Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 6, which was certified by Huntington National Bank, trustee of the Plan, except for comparing the information with the related information in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions.

The Plan administrator has obtained certifications from the trustee as of and for the years ended June 30, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describe the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is the basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedules of (1) Schedule H, line 4i-Schedule of Assets (Held At End of Year), and (2) Schedule H, line 4j-Schedule of Reportable Transactions as of or for the year ended June 30, 2014 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Copies of the Summary Plan Description are available from the Plan Administrator.

The Plan is a non-contributory, defined benefit pension plan which covers substantially all hourly paid employees of Crescent Manufacturing Company (the Company) who benefit under the collective bargaining agreement between the Company and the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, Local No. 959 (the Union) and provides for pension and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective September 8, 2004, the Company amended the Plan to close participation to newly hired employees. See Note 10, Significant Plan activities.

(c) **Retirement**

2. *Early* - Participant who has attained at least sixty years of age and has completed at least ten years of credited service.

(d) **Pension Benefits**

NOTE 1 - DESCRIPTION OF THE PLAN:- (continued)

- (c) Monthly Benefit Rate – The monthly benefit rate is the rate set in the collective bargaining agreement as of the date of an employee's retirement or termination. This rate is subject to change.
- 2. *Early Retirement Pension Benefit* - A participant eligible to receive an early retirement benefit may elect:
 - (a) A deferred early retirement benefit commencing at normal retirement date equal to the accrued benefit at date of early retirement -or-
 - (b) An immediate early retirement benefit commencing at early retirement equal to the actuarial equivalent of the accrued benefit at the date of early retirement.
- 3. *Late* - Benefits are the same as for normal retirement.
- 4. *Vested Deferred* - Benefits are the same as for normal retirement.
- (e) **Normal Form of Pension Benefit** - The benefit formula provides for a life annuity benefit. However, each participant married at retirement who does not elect otherwise, will receive a joint annuity in a reduced amount providing for a 55% continuation of benefit to a surviving spouse. The benefit amount is also subject to adjustment as set forth in the Article 4 of the plan document.
- (f) **Vesting** - As more fully described in Note 10, all participants in the Plan became 100% vested in their accrued benefit effective September 8, 2004.
- (g) **Loss of Credit Service** - An employee will lose credit service and shall be considered a new employee if employment is terminated without entitlement to a retirement benefit under the Plan or if there is a break in service and the employee fails to satisfy at least one of the following conditions upon re-employment:-
 - 1. The number of consecutive years of breaks in service was less than the aggregate number of years of pre-break credited service without regard to whether participation in the Plan commenced, or
 - 2. The number of consecutive years of break in service as of June 30, 1997 was less than the aggregate number of years of pre-break credited service, and upon re-employment the number of consecutive years of break in service was less than five, or
 - 3. The break in service commenced on or after July 1, 1997 and the number of consecutive years of break in service was less than five, or
 - 4. The break in service commenced on or after July 1, 1997 due to maternity or paternity leave of absence, as defined by the Plan, and the number of breaks in service was less than either the aggregate number of years of pre-break credited service plus one year (without regard to commencement of participation in the Plan) or six years.

No loss of credited service shall occur while a participant maintains seniority under the collective bargaining agreement between the Company and the Union.

JUNE 30, 2014 AND 2013

NOTE 1 - DESCRIPTION OF THE PLAN:- (continued)

- (h) **Lump Sum Distribution of Small Benefits** - Should the actuarial equivalent lump sum value of a retirement benefit (including any survivor benefit payable under the Plan be less than \$1,000, the plan administrator may direct the payment of a lump sum distribution to the participant without consent of the participant (or eligible spouse in case of death) unless the participant (or eligible spouse) is age sixty-two or older.
- (i) **Rollover Distributions** - The Plan allows for rollover distributions of non-periodic payments to other qualified retirement plans.
- (j) **Administration Expenses** - Administrative expenses are paid by the Company or the Plan. Brokerage fees, transfer taxes, and other expenses incurred in connection with the investment of the Plan's assets will be added to the cost of such investments or deducted from the proceeds thereof, as the case may be.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:-

Accounting Basis - The financial statements of the Plan have been prepared on the modified cash basis of accounting, a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Plan transactions are accounted for on a modified cash basis to include net unrealized appreciation or depreciation in the fair value of investments.

Income - Interest and dividend income is recognized when received.

Contributions - Employer contributions are recognized as additions to pension benefits when received.

Valuation of Investments - As of June 30, 2014 and 2013, the assets of the Plan were held by Huntington National Bank, the custodian of the Plan. The investments held by Huntington National Bank are stated at fair value determined by current market prices. Securities traded on a national securities exchange are valued at the last reported sales price on the last day of the plan year.

Estimates and Assumptions - The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan's management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Benefit Payments - Benefit payments to participants are recorded in the statements of changes in net assets available for benefits when paid.

Termination of Plan - While it is the intention of the Company to continue the Plan indefinitely, future conditions may require the Plan to be amended, modified, suspended or terminated. In the event the Plan is discontinued and such discontinuance was to result in termination of the Plan, all assets in the Plan would be used to provide benefits to eligible participants, less expenses, subject to the provisions of ERISA.

Should the Plan terminate or partially terminate, the assets then comprising the trust fund, subject to provisions for expenses of administration upon liquidation, shall be allocated pursuant to Title IV of ERISA. Accrued benefits shall be fully vested and non-forfeitable to the extent then funded.

Certain benefits under the Plan are insured by the Pension Guarantee Corporation (PBGC) should the Plan terminate. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection may be subject to certain limitations as well as the PBGC's ability to fulfill its obligations to insure.

CRESCENT MANUFACTURING COMPANY
UAW RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 AND 2013

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:- (continued)

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form different than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed and the ability to insure by the PBGC.

NOTE 3 - INCOME TAX STATUS:-

The Internal Revenue Service has informed the Company by a letter dated September 29, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Company has filed for a determination letter regarding this amendment. The determination letter was still pending as of the date of the auditor's report. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is therefore not subject to income tax under present law. Once qualified, the Plan is required to operate in accordance with applicable Internal Revenue Code in order to maintain tax exempt status. The tax-exempt status of the Plan does not apply to the taxability of distributions to participants under the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

NOTE 4 - FUNDING POLICY:-

The Plan is financed solely by contributions made by the Company.

Contributions are determined annually by actuarial valuations of the Plan by an independent consulting actuary. The actuary determines the maximum amount available under law or regulation as a federal income tax deduction and the minimum amount necessary during any plan year to avoid an accumulated funding deficiency as defined by ERISA.

Generally, it is the Company's intent to contribute an amount to the Plan in excess of the required minimum funding contribution. The amount contributed by the Company (modified cash basis) to the Plan for the years ended June 30, 2014 and 2013 was \$397,500 and \$390,000, respectively. The Company is allowed under IRS and ERISA regulations to contribute amounts to the Plan to meet the current minimum funding standard up to the corporate filing deadline, including extensions. The minimum funding requirements of ERISA were met for each of the years.

NOTE 5 - FAIR VALUE MEASUREMENTS:-

The Plan has adopted the Accounting Standards Codification (ASC) No. 820, Fair Value Measurements. ASC No. 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC No. 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at June 30, 2014 and 2013.

The method described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:-

The actuarial present value of accumulated plan benefits as of July 1, 2013 and 2012 (Plan years ended June 30, 2014 and 2013) was calculated by the Plan's actuaries, Harbridge Consulting Group, as the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (a) Retirement or terminated employees or their beneficiaries;
- (b) Beneficiaries of employees who have died; and
- (c) Present employees or their beneficiaries.

Benefits under the Plan are based on employees' years of service. The accumulated plan benefits for active employees are based on years of service prior to the valuation date. All benefits payable for retirement, death, disability and termination of employment, are included to the extent they are deemed attributable to employees' service rendered up to the valuation date.

The more significant assumptions underlying the actuarial computations for the years ended June 30, 2014 and 2013 (valuation dates July 1, 2013 and 2012), respectively are as follows:

Actuarial cost method	Entry age normal	
Asset valuation	Current market value plus employer contribution receivables	
Assumed rate of return on investments	7.5% annually for 2014 and 2013	
Mortality basis	The RP-2000 Mortality Table, with separate tables for males and females	
Allowance for other expenses	None	
Retirement age	<u>Age</u>	<u>Annual rate per 100 participants</u>
	65	100%
	64	10%
	63	10%
	62	50%
Termination	Rates vary with attained age and sex	

The actuarial assumptions identified above are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 8 - RISKS AND UNCERTAINTIES:-

The Plan invests in various investment securities. Investment Securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The valuation of a defined benefit pension plan involves estimates and assumptions about the probability of events occurring far into the future. Examples include assumptions about future employment, mortality, and retirement. Below is a description of the actuarial assumptions used in the valuation.

Funding Target Liability

Valuation Date: July 1, 2013

Demographic Information: The demographic information was provided as of July 1, 2013 by Crescent Manufacturing Company. Although we did not audit the data, we did review the data for reasonableness.

Cost Method: As required by PPA, the Traditional Unit Credit Cost Method is used.

Actuarial Value of Assets: The actuarial value of assets is determined by averaging the fair market value of assets as of the valuation date and the adjusted fair market values as of the preceding two valuation dates. This methodology is consistent with that provided in IRS Notice 2009-22.

Expected Rate of Return on Assets: 7.50% (not to exceed the applicable third segment rate for the period.)

Interest Rates used to Determine the Minimum Required Contribution: The July 2013 segment rates were utilized as prescribed by IRC Section 430(h) and elected by Crescent Manufacturing Company. Please note that these rates reflect the provisions of Moving Ahead for Progress in the 21st Century (MAP-21), which was passed into law on July 6, 2012.

Segment	Interest Rate
Segment 1	4.94%
Segment 2	6.15%
Segment 3	6.76%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Effective Interest Rate: 6.28%

Rate of Compensation Increase: N/A.

Social Security Wage Base Increase: N/A

Mortality: The blended annuitant/non-annuitant RP-2000 Mortality Tables with projected mortality improvements using Scale AA; specifically as outlined in IRC Regulation 1.430(h)(3)-1 for 2013 valuations. The static mortality tables are projected from the base table for the year 2000 through 2013 with further projection to reflect the approximate expected duration of liabilities, namely 7 years for annuitants and 15 years for non-annuitants.

Retirement Incidence: Rates of retirement vary with age. Annual rates at ages 62 through 65 are:

Age	Percentage
62	50.00%
63	10.00%
64	10.00%
65	100.00%

SECTION XI**ACTUARIAL ASSUMPTIONS AND METHODS**

Turnover: Rates of turnover vary with attained age and sex. Annual rates at sample ages are:

Age	Males	Females
25	6.47%	12.49%
40	1.90%	2.60%
55	0.52%	0.70%

Administrative Expenses: Actual plan expenses, not including investment advisory fees, paid out of the trust during the previous plan year rounded to the nearest thousand.

Spouse Assumptions: 80% of participants not currently collecting benefits are assumed to be married, with male spouses assumed to be three years older and female spouses assumed to be three years younger than the participant.

Form of Benefit:

Death – Life Annuity to spouse at employee's normal or early retirement age, if eligible.

Termination – Life Annuity at the normal or early retirement date, if eligible.

Retirement – Life Annuity at the normal or early retirement date, if eligible.

Interest Rates used to Determine the Maximum Recommended Contribution: The July 2013 segment rates were utilized as prescribed and elected by Crescent Manufacturing Company.

Segment	Interest Rate
Segment 1	1.41%
Segment 2	4.07%
Segment 3	5.11%
