1. DESCRIPTION OF THE PLAN:

The following description of the Remke Markets, Inc. (the "Company") Employees Profit Sharing and Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of the Company who have completed six months of service, without regard to hours worked, and are aged 16 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various mutual funds and common/collective trusts offered by the Plan. The Plan allows automatic enrollment of eligible employees as participants in the Plan. Automatic enrollees initially contribute 2% of their compensation, and may elect to discontinue participation. Each year the Company may, at its discretion, match participants' 401(k) contributions, up to a limit determined by the Company. For the current plan year the Company elected to match 37.5% of each participant's 401(k) contributions up to 5% (maximum 1.88%) of their eligible compensation. The Company may also, at its discretion, make profit sharing contributions to participants. There were no Company profit sharing contributions for 2014.

Participant accounts

A participant's account is credited with the participant's contributions and Company contributions, as well as Plan earnings. Allocations are based on participant earnings, account balance, or specific participant transactions, as defined. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting

Participants are vested immediately in their contributions, catch-up contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes receivables from participants

Notes receivables from participants are not permitted by the Plan.

Payment of benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the participant's vested balance is less than \$1,000, the Company has the option to distribute the vested balance to the participant upon termination. Any non-vested amounts are forfeited.

Forfeitures

At June 30, 2014 and 2013, forfeited non-vested accounts totaled \$48,540 and \$37,065, respectively. These accounts are reallocated to eligible participants in the subsequent year.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As required by professional standards, the statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of distributions

Distributions are recorded when paid.

Operating expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through March 11, 2015, the date the financial statements were available to be issued.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at June 30, 2014 and 2013.

Mutual funds: Valued at the quoted daily closing price as reported by the fund. Funds held by the Plan are open end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common/Collective trusts: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of one of the collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidated will be carried out in an orderly business manner.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fifth Third Bank, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of June 30, 2014 and 2013, the supplemental schedule of assets (held at end of year) as of June 30, 2014, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended June 30, 2014.

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments held during the year were shares of funds managed by Fifth Third Bank. Fifth Third Bank is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fifth Third Bank also provides investment management services. Expenses incurred by the Plan for the investment management services are included in fees.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100 percent vested in their accounts, to the extent they are not already vested.

8. INCOME TAX STATUS:

The prototype plan provider, Fifth Third Bank, had obtained an opinion letter on March 31, 2008 in which the IRS stated that the prototype plan document, as then designed, was in compliance with the applicable requirements of the Code. The plan administrator believes that the Plan is currently being operated in accordance with the applicable requirements of the Code. The Company has elected not to apply for its own determination letter covering the Plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any uncertain positions that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
