarial equivalent of the accrued pension benefit as of the retirement date. Benefits are paid by the trustee from the Plan's net assets based on actuarially determined benefit amounts.

Vesting

Participants become 100% vested after five years of service with the Company.

Death and disability benefits

The Plan provides death benefits to vested employees and disability benefits to employees who become disabled while an active participant under the Plan.

Floor offset provision

On June 20, 1986, the Xtek, Inc. Employee Stock Ownership Plan ("ESOP") acquired substantially all of the Company's common stock. Effective August 1, 1986, the Company instituted a floor offset provision in the Plan, whereby benefits payable to Plan participants are offset by benefits provided by the ESOP.

Plan termination

The Company intends to continue the Plan indefinitely for the benefit of the participants but reserves the right to terminate the Plan at any time by resolution of its Board of Directors. In the event the Plan is terminated, participants become fully vested, and Plan assets are distributed to participants in accordance with the Plan agreement. However, in the event of Plan termination, to the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation up to specified limits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following is a brief description of the significant accounting policies of the Plan.

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis.

Use of estimates

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment valuation and income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Funding policy

The Company is required to make all contributions to the Plan. These contributions are made based upon actuarially determined amounts as calculated by an independent actuary and are estimated to fully provide for all employees' benefits under the Plan by the time the employees retire. The Company's contributions for the year ended June 30, 2014 and June 30, 2013 met the minimum funding requirements of ERISA.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and such expenses are excluded from these financial statements. If the Company does not pay such expenses, the trustee shall pay them from the Plan assets.

Payment of benefits

Benefit payments are recorded when paid to participants.

Subsequent Events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through February 23, 2015, the date on which the financial statements were available to be issued.

3. ACTUARIAL CONSIDERATIONS AND ACCUMULATED PLAN BENEFITS:

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The significant actuarial assumptions used in the valuation as of June 30, 2012 were (a) life expectancy of participants – RP 2000 projected to 2028 and 2020 for annuitants and projected to 2027 for non-annuitants, (b) interest rate of 6%, and (c) investment return of 7.25%. The computations of the actuarial present value of

accumulated plan benefits were made as of July 1, 2013. Had the valuation been performed as of June 30, there would be no material differences. Benefits to be provided by the Plan via the floor-offset provision, described in Note 1, are relied on in determining the accumulated plan benefits due from the Plan. A summary of information relative to the actuarial present value of accumulated plan benefits as of July 1, 2013 is presented as follows:

Vested benefits:

Participants currently receiving benefits	\$ 4,172,847
Other vested benefits	<u>631,295</u>
Total vested benefits	4,804,142
Nonvested benefit	<u>358</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 4,804,500</u>

Changes in the actuarial present value of accumulated plan benefits for the year ended July 1, 2013 are summarized below:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 5,042,266
Increase (decrease) attributable to:	
Increase for interest due to the decrease in the discount period	291,916
Benefits accumulated	26,210
Benefits paid	(412,443)
Actuarial (gains)/losses	(138,288)
Assumption changes	<u>(5,161)</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 4,804,500</u>

INVESTMENTS:

The following table presents the fair values of investments that represent five percent or more of the Plan's net assets at June 30:

	<u>2014</u>	<u>2013</u>
Blackrock Equity Dividend Fd A	\$ **	437,540

During the fiscal years ended June 30, 2014 and 2013, the Plan's investment in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$524,785 and \$255,900, respectively.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

Mutual funds: Valued at the quoted daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: The carrying value approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2014 and 2013.

<u>Investments at fair value as of June 30, 2014</u>

6. INFORMATION CERTIFIED BY THE TRUSTEE:

All investments, investment income and the net appreciation in fair value of investments included in the accompanying financial statements and supplemental schedules were obtained from data that was prepared and certified as complete and accurate by the trustee, BMO Harris Bank N.A.

7. RISKS AND UNCERTAINTIES:

Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and supplemental schedules.

8. RELATED PARTY TRANSACTIONS:

Certain plan investments are shares of a money market fund managed by BMO Harris Bank N.A., the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the trustee services amounted to \$9,521 and \$9,391 at June 30, 2014 and 2013, respectively.

9. TAX STATUS OF THE PLAN:

The Plan obtained its latest determination letter dated July 20, 2012, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan currently is designed and is being operated in compliance with the applicable requirements of the IRC, and the related trust continues to be tax exempt as of June 30, 2014.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue

Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2011.

Retirement

Rates varying by age

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year

Age	Rate

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit The later of age 55 or termination of employment
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment

Five-year certain and continuous

Percent married

66.67%. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age

Wife three years younger than husband.

Covered pay

The current year's valuation pay is equal to the prior year's valuation pay projected by (1) the assumed annual rate of future salary increase and (2) 25% of the actual salary increase from the prior year's covered pay.

Administrative expenses

\$10,000

At-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the normal form of payment.

Cash flow

Timing of benefit payments

Benefits are payable monthly at the beginning of the month.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits The IRC §430 regulations describe the required methodology for attributing benefits among Funding Target, current year Target Normal Cost, and future years' Target Normal Costs for disability benefits, Social Security benefits, death benefits and other ancillary benefits. For most such benefits, the required attribution methodology is clear. If the plan includes any benefits for which the attribution methodology was not clear, and the regulations required interpretation, consider describing the benefit and the attribution methodology used.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2012 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Xtek, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in assumptions and methods since prior valuation

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumed plan-related expenses added to the target normal cost were changed from \$15,000 for the 2012 plan year to \$10,000 for the 2013 plan year.

The required interest rates (pre and post MAP-21) used to calculate the funding target and target normal cost were updated.

The stock value for the ESOP was updated to reflect the most recent valuation.

ESOP Stock Values

For purposes of valuing the ESOP offset against this plan, we have relied on the appraised value of Xtek stock, as communicated to us by Xtek, on the individual ESOP account data provided by NationsBank, and on the ESOP contribution information provided by Xtek and NationsBank.

Stock values as reported are:	June 30, 2013	\$73.00
	June 30, 2012	\$52.25
	June 30, 2011	\$51.25
	June 30, 2010	\$44.75
	June 30, 2009	\$40.25
	June 30, 2008	\$46.25
	June 30, 2007	\$40.13
	June 30, 2006	\$27.91
	June 30, 2005	\$24.09
	June 30, 2004	\$19.13
	June 30, 2003	\$17.62
	June 30, 2002	\$13.12
	June 30, 2001	\$13.40
	June 30, 2000	\$19.40
	June 30, 1999	\$17.17
	June 30, 1998	\$14.90
	June 30, 1997	\$19.32

Going Concern Basis

Our actuarial valuation assumes a going concern, and the results of our valuation are heavily dependent on this assumption. No provision has been made for the increase in pension liabilities that would occur as a result of other contingencies such as a loss of value in the ESOP stock.

Summary of plan provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2008.

Covered employees	All salaried employees of a covered unit, hired before January 1, 2004.
Participation date	The January 1 or July 1 following the date a covered employee attains age 21 and completes one year of service.

Definitions

Vesting service	Elapsed time, completed in years and months, between date of employment and severance from service.
Pension service	Equal to the sum of credited service under the prior plan plus service in years from the later of the effective date of the plan or employment, but not including service during a period of severance.
Pensionable pay	W-2 earnings plus Section 125 and 401(k) deferrals.
Average earnings	The average of the highest five consecutive calendar years of pensionable pay during the ten-year period ending on the earlier of the participant's termination date or retirement date
Covered compensation	The average of the Taxable Wage Bases for the 35-year period ending with the year a participant attains Social Security retirement age. For any plan year, it is assumed that the Taxable Wage Base in effect for the plan year will remain the same for all future years.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.
Monthly pension benefit	As of NRD, one-twelfth of (a), reduced by (b), (c), and (d), as applicable: 0.75% of average earnings plus 0.75% of average earnings in excess of Covered Compensation, all multiplied by Credited Service. - Company-derived accrued benefit as defined in the prior plan. - The annualized value of the member's share in any surplus assets attributable to their contributions under the prior plan. - Any accruals earned after August 1, 1986, to the extent that they are equal to the annualized value of the participant's ESOP balance. Note: If eligible for grandfathered benefit, see definition for benefits payable at NRD.
Grandfathered benefit	The larger of the benefit produced by the Monthly pension benefit formulas or, 1.4% of pensionable pay multiplied by 1.06 for each year of service, reduced by the annualized value of the member's share in any surplus assets attributable to their contributions under the prior plan.

Eligibility for Benefits

Grandfathered benefit	Employee who was a member of the prior plan before January 1, 1980, and had attained age 55 on or before the effective date of the plan.
Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing ten years of vesting service.
Postponed retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Disability	Disabled before NRD, unable to perform regular duties, and with consent of the Company.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Monthly pension benefit determined as of early retirement date, actuarially reduced for each year of payment before age 63.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Vested termination	Monthly pension benefit determined as of termination date, actuarially reduced for each year of payment before age 63.
Disablement	The actuarial equivalent of the monthly pension benefit as of the date of disability, or the unreduced monthly pension benefit payable at age 63.
Preretirement death	Monthly pension benefit determined as follows: - If single, a 60-month certain benefit equal to the benefit the member would have received had they retired before death. - If married and eligible for early retirement, 66-2/3% of the monthly pension benefit as of the date of death, reduced for 66-2/3% joint and survivor election and reduced for payment as early as the participant's 55th birthday. - If married and vested and not yet eligible for early retirement, 50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday.

Other Plan Provisions

Forms of payment	Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid in the form of a life annuity with 5 years certain if the participant has no spouse as of the date payments begin, or if the participant so elects. Optional forms are a straight life annuity, a 50%, 66-2/3%, or a 100% joint and survivor annuity, a 10-year certain and life annuity, a level income annuity, or (for married participants) a 5-year certain and life annuity.
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions

If the plan includes any benefits for which the attribution methodology was not clear, and the regulations required interpretation, consider describing the benefit and the attribution methodology used.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2012 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Xtek, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in assumptions and methods since prior valuation

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumed plan-related expenses added to the target normal cost were changed from \$15,000 for the 2012 plan year to \$10,000 for the 2013 plan year.

The required interest rates (pre and post MAP-21) used to calculate the funding target and target normal cost were updated.

The stock value for the ESOP was updated to reflect the most recent valuation.

ESOP Stock Values

For purposes of valuing the ESOP offset against this plan, we have relied on the appraised value of Xtek stock, as communicated to us by Xtek, on the individual ESOP account data provided by NationsBank, and on the ESOP contribution information provided by Xtek and NationsBank.

Stock values as reported are:	June 30, 2013	\$73.00
	June 30, 2012	\$52.25
	June 30, 2011	\$51.25

Going Concern Basis

Our actuarial valuation assumes a going concern, and the results of our valuation are heavily dependent on this assumption. No provision has been made for the increase in pension liabilities that would occur as a result of other contingencies such as a loss of value in the ESOP stock.

Summary of plan provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2008.

Covered employees	All salaried employees of a covered unit, hired before January 1, 2004.
Participation date	The January 1 or July 1 following the date a covered employee attains age 21 and completes one year of service.

Definitions

Vesting service	Elapsed time, completed in years and months, between date of employment and severance from service.
Pension service	Equal to the sum of credited service under the prior plan plus service in years from the later of the effective date of the plan or employment, but not including service during a period of severance.
Pensionable pay	W-2 earnings plus Section 125 and 401(k) deferrals.
Average earnings	The average of the highest five consecutive calendar years of pensionable pay during the ten-year period ending on the earlier of the participant's termination date or retirement date
Covered compensation	The average of the Taxable Wage Bases for the 35-year period ending with the year a participant attains Social Security retirement age. For any plan year, it is assumed that the Taxable Wage Base in effect for the plan year will remain the same for all future years.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.
Monthly pension benefit	As of NRD, one-twelfth of (a), reduced by (b), (c), and (d), as applicable: 0.75% of average earnings plus 0.75% of average earnings in excess of Covered Compensation, all multiplied by Credited Service. - Company-derived accrued benefit as defined in the prior plan. - The annualized value of the member's share in any surplus assets attributable to their contributions under the prior plan. - Any accruals earned after August 1, 1986, to the extent that they are equal to the annualized value of the participant's ESOP balance. Note: If eligible for grandfathered benefit, see definition for benefits payable at NRD.
Grandfathered benefit	The larger of the benefit produced by the Monthly pension benefit formulas or, 1.4% of pensionable pay multiplied by 1.06 for each year of service, reduced by the annualized value of the member's share in any surplus assets attributable to their contributions under the prior plan.

Eligibility for Benefits

Grandfathered benefit	Employee who was a member of the prior plan before January 1, 1980, and had attained age 55 on or before the effective date of the plan.
Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing ten years of vesting service.
Postponed retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Disability	Disabled before NRD, unable to perform regular duties, and with consent of the Company.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Monthly pension benefit determined as of early retirement date, actuarially reduced for each year of payment before age 63.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Vested termination	Monthly pension benefit determined as of termination date, actuarially reduced for each year of payment before age 63.
Disablement	The actuarial equivalent of the monthly pension benefit as of the date of disability, or the unreduced monthly pension benefit payable at age 63.
Preretirement death	Monthly pension benefit determined as follows: - If single, a 60-month certain benefit equal to the benefit the member would have received had they retired before death. - If married and eligible for early retirement, 66-2/3% of the monthly pension benefit as of the date of death, reduced for 66-2/3% joint and survivor election and reduced for payment as early as the participant's 55th birthday. - If married and vested and not yet eligible for early retirement, 50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday.

Other Plan Provisions

Forms of payment	Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid in the form of a life annuity with 5 years certain if the participant has no spouse as of the date payments begin, or if the participant so elects. Optional forms are a straight life annuity, a 50%, 66-2/3%, or a 100% joint and survivor annuity, a 10-year certain and life annuity, a level income annuity, or (for married participants) a 5-year certain and life annuity.
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year

For each participant, an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age.

The weighted average retirement age of 62 is calculated as follows:

Participant Age (A)	Probability Remaining at BOY (B)	Retirement Probability (C)	Expected Retirement Age (A) X (B) X (C)
55	100%	2%	1.1000
56	98%	2%	1.0976
57	96%	2%	1.0949
58	94%	2%	1.0918
59	92%	2%	1.0884
60	90%	10%	5.4235
61	81%	10%	4.9625
62	73%	20%	9.0790
63	59%	40%	14.7607
64	35%	50%	11.2462
65	18%	100%	11.4219
