Note 1 - Plan Description

The following description of the Yucca Mountain 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Plan participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan, a defined contribution plan, was established on February 12, 2001, covering all eligible employees of Bechtel SAIC Company, LLC, (the Sponsor or "BSC"). BSC is a joint venture between Bechtel National, Inc. and Science Applications International Corporation ("SAIC"). The Plan was established to provide for voluntary contributions by participants and matching and discretionary contributions by the Sponsor. Effective April 1, 2009, the Plan's sponsorship was transferred from BSC to USA Repository Services LLC ("USA RS") and renamed the Yucca Mountain 401(k) Savings Plan. The Plan was formerly known as the Bechtel SAIC Company, LLC 401(k) Savings Plan.

The Plan was frozen effective December 31, 2010 (the "Freeze Date"). As a result of the freeze, there were no new entrants into the Plan, and there were no new contributions into the Plan subsequent to the Freeze Date.

Plan Termination

USA RS has the right under the Plan to elect to terminate the Plan at any time, subject to the provisions of the Plan document and the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan transferred all remaining assets in the Plan to the URS Corporation 401(k) Retirement Plan (referred to as the "affiliate plan") on September 30, 2014.

Eligibility

Prior to the Freeze Date, all regular salaried USA RS employees regularly scheduled to work 20 or more hours per week were eligible to participate in the Plan, excluding employees who were leased (as defined under code 414(n) of the Internal Revenue Service) or non-resident aliens.

Contributions

Prior to the Freeze Date, Plan contributions consisted of four components: (i) eligible employee deferral contributions and/or after-tax contributions of 1% to 30% of participant's compensation (before tax dollar limitation in accordance with the Internal Revenue Service ($16,500 plus $5,500 catch up for participants age 50 or over for 2010)), (ii) matching contributions from USA RS each pay period up to 4% of the eligible participant's compensation, (iii) annual discretionary contributions from USA RS with the amount determined each year, but not less than 2% nor greater than 5% of the compensation of all employees who were eligible to receive an allocation as defined in the Plan document, and (iv) rollover contributions from a participant's personal or prior employer tax deferred retirement accounts. Participants could suspend their contributions at any time. Participants who were represented by a union were not eligible for the matching contributions described in (ii) above.

Discretionary Contributions

Prior to the Freeze Date, each year USA RS made a discretionary contribution to the Plan's eligible participants. USA RS determined the amount of the contribution annually, which was between 2% and 5% of the compensation of all employees who were eligible to receive an allocation. Employees eligible to receive an allocation included all employees eligible to participate in the Plan who were employed on the last day of the Plan year, and those eligible employees who had terminated employment during the year due to death, disability or retirement, except any such employee who accrued a benefit under the Yucca Mountain Salaried Pension Plan for the year. No discretionary contributions have been made to the Plan since the Freeze Date.

Participant Accounts

Individual accounts were maintained for each Plan participant. Each participant's account was credited with the participant's contribution, the Sponsor's matching and/or non-contributory contributions, and investment gains, and charged with withdrawals and investment losses. Allocations of investment gains and losses were based upon relative fund account balances at regular valuation dates specified by the Trustee of the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investments

Participants could direct the investment of their contribution into various investment options offered by the Plan. The Plan offered various mutual funds and a stable income fund as investment options for participants.

Vesting

Participants were fully vested in their contributions, employer contributions, and the earnings thereon at all times.

Notes Receivable from Participants

All participants in the Plan could apply for a loan from the Plan prior to the date the Plan ended. A loan made to a participant could not be less than $1,000 or more than 50% of the participant's account balance up to $50,000. Loans bear interest at a fixed rate of prime plus 1% and are collateralized by the borrower's assignment of rights to their available account, as acknowledged by a promissory note. Active loans were transferred to the affiliate plan on September 30, 2014. The interest rate of the loans transferred was 4.25% as of September 30, 2014, and ranged from 4.25% to 5.00% as of December 31, 2013. Repayments are generally made over a maximum five-year period.

Benefit Payments

Withdrawals of pre-tax contributions were only allowed in cases of proven hardship or the attainment of age 59 ½. Rollover contributions and after-tax contributions could be withdrawn at any time.

Upon termination of employment, retirement, or death, participants or beneficiaries could elect to receive a single lump-sum payment equal to the value of the participant's account, or rollover all or part of the account balance into an IRA or another qualified plan, as defined in the Plan document. A participant with a balance less than $1,000 may automatically receive a distribution of their account.

Note 2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Forfeited Funds

There were no forfeited funds at September 30, 2014 or at December 31, 2013. Forfeitures could be used to reduce the company’s contributions or to pay Plan expenses.

Administrative Expenses

The USA RS has discretion to determine whether administrative expenses shall be paid by USA RS or the Plan. For the nine month period ended September 30, 2014 and year ended December 31, 2013, administrative expenses paid by the Plan consisted primarily of investment management fees. USA RS provides accounting and other administrative services to the Plan at no charge.

Payment of Benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through March 18, 2015, the date the financial statements were available to be issued.

Note 3 - Investments

Following are the fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2013. Due to the transfer of assets out of the Plan, there are no 5% or more net assets available for benefits to report at September 30, 2014.

	2013
Investments at fair value	
Fidelity Low-Priced Stock Fund – Class K	$7,158,468
Fidelity Growth Company Fund	6,399,217
Morley Stable Value Fund	5,357,601

Fidelity Mid-Cap Stock Fund	4,605,361
PIMCO Total Return Fund - Institutional Class	3,299,142

During the nine month period ended September 30, 2014, and the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	September 30, 2014	December 31, 2013
Mutual funds	$ 998,438	$6,539,952
Fully benefit-responsive contract	39,167	62,005
Net appreciation in fair value of investments	$1,037,605	$6,601,957

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and Plan have the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2014, and December 31, 2013.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at period end.

Stable Value Fund: Valued at the net asset value (NAV) of its underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013. Due to the transfer of Plan assets at September 30, 2014, to the affiliate plan, there are no fair values to report as of that date.

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual Funds				
Mid-Cap Blend	$11,763,829	$ -	$ -	$11,763,829

Moderate Allocation	4,806,335	-	-	4,806,335
Intermediate-Term Bond	3,299,142	-	-	3,299,142
Total Mutual Funds	37,539,072	-	-	37,539,072
Common Collective Trust

Total Assets at Fair Value	$37,539,072	$ 5,357,601	$ -	$42,896,673

ASC 820 *Fair Value Measurement and Disclosure: Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* requires disclosures of certain attributes in entities that calculate a net asset value per share (or its equivalent) and do not have a readily determinable fair value. The following table sets forth the disclosure of the attributes:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
As of December 31, 2013				
Stable Income Market Index Fund [(a)]	$ 5,357,601	--	Daily	None

[(a)] The objective of the fund is to maximize current income consistent with the maintenance of the investors' principal investment. To achieve this, the Fund invests in a fixed-income security portfolio of fixed-income securities and a value guarantee (wrapper) provided by a third party.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the nine month period ended September 30, 2014, and the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 5 - Information Certified by Trustee

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by Fidelity Management Trust Company, the "Trustee" of the Plan, as of September 30, 2014, and December 31, 2013, and for the period from January 1, 2014, to September 30, 2014, and the year ended December 31, 2013.

The information certified by the Trustee were the annual reports and accounting for the period January 1, 2014, to September 30, 2014, and the year ended December 31, 2013, which include beginning and ending balances of assets, a detailed listing of the transactions in the various funds, including investment earnings (losses), and interest income on notes receivable from participants.

Note 6 - Income Tax Status

The Internal Revenue Service (the "IRS") has determined and informed USA RS by a letter dated April 16, 2009, that the Plan was designed in accordance with the applicable regulations of the Internal Revenue Code (the "IRC"). Subsequent to this issuance of the determination letter, the Plan was amended. However, USA RS and Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 - Party-in-Interest Transactions

Certain investments of the Plan are shares of funds managed by Fidelity Investments, Inc., a related party of the Plan's trustee; and therefore, these transactions are considered exempt party-in-interest transactions. The Plan incurred $416 and $756 for Fidelity Management Trust Company administrative services for the period January 1, 2014, to September 30, 2014, and the year ended December 31, 2013, respectively.

Note 8 - Risks and Uncertainties

The Plan utilized various investment instruments. Investment securities, in general, were exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the financial statements.

Note 9 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the financial statements to Form 5500 as of and for the nine month period ended September 30, 2014 and the year ended December 31:
