**NOTE 1 - DESCRIPTION OF THE PLAN AND SUMMARY OF
SIGNIFICANT ACCOUNTING POLICIES**

The following brief description of the *The Hope's Windows Pension Plan for Employees Within the Bargaining Units Represented by Shopmen's Local No. 470, AFL, CIO* is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General - The Plan is a defined benefit pension plan covering substantially all members covered by a collective bargaining agreement between Hope's Windows, Inc. and the Shopmen's Local Union No. 470. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides for retirement, disability and death benefits. The provisions of the Plan provide for 100% vesting at the end of 5 years of service. Pension benefit payments are made from Plan assets by the Plan Sponsor upon the direction of the Plan's Administrative Committee.

Actuarial assumptions - The actuarial assumptions have been modified to reflect the required assumptions under the Pension Protection Act.

Contributions - The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The Company makes sufficient contributions in an amount determined by actuarial calculations to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA), to fund the Plan's current service costs on a current basis and to fund initial past service costs plus interest thereon over a period of 30 years.

Pension Benefits - At normal retirement age (65), an eligible employee of Hope's Windows, Inc. will begin to receive monthly benefit payments equal to the benefit rate currently in effect at the termination of his employment, or the date on which he ceased to qualify as an eligible employee, if earlier, multiplied by the number of years of credited service (up to 30 years). The plan permits early retirement at ages 55-64 and at least 10 years of vested service. If participants terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. That portion of forfeited accrued benefits will be used only to reduce future costs of the plan.

Plan Changes - Effective June 1, 2013, the benefit multiplier was increased from \$12.50 to \$12.75 per month for the Hope's Specialty Products participants.

**NOTE 1 - DESCRIPTION OF THE PLAN AND SUMMARY OF
SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Death and Disability Benefits - If an active participant dies at normal retirement age or older, or dies after completing at least 5 years of vested service, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who attain the age of 50, complete at least 10 years of vested service and become totally disabled are eligible for benefit payments equal to his accrued benefits as of his termination of employment.

Funding Policy - The employer's policy is to fund pension costs computed by the Plan's actuary as accrued. ERISA minimum funding requirements have been met for the years ended May 31, 2014 and 2013.

Termination - The Company has the right under the Plan to discontinue contributions at any time and terminate the Plan. Should the Plan terminate at some future time, its net assets will generally not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

Basis of Accounting - The accounting records of the Plan are maintained on the accrual basis.

Valuation of Investments - Marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for employees or their beneficiaries are based on employees' credited years of service. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are considered attributable to employee service rendered to the valuation date.

**NOTE 1 - DESCRIPTION OF THE PLAN AND SUMMARY OF
SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 1, 2014 and 2013 were:

Actuarial cost method	Entry age normal with frozen initial liability
Mortality basis	Combined Static Mortality Tables for males and females
Employee turnover and disability	In accordance with Crocker Sarason Straight Table T-7
Retirement	At the later of age 65 or 5 years of service
Assumed rate of return	7%

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported. Accordingly, actual results could differ from those estimates.

The investment assets of the Plan are held in a trust fund administered by Northwest Savings Bank. The following financial data is based on information certified by Northwest Savings Bank as of and for the years ended May 31, 2014 and 2013, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 4 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Manning and Napier Advisors, Inc. Manning and Napier Advisors, Inc. is an investment manager of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the Manning and Napier investment management services amounted to \$24,677 and \$10,961 during the years ended May 31, 2014 and 2013, respectively.

In addition, the Plan pays custodian fees to Northwest Investment and Trust Services out of the Plan's assets. Custodian fees totaled \$15,757 and \$14,114 during the Plan years ended May 31, 2014 and 2013, respectively.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA. All other administrative fees are paid by the Plan Sponsor, Hope's Windows, Inc.

NOTE 5 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated July 26, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

The Plan's Form 5500 is subject to examination by the Internal Revenue Service; plan years that remain open for examination include May 31, 2011 and later.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 7 - SUBSEQUENT EVENTS

Subsequent events were evaluated by Management through March 10, 2015, which is the date that the financial statements were available to be issued.

Effective June 1, 2014, the Benefit Multiplier was increased from \$12.75 to \$13.00 per month for the Hope's Specialty Products participants. Additional increases are scheduled to occur on June 1, 2015 (\$13.25 per month), 2016 (\$13.50 per month) and 2017 (\$14.00 per month).

Also, effective June 30, 2014, the Benefit Multiplier was increased from \$19.75 to \$20.00 per month for the Hope's Architectural Products participants. The maximum years of service changes from 35 years to 40 years.

NOTE 8 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's money market funds, bond funds and equity funds have been valued at the closing price reported in the active market in which the individual security is traded. There have been no changes in the methodologies used at May 31, 2014 and 2013.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

EIN: 16-1184041

PLAN NO: 004

6/1/2013 – 5/31/2014 Plan Year

SCHEDULE SB, Line 22 – Description of Weighted Average Retirement Age

Each participant is assumed to retire at age 65, the Normal Retirement Age of the Plan.

**HOPES WINDOWS, INC. PENSION PLAN
FOR SHOPMENS LOCAL 470**

EIN: 16-1184041

PLAN NO: 004

6/1/2013 – 5/31/2014 Plan Year

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Method for Contributions

Contributions required to fund the plan benefits are determined according to the provisions under MAP-21, as revised by the Highway and Transportation Funding Act of 2014 (HATFA). The Target Normal Cost is the present value of benefits earned during the plan year. The Funding Target is the present value of benefits earned as of the beginning of the plan year. The excess of the Funding Target over the actuarial value of assets represents the Funding Shortfall.

Method for Accrued Benefits

The actuarial present value of accumulated plan benefits is a measure of plan benefits that have been earned to date. This is not only a valuation of retirement benefits, but also of deferred vested, death, and disability benefits. Earnings and service for benefit purposes expected to be earned after the valuation date are excluded from this value.

The actuarial assumptions used to determine this value are identical to those used for the funding purposes with the exception of an interest rate of 7.0%.

Method of Asset Valuation

Plan assets are valued at fair market value.

In general, the actuarial value of assets must fall between 90% and 110% of the market value of assets.

Data

The valuation results are based upon participant census and financial data provided by the plan sponsor. The data was tested for reasonableness and consistency with the prior valuation.

Actuarial Assumptions

The following actuarial assumptions were employed in the determination of the liabilities and annual contributions of the plan as developed in accordance with the funding methods described in this report.

1. The rates of mortality will be in accordance with the Combined Static Mortality Table for males and females.
2. The HATFA adjusted interest rates used for determining the minimum funding requirements and the plan's AFTAP are developed as follows:

Segment	25-year average As of 9/30/12	90% - 110% Corridor	June 2013 Unadjusted Rate	HATFA Adjusted Rate
1	5.81%	5.23%	1.43%	5.23%
2	7.23%	6.51%	4.10%	6.51%
3	7.95%	7.16%	5.15%	7.16%

The Effective Interest Rate is 6.74%.

3. The interest rates used for determining the maximum tax deductible contribution are the 24-month average corporate bond segment rates for June 2013 as published by the IRS. The interest rate for this purpose is 4.55%.
4. Withdrawal prior to retirement is assumed to occur in accordance with Crocker Sarason Straight Table T-7.
5. The rates of mortality for disabled lives are based on the Disability Mortality Table per Revenue Ruling 96-7.
6. Retirement will occur at the later of age 65 or 5 years of service.
7. All plan participants have been included in the funding.
8. As required by Section 415 of the Internal Revenue Code, the determination of a participant's projected retirement benefit has been limited so that the amount does not exceed \$205,000 per year adjusted if necessary to recognize the participant's assumed retirement age, cost of living adjustments on the valuation date and optional forms of payment.

Early Retirement

Early retirement is permitted upon the attainment of age 55 and 10 years of service.

The early retirement benefit is based on service at the time of retirement. The benefit is reduced by 0.5% for each month early retirement precedes normal retirement.

Late Retirement

Late retirement is permitted.

The late retirement benefit is equal to the greater of the benefit computed as of the employee's late retirement date or the actuarial equivalent of the employee's normal retirement benefit.

Disability Retirement

Disability retirement is available for any disabled employee upon the age of 50 and who has completed 10 years of Credited Service and is receiving Social Security disability payments.

The disability benefit is based on service at the time of disability with no reduction.

Termination Benefits

Upon termination after 5 years or upon attainment of age 65, a participant is fully vested in his accrued benefit.

The accrued benefit is equal to the benefit developed under the normal retirement formula based on service to date of termination.

Pre-Retirement Spouse's Benefit

Upon the death of an active participant eligible for early retirement but prior to normal retirement, the surviving spouse will receive 50% of the accrued benefit reduced for early retirement and a 50% joint and survivor annuity.

The Retirement Equity Act (REA) requires the plan to allow a pre-retirement spouse's benefit for a vested participant prior to eligibility for early retirement. The surviving spouse will receive 50% of the accrued benefit the participant has accrued on the day before his death reduced for the 50% joint and survivor form of payment. This death benefit is payable on the date in which the participant would have been eligible for early retirement and is subject to an early retirement reduction on that date.

Payments of Benefits

The benefit is payable for the lifetime of the retired participant. The married participant is deemed to have elected a 50% joint and survivor option. This benefit is the actuarial equivalent of the normal retirement benefit.

Payments of Benefits

The benefit is payable for the lifetime of the retired participant. The married participant is deemed to have elected a 50% joint and survivor option. This benefit is the actuarial equivalent of the normal retirement benefit.
