The Plan permits In-Plan Roth Conversions. The Plan also allows for catch-up contributions for those participants age 50 and over by the end of the Plan year. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions. The Employer is required by the Plan document to make matching contributions in an amount equal to 50 percent of the participants' contributions. The match is limited to the first 6 percent of a participant's annual compensation contributed to the Plan. In addition to the required matching contribution described above, the Employer may contribute additional discretionary matching contributions and discretionary profit-sharing contributions. There were no discretionary additional matching or profit-sharing contributions made for the period ended November 30, 2014 or the year ended December 31, 2013. All Employer contributions are invested in the same investment options as elected by employees for their contributions. Contributions to the Plan ceased as of the final payroll in February 2014 when the Plan sponsor was acquired by Acosta, Inc.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Plan earnings or losses, and an allocation of Employer contributions. Allocation of the Employer matching contributions is based on participant contributions, and profit-sharing contributions, if any, are allocated based on employee's pay. Income is daily allocated based on the shares in the participant's accounts. Additionally, each participant's account may be charged with an allocation of Plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary salary deferral and rollover contributions and related earnings. Vesting in the Employer's contributions plus related earnings is based on years of continuous service. A participant vests 20 percent in their fixed and discretionary matching contributions each year beginning after two years of service and reaches 100 percent vesting after six years of credited service. Upon reaching normal retirement age, or in the event of death or disability, participants become fully vested in all benefits.

Benefit Payments

On termination of service due to death, disability, retirement (age 65), or separation, a participant may elect to receive a lump-sum distribution, installment payments, or various forms of qualified joint and survivor annuities. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If a participant terminates employment and the participant's account balance is less than \$5,000, the Plan administrator will authorize the account balance to be rolled over to an individual retirement account without the participant's consent. Participants are eligible to receive a distribution of their 401(k) deferrals if they have attained age 59½ or incur an immediate and heavy financial hardship, as defined in the Plan.

Forfeited Accounts

Forfeited nonvested accounts may first be used to pay administrative expenses and then to reduce Employer matching contributions, with any remainder allocated as additional Employer profit-sharing contributions. Forfeitures of \$3,840 were used to reduce Employer contributions for the period ended November 30, 2014. The forfeiture account balance of \$17,327 at December 31, 2013 was used to reduce Employer contributions for the year then ended. There were no forfeitures utilized to pay administrative expenses for the period ended November 30, 2014 or the year ended December 31, 2013.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Fair Value Measurements

Financial Accounting Standards Board *Accounting Standards Codification* 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investments in the money market fund and mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in common stock and exchange traded funds are valued at the closing price reported in the active market in which the individual security is traded.

The collective fund is valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investments of the Plan are held by Wilmington Trust (the Custodian), and are invested solely upon instructions received from participants. The Plan offers a selection of investment options. Additionally, the Plan permits participants to self-direct the investment of their account balance in any investment desired, within certain specified limitations. At December 31, 2013, three Plan participants had self-directed accounts that were invested in stocks, exchange-traded funds, and a money market fund. The total investment balance in the self-directed accounts was \$580,340 at December 31, 2013.

Administrative Expenses

The Plan is administered by Trautmann, Maher & Associates. Substantially all expenses incurred for the ordinary and necessary administration of the Plan and expenses for investment advisory services are paid through the Plan and have been allocated to participant accounts based on their account balances. The Employer provides certain administrative services to the Plan at no charge.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through February 19, 2015, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

The Custodian has supplied the Plan administrator with a certification as to the completeness and accuracy of all cash and investment information reflected on the accompanying statements of net assets available for benefits as of November 30, 2014 and December 31, 2013 and the statements of changes in net assets available for benefits for the period ended November 30, 2014 and the year ended December 31, 2013.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by Wilmington Trust, who is the Custodian as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees of \$11,480 and \$12,100 were paid to Wilmington Trust for the period ended November 30, 2014 and the year ended December 31, 2013, respectively.

NOTE 8 PLAN TAX STATUS

The Plan is placing reliance on a determination letter dated June 23, 2010, received from the Internal Revenue Service (IRS) indicating that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under current income tax law. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
