NOTE 1 – DESCRIPTION OF PLAN

The following description of the Galaxy Desserts 401(k) Plan (the Plan) provides only general information. Participants should refer to the adoption agreement and summary plan description for a more complete description of plan provisions.

General – The Plan is a 401(k) profit sharing and safe harbor plan covering all employees of Galaxy Desserts, Inc. (the Company) who have satisfied the eligibility requirements. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The Company serves as the Plan's sponsor and administrator.

Eligibility – Employees are eligible to participate in the Plan upon reaching 21 years of age and after completing six months of service. The Plan defines excluded employees as collectively bargained employees, leased employees, summer interns, and non-resident aliens.

Contributions – Participants may elect to defer eligible compensation to the Plan each year, subject to limitations imposed by federal tax law. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company makes safe-harbor matching contributions equal to 100% of the participant's deferral contributions not exceeding 4% of the participant's eligible compensation for the plan year. The Company may also elect to make discretionary non-elective contributions. Non-elective contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' eligible compensation. To receive discretionary non-elective contributions, a participant must be credited with at least 1,000 hours of service during the plan year and be employed on the last day of the plan year. The Company did not make any discretionary non-elective contributions during the plan year ended June 30, 2014.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution, and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in deferrals withheld from their compensation under the salary reduction arrangement and company safe-harbor matching contributions. Vesting in employer discretionary non-elective contributions is based on years of service, as defined, with increases of 20% per year after two years of service until fully vested after six years.

Payment of benefits – Upon retirement, termination of employment, disability, or death, a participant may receive their vested account balance in a lump-sum cash payment, a direct rollover to another qualified plan, or through installment payments.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are first used to pay plan administrative expenses, with any remaining amount used to reduce future company contributions. As of June 30, 2014 and 2013, there were no forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements are prepared under the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition – The investments are stated at fair value. The Plan's custodian, Great-West Life & Annuity Insurance Company, certifies the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As of June 30, 2014, the contract value approximated fair market value; therefore, there is no adjustment to contract value shown on the statements of net assets available for benefits.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Distributions to participants are recorded when paid.

Expenses – Administrative expenses, including custodian fees, are paid by the Plan, unless the Company elects to pay. Transaction fees are paid by the Plan.

Subsequent events – The Plan has evaluated subsequent events through January 5, 2015, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Investments representing 5% or more of net assets available for benefits consist of the following at June 30:

	2014	2013
VANGUARD TARGET RETIREMENT 2040 INV	$ 276,033	$ 234,771
VANGUARD 500 INDEX SIGNAL	249,432	179,593
VANGUARD TARGET RETIREMENT 2020 INV	242,280	173,280
VANGUARD TARGET RETIREMENT INCOME INV	144,422	104,459
AMERICAN FUNDS EUROPACIFIC GR R5	75,205	52,858
JPMORGAN LARGE CAP GROWTH R5	Less than 5 %	51,693

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Registered investment companies	$ 186,315
Guaranteed investment contract	207
	$ 186,522

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds): Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contract: The guaranteed investment contract (GIC) is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 9).

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at June 30:

	2014			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies				
Fixed income funds	$ 62,228	$ -	$ -	$ 62,228

Guaranteed investment contract	-	14,372	-	14,372
	$ 997,845	$ 14,372	$ -	$ 1,012,217

NOTE 5 – TAX STATUS

The plan document is a prototype non-standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC).

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 7 – INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Life & Annuity Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Participant-directed investments reflected on the accompanying statement of net assets available for benefits as of June 30, 2014 and 2013;
- Net appreciation in fair value of investments, interest and dividends reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2014; and
- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments during the year ended June 30, 2014 included investment accounts managed by Great-West. As the custodian of the Plan, transactions with Great-West Life & Annuity Insurance Company qualify as exempt party-in-interest transactions.

NOTE 9 – GUARANTEED INVESTMENT CONTRACT WITH NATIONAL INSURANCE COMPANY

In 2013, the plan entered into a benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Fair value approximates contract value. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2014 and 2013 was $17,449 and $14,372, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. The actual average yield earned by the fund for 2014 and 2013 was 1.29% and 1.32%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

NOTE 10 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 11 – RECONCILIATION TO FORM 5500

The following is a reconciliation of the net assets available for benefits between the financial statements and the Form 5500 as of June 30, 2014:

	2014	2013
Net assets available for benefits per the financial statements	$ 1,490,480	$ 1,078,620

Net assets available for benefits per Form 5500	$ 1,398,521	$ 1,012,217

The following is a reconciliation of the change in net assets available for benefits between the financial statements and the Form 5500 for the year ended June 30, 2014:

	2014
Change in net assets per the financial statements	$ 411,860

COMMUNICATIONS WITH THOSE CHARGED WITH GOVERNANCE AND INTERNAL CONTROL RELATED MATTERS

To the Plan Trustee
Galaxy Desserts 401(k) Plan

We have completed a Department of Labor (DOL) limited scope audit of the financial statements and supplementary information of Galaxy Desserts 401(k) Plan (the Plan) as of and for the year ended June 30, 2014. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplementary information taken as a whole. However, our limited scope audit of the financial statements does not relieve you or management of your responsibilities. Professional standards require that we provide you with the following information related to our audit.

OUR RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA

Our responsibility is to plan and perform the audit in accordance with auditing standards generally accepted in the United States of America and to design the audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. We considered the Plan's internal control solely for the purposes of determining our audit procedures and not to provide assurance concerning such internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control. As part of the scope limitation discussed in the first paragraph, we did not consider internal control relating to the information summarized in Note 7 to those financial statements.

We are also responsible for communicating significant matters related to the financial statement audit that, in our professional judgment, are relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

You should understand that our audit is not specifically designed for and should not be relied upon to disclose matters affecting plan qualifications or compliance with the ERISA and Internal Revenue Code requirements.

OTHER INFORMATION IN DOCUMENTS CONTAINING AUDITED FINANCIAL STATEMENTS

The AICPA's Audit and Accounting Guide for Employee Benefit Plans requires that, before an auditor's report on the Plan's financial statements can be included with a filed Form 5500 (including any related schedules), the auditor must review the Form 5500 and consider whether there are any material inconsistencies between the other information in the form and the audited financial statements (including the required supplemental schedules) or any material misstatement of fact.

Praxity
GLOBAL ALLIANCE OF INDEPENDENT FIRMS

MOSS-ADAMS LLP

Our responsibility for other information in the Form 5500 does not extend beyond the financial information identified in our report. We do not have an obligation to perform any procedures to corroborate other information contained in the form, except as described above. However, we have read the information contained in the Form 5500 and nothing came to our attention that caused us to believe that such information or its manner of presentation is materially inconsistent with the information or manner of its presentation in the financial statements.

PLANNED SCOPE AND TIMING OF THE AUDIT

We performed the audit according to the planned scope and timing previously communicated to you in the engagement letter dated November 4, 2014.

SIGNIFICANT AUDIT FINDINGS

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements.

There were no changes in the application of existing accounting policies during the year. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transactions occurred.

Significant Accounting Estimates

Accounting estimates may be an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates may be particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

We did not note any significant accounting estimates in the financial statements. Significant accounting estimates are not commonly inherent in a defined contribution plan with investments that are readily marketable.

Financial Statement Disclosures

The disclosures in the financial statements are consistent, clear, and understandable. Certain financial statement disclosures may be particularly sensitive because of their significance to financial statement users.

We did not note any disclosures in the financial statements that we consider sensitive to potential users.

Significant Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

MOSS-ADAMS LLP

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all factual and judgmental misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management.

We did not note any uncorrected misstatements in the course of the engagement.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated January 5, 2015.

Management Consultation with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Significant Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

COMMUNICATION OF INTERNAL CONTROL RELATED MATTERS

Our responsibility under auditing standards with respect to internal control is described above. Had the scope of our audit not been limited as described on page 1, other matters might have come to our attention that would have been reported to you.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described above and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

MOSS-ADAMS LLP

This communication is intended solely for the information and use of the Plan Trustee and management of the Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

We were pleased to serve and be associated with the Plan as the independent auditors for 2014. We provide the above information to assist you in performing your oversight responsibilities.
