SCR MEDICAL TRANSPORTATION 401(k) PLAN

Notes to Financial Statements

December 31, 2013

NOTE 1 DESCRIPTION OF PLAN

The following description of the SCR Medical Transportation 401(k) Plan (the Plan) provides general information about the Plan's provisions. SCR Medical Transportation (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined-contribution plan covering substantially all of the Company's full-time employees who are at least the age of 21 and regularly scheduled to work a minimum of 1,000 hours of service per year. Eligible participants may elect to defer a percentage of eligible pay every pay period. Plan participation begins on the first day of the month following the completion of the eligibility requirements for participants.

The Plan originally became effective on January 1, 1998. The amended and restated provisions of the Plan became effective on October 1, 2008.

The Plan administrator is responsible for its daily administration and operation. Prior to 2012, State Street Bank and Trust was the Plan's trustee and ADP was the Plan's recordkeeper. During 2012, the Plan designated Great-West Life and Annuity Insurance Company as its trustee and recordkeeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Elective deferrals to the Plan are made from the participant's eligible pre-tax earnings. Participants may contribute from 1% to 15% of eligible earnings. Participants who have attained the age of 50 before the end the year are eligible to make catch-up contributions. The Company may decide to make a matching contribution to the Plan, although it is not required to make this contribution. The percentage of elective deferrals to be matched will be determined by the Company and allocated to participants at the end of the Plan year. The participant must be employed by the Company on December 31 to receive the matching contribution allocation. The Company may decide to make a non-elective contribution to the Plan, although it is not required to do so. During 2013, the Company elected to make a matching contribution equal to 50% of a participant's elective deferrals, up to 3% of their eligible compensation. For purposes of elective deferrals, matching contributions, and non-elective contributions, the participant's entry date will be the first day of the month following the date on which the participant satisfies the eligibility requirements.

Notes to Financial Statements

NOTE 1 DESCRIPTION OF PLAN *(continued)*

Contributions *(continued)*

All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Amounts contributed to the Plan are held in a trust created under the Plan. Contributions allocated to the participant's account are invested according to the participant's direction, whereas each investment fund that is offered has different investment objectives.

Participant Accounts

Each participant's account is credited the participant's contributions, the Company's matching contributions, if any, and an allocation of the investment earnings, if any. Each participant's account is charged with an allocation of administrative expenses and investment losses, if any. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, according to the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions and any non-elective contributions is based on the number of years of a participant's continuous service. The number of years of service for vesting is counted from the effective date of the Plan, or the participant's date of hire, if the participant's date of hire is after the effective date of the Plan. A participant is vested according to the following schedule:

<u>Years of Service</u>	<u>Vesting %</u>
Less than 2 years	0%
At least 2, but less than 3	20%
At least 3, but less than 4	40%
At least 4, but less than 5	60%
At least 5, but less than 6	80%
6 or more	100%

NOTE 1 DESCRIPTION OF PLAN *(continued)*

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. As of December 31, 2013, unallocated forfeited funds totaled \$1,140. There were no unallocated forfeited balances as of December 31, 2012. No forfeitures were used to reduce Company contributions in 2013.

Participant Loans

Participants may borrow from their accounts in increments of \$500 up to a maximum equal to the lesser of \$50,000, reduced by the excess, if any, of their highest outstanding balance of loans from the Plan during the one-year preceding period, or 50% of their vested balance. Loan terms range from 1-5 years; the Plan administrator may permit a range up to 30 years for the purchase of a primary residence. The \$50,000 limit is reduced by the participant's highest outstanding loan balance during the preceding 12-month period. A participant will have to repay any outstanding loan before a new loan can be issued. The interest rate for a loan will be the rate in effect in the month the participant's loan is effective. The interest rate is the prime rate as published in the *Wall Street Journal* on the 14th of each month, plus 2 percentage points, and is effective for any loan processed as of the 16th day of the month. Principal and interest are paid ratably through monthly payroll deductions. If a participant terminates employment with the Company, the loan and related interest are due immediately. However, if the participant qualifies as a party-in-interest, the participant may continue to repay the loan after termination of employment. If the loan is not repaid, it will automatically be treated as a distribution to the participant after 60 days.

Payment of Benefits

Upon separation from service with the Company due to disability, retirement or termination, a participant can receive the vested benefit in a single lump-sum payment. The participant can elect to have the payment paid as a direct rollover to an individual retirement account or individual retirement annuity (an IRA) or to another employer's tax-qualified plan.

SCR MEDICAL TRANSPORTATION 401(k) PLAN

Notes to Financial Statements

NOTE 1 **DESCRIPTION OF PLAN** *(continued)*

Payment of Benefits *(continued)*

When a participant leaves the Company and the value of the vested account balance is \$5,000 or less on the valuation date coinciding with or immediately following the termination of employment, the Company can cash the entire vested account balance out of the Plan (cash-out). Under the Plan, if a participant is determined to be cash-out eligible; the entire vested account is great than \$1,000; and the participant has not elected to: (a) receive the vested benefit in the form of a single lump-sum payment, or (b) have the payment paid as a “direct rollover” to an IRA or to another employer’s tax-qualified plan, the funds will automatically be rolled over to an IRA established by an IRA provider selected by the Company.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are regulated strictly by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan’s administrative expenses are paid by either the Plan or the Company, as provided by the Plan’s provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales or transfers of the Plan’s investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

Plan Termination

Although it has not expressed any such intent, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

SCR MEDICAL TRANSPORTATION 401(k) PLAN

Notes to Financial Statements

December 31, 2013

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold, and held during the year.

SCR MEDICAL TRANSPORTATION 401(k) PLAN

Notes to Financial Statements

December 31, 2013

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investment Valuation and Income Recognition *(continued)*

The Plan's investments include the Key Guaranteed Portfolio Fund, which invests in guaranteed investment contracts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. U.S. GAAP requires the statement of net assets available for benefits to present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. No such adjustment is reported as the contract value approximates fair value.

Subsequent Events

The Plan has evaluated subsequent events through March 19, 2015, the date the report is available to be issued and determined that there are no subsequent events to be recognized in these statements.

NOTE 3 INVESTMENTS

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2013 and 2012 and net appreciation in fair value of investments, interest, dividends, and interest on notes receivable from participants for the year ended December 31, 2013, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by the Trustee. All investments are reported at their fair value.

SCR MEDICAL TRANSPORTATION 401(k) PLAN

NOTE 3 INVESTMENTS *(continued)*

Individual investments that represented 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Great-West Lifetime 2015 Fund II T1	\$ 90,141	\$ 106,165
Great-West S&P 500(R) Index Fund, Institutional Class	66,604	44,412
Key Guaranteed Portfolio Fund**	148,447	86,051
BlackRock Equity Dividend Fund, Investor A	53,217	34,487
Great-West Lifetime 2025 Fund II T1	43,865	*

*Investment did not represent more than 5% or more of the Plan's net assets at December 31, 2012.

**Great-West Life and Annuity Insurance Company certifies the completeness and accuracy of contract value for the fixed annuity fund and indicates that contract value approximates fair value for this fund.

During 2013, the Plan's investments (including investments purchased, sold, and held during the year) appreciated in fair value by \$54,018.

NOTE 4 FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active

SCR MEDICAL TRANSPORTATION 401(k) PLAN

Notes to Financial Statements

December 31, 2013

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Guaranteed interest account: The Key Guaranteed Portfolio Fund is fully benefit-responsive and contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fully benefit-responsive contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Key Guaranteed Portfolio Fund is reported at fair value. Fair value is based on contract value, which represents contributions made under the fund, plus earnings, less participant withdrawals and administrative expenses. Contract value represents reasonable approximation of fair value because crediting rates represent rates of return that compensate participants for risks involved, including liquidity constraints. In addition, new contributions with market participants occur on a daily basis at current crediting rates.

Pooled separate accounts: Pooled separate accounts are valued at the accumulation unit value (AUV), which uses the underlying net asset value (NAV) of the mutual fund that the separate accounts invest in as a basis for calculation. The AUV for each investment option is determined once each business day.

The preceding methods may produce a fair value calculation that may not indicate net realizable value or reflect future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments may result in a different fair value measurement at the reporting date.

- (a) Participants' principal and interest are fully guaranteed by the entire general assets of Great-West Life and Annuity Insurance Company. These assets are primarily high-quality, fixed-income bonds, with 99% rated investment-grade and 28% rated 'AAA'. The investment may be most appropriate for investors wanting to safeguard principal value or to balance a portfolio that contains more aggressive investments. The investors may be requiring stability and asset liquidity. Each quarter, an interest rate is established for all money, regardless of when it was deposited. The credited interest rate may stay the same or change each quarter. Participants may transfer their account balance to any other investment option offered under the Plan at any time with no restrictions or penalties.

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

- (b) This category includes investments in a professionally selected mix of mutual funds invested primarily in equities and fixed-income securities designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These funds share the common goal of first growing and then later preserving principal. These funds are non-diversified. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the NAV per share of the underlying mutual funds.
- (c) This category consists of mutual funds that invest in equity securities, primarily common stocks, of companies in health science, science and technology, utilities industry, publicly traded real estate investment trusts and real estate industry. These funds provide investors looking for greater potential returns and willing to accept a higher degree of risk. Specialty funds that invest in a specific industry sector may be more volatile than funds with more diversified investments. These funds may use aggressive investment strategies that are speculative and involve a higher degree of risk. These funds are non-diversified.

NOTE 5 RISKS AND UNCERTAINTIES

The Plan invests in investment securities that are exposed to various risks such as interest rate, market volatility and credit risks. With the level of risk associated with certain investment securities, it is quite possible that changes in the values of investment securities will occur in the near term. These changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in a guaranteed interest account with Great-West Life and Annuity Insurance Company, the trustee of the Plan, as well as holds units in certain pooled separate accounts managed by the trustee. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

SCR MEDICAL TRANSPORTATION 401(k) PLAN

Notes to Financial Statements

December 31, 2013

NOTE 7 INCOME TAX STATUS

The underlying, non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2011-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there were no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
