1. Description of Plan

The following description of the Saddle Creek Corporation 401(k)/Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of Saddle Creek Corporation and Subsidiaries (the "Company") who have completed six months of service and have attained age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 100% of eligible compensation and highly compensated employees, as defined by the Internal Revenue Service, may contribute up to 12% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. New participants will automatically contribute 3% of eligible compensation as defined in the Plan document unless the participant elects not to participate or chooses a different deferral percentage.

Employer matching contributions are discretionary. For the year ended June 30, 2014, the Company matched employee contributions up to 3% of eligible compensation of the contributory participants. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. No additional contribution was authorized for 2014. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. The Plan currently offers twenty two mutual funds and one stable value common collective trust fund as investment options for participants. Participants may change their investment options at any time via telephone or the internet.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings and charged with benefit payments and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant does not begin to vest until after year one (10%) and increases ratably until fully vested in year six of credited service, or upon death, disability, or normal retirement age. Normal retirement age is 65.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.18%, which are commensurate with local prevailing rates at the loan inception as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions over a period not to exceed five years, unless the loans are used to purchase a primary residence, in which case the loan term may equal ten years.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a single lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a fixed period of time, not more than the participant's assumed life expectancy. Participants may make hardship withdrawals from voluntary contributions upon demonstrating immediate and extreme financial need.

Forfeited Accounts

Any non-vested amounts remaining after distribution of a terminated participant's vested account balance are forfeited. Forfeitures are used for some Plan expenses and used to reduce the employer's contribution. At June 30, 2014 and 2013, forfeited nonvested accounts of terminees totaled $181,216 and $193,113, respectively. These accounts will be used to pay certain administrative expenses and reduce future employer contributions. Forfeitures that were allocated to participant accounts amounted to $188,584 for the year ended June 30, 2014.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting except for benefit payments, which are reported on a cash basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

While Plan investments are presented at fair value in the statements of net assets available for benefits, any material differences between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus accrued interest, less participant withdrawals. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in the Wells Fargo Stable Value Fund M (the "Fund"). Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include all or a portion of the following:

- material amendments to the Fund's structure or administration;
- changes to the participating plans' competing investment options including elimination of equity wash provisions;
- complete or partial termination of the Fund, including a merger with another fund;
- the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;

- the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan, the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;

- any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or participating plans;

- the delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

At June 30, 2014 and 2013, the Fund is stated at fair value with the related adjustment amount to contract value disclosed in the statements of net assets available for benefits. The statement of changes in net assets available for benefits is prepared on the contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent participant loans are classified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the investment management and recordkeeping are absorbed by the Plan.

3. Information Prepared and Certified by Trustees

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosures under ERISA. At July 1, 2012, the Plan's investments were transferred from Wells Fargo Bank, N.A. to Transamerica Retirement Solutions (Trustees). Accordingly, as permitted under such election, the Plan administrator instructed the auditor not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained a certification from the Trustee that the information provided to the Plan administrator by the Trustee as of June 30, 2014 and 2013, and for the year ended June 30, 2014, is complete and accurate. Such information includes all investments (including notes receivable from participants), investment dividends and interest, investment gains and losses, and the information in the supplemental schedule of assets held at end of year.

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits:

June 30,	**2014**	2013
Mutual Funds:		
Vanguard Equity Income Adm Value Fund	**$ 5,098,846**	$ 4,339,910

During the year ended June 30, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Year Ended June 30,	**2014**
Mutual funds	**$ 5,092,552**
Stable value common collective trust fund	**16,461**
	$ 5,109,013

4. Fair Value Measurements

The Plan measures and reports its financial assets and liabilities using a three-tier hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- *Level 1* – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- *Level 2* – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- *Level 3* – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at the year end. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Common Collective Trust Fund: The plan invests in the Wells Fargo Stable Value Fund M (the "Fund") that is designed to protect principal and provide a higher rate of return while permitting withdrawals or transfers of all or a portion of the participant's account balance at contract value within a reasonable time frame. The Fund is primarily invested in guaranteed investment contracts and security-backed contracts. The net asset value at contract value is determined daily. Units are issued and redeemed at the latest net asset value. Net investment income, if any, and realized and unrealized gains on investments are not distributed. The estimated fair value, which is estimated based on the fair value of the underlying investments in the Fund as reported by the issuer of the Fund, is net asset value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. The fair value differs from the contract value. As previously discussed, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The average yields for the Wells Fargo Stable Value Fund M are as follows:

Year Ended June 30,	**2014**	2013
Based on actual earnings	**1.36%**	0.94%
Based on interest credited to participants	**1.52%**	1.95%

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014 and 2013:

5. Party-in-Interest

Transamerica Retirement Solutions Corporation is the trustee of the Plan's investments. Plan cash includes monies in State Street Bank & Trust Company which qualifies as a party-in-interest. Cash represents .60% and .70% of the Plan's net assets at June 30, 2014 and 2013.

Transamerica Retirement Solutions Corporation is the record keeper of the Plan. Fees paid to the record keeper by the Plan for management services amounted to $163,979 for 2014. These transactions qualify as party-in-interest transactions.

Cambridge Investment Research is the financial advisor for the Plan. Fees paid to the financial advisor by the Plan for investment management fees amounted to $185,016 for 2014. These transactions qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Service Code (IRC). The Plan has been amended and restated since receiving the determination letter. However, in the opinion of the Plan administrator, the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and qualifies the Plan and related trust for tax-exempt status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and/or Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company's open tax years subject to examination by the Internal Revenue Service generally remain open for three years from the date of filing.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.
