NOTE 1 – PLAN SUMMARY AND DESCRIPTION:

The following description of the Alfred Benesch & Company ("the Company") Profit-Sharing 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan covering all eligible employees of the Company who have at least thirty days of service and are age twenty-one or older. Once these requirements are attained, employees may enroll on the first day of the following month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage or flat dollar amount of eligible compensation, as defined in the Plan, subject to certain Internal Revenue Service (IRS) limitations. Some or all of the participant's deferral contribution may be designated as a Roth Deferral Contribution at the time the deferral election is made. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions, as well as the matching Company contribution and additional profit sharing amounts that may be contributed to the option of the Company's board of directors into various investment options offered by the Plan.

The Plan currently offers several families of mutual funds as investment options for participants. The Company contributes eighty cents for each dollar contributed up to 5% of eligible compensation deferred. Contributions are subject to certain limitations.

An employer non-elective contribution consisting of unused vacation time may be converted to equivalent dollars and deposited into individual participant accounts of the Plan each Plan year. The expected maximum amount of unused vacation dollars that can be deposited into the Plan is equal to the lesser of unused vacation pay in excess of one week or the balance remaining of the combined maximum allowed contribution pursuant to the Internal Revenue Code (IRC). This unused vacation contribution cannot be forfeited and is not subject to vesting.

NOTE 1 – PLAN SUMMARY AND DESCRIPTION (continued):

Participant Account

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contribution and the Company's matching and profit-sharing contributions plus actual earnings thereon.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear the interest rates fixed for the entire loan duration at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the fair value of the participant's vested interest in his or her account, installment distribution in equal amounts over a period of time, or purchase of an annuity. An optional form of benefit may be selected pursuant to a qualified election within the 180-day period ending on the annuity starting date. Participant accounts that do not exceed $1,000 receive a single lump-sum payment as soon as possible following the event that entitles the participant to a distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, or partial withdrawal of any portion of the vested balance. Distributions are also permitted prior to termination if certain age requirements are met.

NOTE 1 – PLAN SUMMARY AND DESCRIPTION (continued):

Forfeited Accounts

Forfeited nonvested accounts totaled $1,976 and $1,979 on May 31, 2014 and 2013, respectively. These accounts are primarily used to reduce future employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3 – FAIR VALUE MEASUREMENTS:

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The hierarchy consists of three broad levels:

Level One – Inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level Two – Inputs are inputs other than quoted prices included within Level One that are observable for the asset or liability, either directly or indirectly.

Level Three – Inputs are unobservable inputs for the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of common stocks and options are based on the closing price reported on the active market where the individual securities are traded.
