NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 AND 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of Globe Metallurgical, Inc. Hourly Employees Retirement Savings Plan (the Plan) have been prepared using the accrual basis of accounting and are in conformity with accounting principles generally accepted in the United States of America.

Contributions

Participants may contribute up to 100% of base salary to the Plan on a pre-tax basis. Pre-tax participant contributions during the 2014 and 2013 plan years were limited by federal law to \$17,500 and \$17,000, respectively. Eligible employees may also elect to make "catch-up" contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The company has elected to make a discretionary matched contribution equal to 25% of the first 6% of each participant's contribution to their respective 401(K) account. The match applies to all participating employees of Globe Metallurgical, Inc.

Investments

Investments are reflected at fair market value as determined by the trustee. Mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The collective trust fund is valued at the NAV of units of a collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. Participant loans are valued at cost, which approximates fair value. Investment transactions are recorded on a settlement-date basis. Total recorded investment value as recorded on a settlement-date basis does not materially differ from what total investment value would be if transactions were recorded on a trade-date basis.

Administrative Expenses

The expenses necessary to administer the Plan are paid by the Plan or Plan sponsor including, but not limited to, those involved in retaining necessary professional assistance from an attorney, an accountant, an actuary, or an investment adviser. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Forfeitures

Company contributions to a participant's account in which the participant has not yet vested are forfeited in the event of termination of employment of the participant for any reason other than normal or early retirement, disability, or death. Amounts forfeited are used to reduce Plan expenses and future Company contributions to the Plan. Forfeited non-vested account balances were \$ -0- and \$157 as of June 30, 2014 and 2013, respectively. Forfeited amounts used to reduce Plan expenses were \$163 for the Plan year ended June 30, 2014.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income, Contributions, and Distribution Recognition

Interest income is recognized in the period earned. Dividend income is recognized in the period in which the dividends are declared. Participant and employer matching contributions are recognized when the participant contributions are deducted from the participant's salary. Distributions to participants are recorded in the period in which the payment is made.

Loans to Participants

Loans are made available to all participants in accordance with the specific provisions set forth in the Plan. The amount of a loan cannot exceed the lesser of \$50,000 or one-half of a participant's total vested account balance. The loans bear interest at a rate of 1% above prime rate at the time the loan is made. Participants with loan balances had an interest rate of 4.25% during the plan year ending June 30, 2014. All loans are subject to specific repayment plans and are secured by the participant's non-forfeitable interest in his/her account equivalent to the principal amount of the loan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF THE PLAN

The following description of the Plan provides general information only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

The Plan was originally established on January 1, 1995, as the Globe Metallurgical, Inc. Niagara Falls Hourly Employees Retirement Savings Plan. The Plan was amended and restated on January 1, 1997 to expand its coverage to include hourly employees of the Selma, Alabama, plant. On the same date, the Plan's name was changed to Globe Metallurgical, Inc. Hourly Employees Retirement Savings Plan.

Generally, employees covered by the Plan are eligible to participate immediately following 3 months of service. A participant becomes eligible to receive distributions upon attaining the normal retirement age of 65. Early distributions and hardship withdrawals are available to participants who meet specific requirements of the Plan. Upon retirement, the entire balance of the participant's

account shall be distributed in accordance with the method of distribution selected by the participant and his designated beneficiary. The Plan is contributory for employees. Participants are immediately vested in their contributions plus earnings attributable to those contributions. Participants are 100% vested in employer contributions after one year of continuous service. The employer matching contributions were effective October 1, 2007. The plan allows for a discretionary match; no amendments were necessary. Effective July 31, 2011, the plan was amended to provide immediate eligibility for hourly employees at the Niagara Falls location.

Effective December 21, 2005, Globe Metallurgical acquired West Virginia Alloy as a subsidiary. As of January 1, 2006, the plan allowed employees from West Virginia Alloy to be eligible participants in the Globe Metallurgical Hourly Employees Retirement Savings Plan. The plan was amended in May, 2011, to provide for immediate eligibility for WVA Manufacturing, LLC hourly employees.

The plan offers the following funds: American Century Livestrong Portfolio 2015, 2020, 2025, 2030, 2035, 2040, 2045, and 2050 funds, Dodge and Cox Balanced Fund, Federated Funds Groups Capital Pres. fund, PIMCO Mutual Funds Total Return Instl. fund, Columbia Funds Acorn Z fund, American Funds Growth Fund of America Class R-4 fund, Harbor Funds Small Cap Value Ret fund, Hotchkis & Wiley Large Cap Value Class A fund, Davis Funds New York Venture fund, and American Funds Europacific Growth Fund Class R-4 fund into which contributions can be directed for investment. Participants determine where contributions can be directed for investments. The allocation of future contributions and existing investments among the various funds can be changed by the participant at any time.

As of November 25, 2014, the Globe Metallurgical, Inc. Hourly Employees Retirement Savings Plan merged into the Globe Metallurgical, Inc. Retirement Savings Plan.

NOTE 3 - INVESTMENTS AND INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan's investments are held by Benefit Trust Company as custodian. Benefit Trust Company maintains the investments in separate accounts, which comprise a significant portion (100.00% - 2014, 100.00% - 2013) of the Plan's assets. The accounts are credited with earnings on the underlying investment and charged for plan withdrawals. The contract is included in the financial statements at contract value which approximates fair value as reported by the Benefit Trust Company. Benefit Trust Company certified as of June 30, 2014 and 2013 as to the completeness and accuracy of the information reported. Net interest income totaled \$14,083 and \$13,757 for the years ended June 30, 2014 and 2013, respectively. The information included in the Schedule of Assets was certified by Benefit Trust Company.

NOTE 4 - FEDERAL INCOME TAXES

The Plan uses a volume submitter plan document sponsored by Findley Davies, Inc. Findley Davies, Inc. received an opinion from the IRS, dated March 31, 2008, which states that the volume submitter document satisfied the provisions of Section 401 of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include a provision for federal income taxes.

NOTE 4 - FEDERAL INCOME TAXES (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 5 - PARTICIPANTS SEPARATED FROM SERVICE WITH A DEFERRED VESTED INTEREST

As of June 30, 2014, twenty-five participants with account balances totaling \$1,218,934 have separated from service and have not been paid.

NOTE 6 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the assets or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6 - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014:
