Basis for Disclaimer of Opinion

As permitted by 29 CRF 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Branch Banking and Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. NOTE 1. DESCRIPTION OF PLAN

The following description of the Patrick K. Neal & Associates, Inc. 401(k) Plan (the "Plan") provides only general information. Users of the financial statements and supplemental schedule should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established to provide for contributions made under salary deferral agreements pursuant to Section 401(k) of the Internal Revenue Code (the "Code"). The Plan covers substantially all employees of Patrick K. Neal & Associates, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Employees may participate in the Plan once they are age 18.

Contributions: Eligible employees may make contributions via payroll deductions up to limits as defined in the Plan and other limits in accordance with the Code. Elective deferrals can be made in whole percentages of compensation or in specific dollar amounts. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan.

The Company may make matching contributions, at its discretion, equal to a specified percent of each participant's deferral amounts. In addition, the Company may make an additional discretionary contribution to participants of the Plan as deemed appropriate. Contributions are subject to limitations as provided in the Code and as defined in the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF PLAN (Continued…)

Vesting: Participants are immediately vested in their contributions, voluntary rollovers, and the actual allocated earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon is based on years of service, with full vesting no later than six years of credited service subject to each participating employer's adoption agreement.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: Upon normal retirement or reaching the age of 59-1/2, termination of employment, death or disability, or termination of the Plan, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options. A participant may defer paying tax on some taxable payments by electing a rollover distribution.

Withdrawals may also be made in conjunction with IRS hardship distribution regulations.

Forfeitures: In the event that funds are forfeited, those forfeitures may first be used to reduce the Company's discretionary or matching contributions

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared in accordance with the accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expense: The cost and expense of administering the Plan shall be paid, at the discretion of the Company, either directly by the Company or by the Plan through fees deducted from participant accounts.

Subsequent Events: Subsequent events have been evaluated through March 15, 2015, which is the date the financial statements were available to be issued.

NOTE 3. INVESTMENTS

Certification of Investment Information: Branch Banking and Trust Company, the custodian of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of May 22, 2014, the statement of changes in net assets available for benefits for the period then ended, and the supplemental schedule of assets held as of May 22, 2014.

The following presents investments that represent 5 percent or more of the plan's net assets.

- **None** -

NOTE 4. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable market data by correlation or other means;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

NOTE 4. FAIR VALUE MEASUREMENTS (Continued…)

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies used at May 22, 2014 and December 31, 2013.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the quoted net asset value of shares held by the plan at year end. Investments in the mutual funds can be redeemed with no advance notice on any day on which the NYSE is open for trading.

Federated Capital Preservation Fund: Valued at NAV which is its fair value. This Money Market Fund pursues current income consistent with stability of principal and liquidity. It invests primarily in short-term, high-quality, fixed-income securities issued by banks, corporations and the US government, rated in one of the two highest short-term categories or comparable quality. It offers the potential for higher yield than a money market fund portfolio limited to Treasury or government fixed-income securities. It seeks to avoid excessive yield volatility and unnecessary NAV risk through a conservative maturity range.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued…)

The Plan's assets and liabilities have been recorded at fair value and have been categorized based upon the fair value hierarchy as shown below.

12/31/2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Federated Capital Preservation Fund			0	0
Mutual Funds:	- None -			
Total Mutual Funds	0			0
Total Investments at Fair Value	0		0	0
12/31/2013				
Federated Capital Preservation Fund			337,732	337,732
Mutual Funds:				
Blended funds	1,543,138			1,543,138
Bond funds	856,800			856,800
Foreign funds	6002,810			602,810
Government funds	33,914			33,914
Growth funds	996,283			996,283
Target Date funds	316,194			316,194
Value funds	594,085			594,085
Total Mutual Funds	4,943,224			4,943,224
Total Investments at Fair Value	4,943,224		337,732	5,280,956

The following table presents additional information about Level 3 assets and liabilities measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions the Plan has categorized within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category may include changes in fair value that were attributed to both observable and unobservable inputs.

Changes in Level 3 assets measured at fair value for the period ended May 22, 2014 were as follows...

	Fair Value Beginning	Realized & Unrealized Gains (Losses)	Purchases	Sales	Fair Value Ending	Change in Unrealized Gains (Losses) for Investments Held at End
Federated Capital Preservation Fund	337,732	975	40,252	-378,959	0	

NOTE 5. RELATED-PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Branch Banking and Trust Company, the custodian, and, therefore, these transactions qualify as party in interest transactions. Fees paid by the plan for the investment management services are included in net appreciation in fair value of investments.

Administrative fees include investment fees, third party administrative fees, and other professional services, and are based on customary charges as shall be agreed to from time to time. Certain of these expenses are absorbed by the Plan sponsor. Certain administrative functions are performed by officers or employees of the Plan's sponsor. No such officer or employee receives compensation from the Plan.

NOTE 6. PLAN TERMINATION

As of May 22, 2014, Company resolved to discontinue its contributions to the Plan and to participate in the Platinum 401(k) Retirement Savings Plan, a "multiple employer" plan as described in Section 413(c) of the Internal Revenue Code, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All assets of the Plan were allocated to participant accounts within the Platinum 401(k) Retirement Savings Plan.

NOTE 7. TAX STATUS

Although the Plan has not received a determination letter from the Internal Revenue Service, it has adopted a pre-approved Prototype Plan. The Plan has been amended and the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Certain differences may exist between the recording of accruals for financial reporting purposes and IRS/Department of Labor's (DOL) Form 5500 purposes. There were no such differences as of and for the period ended March 22, 2014.
