NOTES TO FINANCIAL STATEMENTS

McDONALD STEEL CORPORATION AMENDED 401(k)
EMPLOYEE PROFIT SHARING PLAN AND TRUST

June 30, 2014 and 2013

NOTE A - DESCRIPTION OF PLAN

The following brief description of McDonald Steel Corporation Amended 401(k) Employee Profit Sharing Plan and Trust (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General:

The Plan is a defined contribution plan covering all employees of McDonald Steel Corporation who have one year of service. The Plan was amended, effective July 1, 1991, to incorporate additional 401(k) plan features, which provide enhanced employer and employee contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may make voluntary contributions as a percentage of their annual base compensation, as defined in the Plan agreement. The total annual participant voluntary contribution is limited to $17,500 in 2014 and 2013, which is adjusted annually by a cost of living factor. Participants age 50 or older may make an additional contribution of $5,500. The company matches 50% of participant contributions to the plan up to a maximum match of 3.5%. Additional profit sharing amounts are contributed to the Plan. As of July 1, 2008, the minimum profit sharing contribution is 3.00% of participant compensation.

Participants' voluntary contributions and employer's matching contributions are designated under a qualified deferred arrangement as allowed by Section 401(k) of the Internal Revenue Code.

Participants may direct the investment of their voluntary contribution and employer contributions into certain funds maintained by Fidelity Management Trust Company.

Participant Accounts:

Each participant's account is credited with his or her voluntary contribution and employer contributions and an allocation of the Plan earnings as defined by the Plan.

Trustee:

Fidelity Management Trust Company holds the Plan's assets and executes transactions thereon.

Vesting:

Upon participation in the Plan, all participants are 100% vested.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits:

Upon termination of service, a participant may elect to receive a distribution of his or her vested account balance in the form of (1) a lump-sum payment, (2) installment payments, not to exceed the participant's expected life, or (3) a direct rollover distribution.

Participant Notes Receivable:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest rates from 4.25% - 9.50%.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments:

The investments in each portfolio fund are carried at current fair value as determined by Fidelity Management Trust Company. The participants share in any depreciation, appreciation, income or expense on a pro rata basis for applicable invested funds.

Adjustment to Contract Value for Collective Trust Fund:

As described in FASB ASC 946, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Fidelity Managed Income Portfolio investment held by the Plan contains underlying investment contracts that are subject to the requirements of FASB ASC 946. As required by FASB ASC 946, the statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, results could differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan Costs:

Except for investment fees, the employer is absorbing all significant costs of the Plan.

Subsequent Events:

Management evaluated all activity of the Plan through April 3, 2015, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes.

NOTE C - INVESTMENTS

FASB ASC 820 requires the Plan to classify its assets and liabilities based on valuation methods using three levels. Level 1 inputs are based on quoted prices in active markets for identical investments. Level 2 inputs are based on significant observable market inputs, such as quoted prices for similar investments and quoted prices in inactive markets. Level 3 inputs are based on significant unobservable inputs that reflect the Plan's determination of assumptions that market participants might reasonably use in valuing the investments. The valuation levels are not necessarily an indication of risk or liquidity associated with the underlying investments.

Investments as of June 30, 2014 are comprised of the following:

	Assets at Fair Value			
	(Level 1)	(Level 2)	(Level 3)	Total

NOTE C - INVESTMENTS (CONTINUED)

Investments as of June 30, 2013 are comprised of the following:

	Assets at Fair Value			
	(Level 1)	(Level 2)	(Level 3)	Total
Participant directed investment accounts:				
Mutual funds:

TOTAL INVESTMENTS	$8,483,296	$ 604,894	$ 0	$9,088,190

NOTE D - SYNTHETIC WRAP CONTRACT WITH FIDELITY MANAGEMENT TRUST COMPANY

The Plan invests in a benefit-responsive synthetic wrap contract with Fidelity Management Trust Company (FMTC). FMTC invests in and retains ownership of a pool of fixed income securities which are "wrapped" by a synthetic investment contract issued by third parties that insures that participant-initiated withdrawals from the stable value fund will be paid at book value. There is no immediate recognition of gains and losses on the pool of securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the synthetic wrap.

Because the synthetic wrap contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the synthetic wrap contract. The synthetic wrap contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by FMTC, represents the sum of all of the benefits owed to participants (invested principal plus all accrued interest). Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE D - SYNTHETIC WRAP CONTRACT WITH FIDELITY MANAGEMENT TRUST COMPANY (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2014 and 2013 was $363,384 and $604,894, respectively. The contract's investments are valued at fair market value and the "wrap" portion of the contract accrues interest at a crediting rate that is agreed upon with the issuer. Crediting rates are reset monthly. The wrap contract provides a guarantee that the crediting rate will not fall below 0%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code, (2) the establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification to the contract or the administration of the contract that is not consented to by the wrap issuer, (4) any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the contract's cash flow, (5) any communication given to unitholders by the plan sponsor, any other plan fiduciary or FMTC that is designed to influence unitholders not to invest in the contract of to transfer assets out of the contract, or (6) any transfer of assets from the contract directly to a competing investment option. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The synthetic wrap contract does not permit FMTC to terminate the agreement prior to the scheduled maturity date.

Average yields:

	2014	2013
Based on actual earnings	.94%	1.02%
Based on interest rate credited to participants	1.02%	.85%

NOTE E - PLAN TERMINATION

Although it has not expressed an intention to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, net assets of the Plan may be distributed to participants in one lump-sum payment or the Plan assets may continue with the Plan's trust and be distributed to participants upon their retirement.

NOTE F - INCOME TAX STATUS

The Plan obtained a determination letter dated March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Net appreciation in fair value of investments per Form 5500	$ 835,807	$ 603,031

NOTE H- RELATED PARTY TRANSACTIONS

The Plan invests in shares of mutual funds and a money market fund managed by Fidelity Management Trust Company. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. In addition, except for investment fees, McDonald Steel Corporation is absorbing all significant administrative costs of the Plan.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
