PROCTER & GAMBLE PUERTO RICO PENSION PLAN

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED JUNE 30, 2014 AND 2013

1. DESCRIPTION OF THE PLAN

The following description of The Procter & Gamble Puerto Rico Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit plan covering all eligible non-highly compensated employees of The Wella Company, a subsidiary of The Procter & Gamble Company (collectively, the “Company”) and former participants of the Gillette Company Retirement Plan (the “Gillette Plan”) who reside in Puerto Rico. Employees of Sebastian International, Inc., a wholly owned subsidiary of The Wella Company, are not eligible to participate in the Plan. Eligibility requirements and vesting provisions remain the same for employees of The Wella Company. Former participants of the Gillette Plan are 100% vested in the Plan. For Gillette Company employees, only employees who were eligible as of December 31, 2007, are eligible to participant in the Plan.

State Street Bank & Trust Company (the “Trustee”) serves as trustee of the Plan, and together with other investment managers, manages the Plan’s investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Procter & Gamble Master Retirement Trust (the “Master Trust”) was established pursuant to a trust agreement between the Company and the Trustee. The assets of the Master Trust are held by the Trustee.

Vesting — All participants are 100% vested.

Pension Benefits — The normal retirement date under the Plan is the first day of the month coinciding with the participant’s 65th birthday. The Plan permits early retirement at ages 55 through 64 with reduced retirement benefits, provided that five years of vesting service have been completed. The Plan also permits postponed retirement benefits for actively employed participants over normal retirement age, whereby these participants receive increased benefits attributable to their employment beyond normal retirement age. Participants receive their retirement benefit in the form of an annuity commencing on the participant’s retirement date. If the total retirement benefit is less than \$1,000, the participant will automatically receive a lump sum payment for such amount. If the total retirement benefit is equal to or more than \$1,000 but is less than or equal to \$5,000, a participant may elect a lump sum distribution. Special rules may apply if the participant was formerly a member of the Gillette Plan. Employees who were participants in the Plan prior to an amendment on December 28, 1975, have an option to receive a lump sum distribution related to the benefits accrued during the period of vested service under the old Plan. For employees of The Wella Company, the benefit payable is based on 1% of average compensation and the number of years of credited service. The average compensation is based on the thirty-six consecutive calendar months that produce the highest average of the ten years immediately preceding the date of termination or retirement, subject to IRS limits.

For a former participant of the Gillette Plan, benefits were frozen prior to their entry into the Plan. As such, the benefit payable is the amount payable as of December 31, 2007, under the Gillette Plan.

Death Benefits — A surviving beneficiary will receive the survivor portion, as defined in the Plan, payable on the date the participant would have been eligible to commence receiving benefits.

2. DESCRIPTION OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments underlying the Plan's interest in the Master Trust including interest bearing cash, common collective trust funds and corporate common stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition — The Plan's investment in the Master Trust at June 30, 2014 and 2013, is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year on the underlying investments of the Master Trust.

Management fees and operating expenses charged for investments in common collective trust funds were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses were reflected as a reduction of investment return for such investments.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Administrative Expenses — Fees charged by the Trustee for the management and investment of Plan assets, actuarial fees and routine administrative fees are paid by the Plan. All other expenses of the Plan are paid by the Company.

Subsequent Events — For the year ended June 30, 2014, subsequent events were evaluated through April 13, 2015, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Methodology — Valuation methodologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

Common Collective Trust Funds — Valued at the net asset value of units of a bank collective trust. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Transactions (purchases and sales) may occur daily. Redemption for common collective trusts is permitted daily with no other restrictions or notice periods and there are no unfunded commitments.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. The Master Trust's policy is to recognize transfers between levels at the actual date of the event or change in circumstances that caused the transfer.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, June 30, 2014 and 2013, there were no transfers between levels.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of June 30, 2014 and 2013:

Asset Group	Master Trust Assets			
	Fair Value Measurements at June 30, 2014

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended June 30, 2014 and 2013. No contributions were required in 2014 and 2013 and accordingly, the Company made no contributions to the Plan.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of June 30, 2013, the measurement date, is as follows:

	2013
Vested benefits:	
Participants and/or beneficiaries currently receiving benefits	\$ 7,291,317
Other participants	<u>3,920,016</u>
Total vested benefits	11,211,333
Nonvested benefits	<u>253,665</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 11,464,998</u>

Plan Name : Procter & Gamble Puerto Rico Pension Plan
 EIN : 66-0676831 ; PN : 003

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended June 30, 2013, are as follows:

	2013
Actuarial present value of accumulated plan benefits — beginning of period	\$ 9,904,385
Increase (decrease) attributable to:	
Interest due to the decrease in the discount period	645,958
Benefits paid	(669,280)
Actuarial losses	211,124
Assumption changes	<u>1,372,811</u>
Actuarial present value of accumulated plan benefits — end of period	<u>\$ 11,464,998</u>

The significant actuarial assumptions used in the June 30, 2013 and 2012, valuations were:

Mortality — The RP-2014 Healthy White Collar Mortality Tables with separate mortality rates for annuitants and non-annuitants with generational projection using Scale MP-2014 and the RP -2000 mortality table for males and females, with white collar adjustment, projected 20 years for annuitants and 28 years for non-annuitants using Scale AA for 2013 and 2012, respectively.

Retirement — Active participants are assumed to retire at the following rates, provided they are eligible at such age:

Age	
51–54	1 %
55–59	3
60–61	10
62	30
63–64	10
65–67	30
68	50
69	75
70	100

Interest Rate — 6.25% and 6.75% per annum for 2013 and 2012, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were to be terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits.

6. INTEREST IN MASTER TRUST

The Plan's investment assets are held in a trust account at the Trustee and consist of an undivided interest in an investment account of the Master Trust, a master trust established by the Company and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Procter & Gamble Master Retirement Plan and the Gillette Company Retirement Plan for Collectively-Bargained Employees for investment and administrative purposes. The Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income/(loss) of the investment assets is allocated by the Trustee

Plan Name : Procter & Gamble Puerto Rico Pension Plan
 EIN : 66-0676831 ; PN : 003

to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The net assets and investments of the Master Trust at June 30, 2014 and 2013, are summarized as follows:

	2014	2013

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Company is a party-in-interest, as defined by ERISA. However, the administrative exemption provided under ERISA allows the Company to provide administrative services to the Plan. There were no fees paid by the Plan to the Company for administrative services for the years ended June 30, 2014 and 2013.

The Plan's investment in the Master Trust, as of June 30, 2014 and 2013, is managed by the Trustee as defined by the Plan and, therefore these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to the Trustee for investment management services were \$7,510 and \$8,528 for the years ended June 30, 2014 and 2013, respectively.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 30, 2012, that the Plan was designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter from the IRS. The Plan is subject to routine audits by taxing jurisdictions at any time. The Company and the Plan administrator have concluded that the Plan, as designed and operated, complies with the applicable requirements of the IRC and the Plan remains tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of June 30, 2014 and 2013, and for the years then ended, included in the Plan's financial statements that was prepared by or derived from information prepared by State Street, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

** Represents the net appreciation in value of the Plan's investments (including securities bought and sold as well as held during the years ended June 30, 2014 and 2013).

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under, and the Plan documents.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Duracell Puerto Rico	May 1, 1997
Parker Pen	January 1, 1996
Thermoscan	November 13, 1995

(c) Early

As computed in (a)(i) and (a)(ii) based on years of service and average annual compensation as of the employee's early retirement date. The benefit for the first 25 years of service is reduced for early commencement by the lesser of (i) 1/4% for each month by which the commencement precedes normal retirement date, or (ii) 1½% multiplied by the difference between 100 and the sum of the employee's age and service. At normal retirement date the benefit is recomputed to reduce this early retirement benefit by 75% of the employee's Social Security benefit under the Social Security Act as in effect on the employee's early retirement date and to take into account the Plan's minimum annual benefit.

(d) Disability

As computed in (a)(i) and (a)(ii) based on average annual compensation and service as of date of disability, less 64% of the employee's Social Security disability benefit; no reduction is applied to this benefit for commencement prior to normal retirement date.

Special Termination Benefits

- (a) *Eligibility:* Participants who are terminated as part of a corporate restructuring or Change in Control.
- (b) *Credited Service:* Participants are granted additional benefit service based on their age and service.
- (c) *Early Retirement:* Participants who will be eligible for retirement within 5 years of the end of the salary continuation period are eligible for retirement benefits at their earliest retirement date.
- (d) *Vesting Rights:* Employees who have 4 or more years, but less than 5 years of vesting service at the end of the salary continuation period, are eligible for a vested rights pension under the plan. All participants affected by the plan freeze on December 31, 2007 became 100% vested in their benefits on that date.

Termination of Employment

Upon termination of employment after completion of 5 years of service, a vested benefit based upon the normal benefit formula, average annual compensation and service up to date of termination is payable commencing at normal retirement date. In these computations, the applicable minimum rule would apply and an estimated Social Security benefit would be taken into account. The applicable minimum is the projected normal retirement benefit (assuming participant worked until age 65), multiplied by a fraction, the numerator of which is the participant's credited service at termination date, and the denominator of which is the credited service the participant would have accrued had he continued employment and participation in the plan until age 65.

All participants affected by the plan freeze on December 31, 2007 became 100% vested in their benefits on that date.

Optional Reduced Pension

Provisions are made for employees to elect an option whereby the pension is reduced but is continued for the life of a designated beneficiary if such beneficiary survives the retired employee. In the event that an employee is married upon his date of retirement and does not elect another option, he will be considered to have elected a 50% joint and survivorship benefit with his spouse as beneficiary.

Death Before Retirement

In the event that any employee dies after 5 years of service and before his benefits commence, the surviving spouse or qualified domestic partner will be entitled to a benefit for life, payable at the date the employee would have been eligible to retire under the plan, or date of death if later. The benefit equals 50% of the employee's accrued benefit reduced for early commencement, reduced for joint and survivor option and under prior election further reduced for the joint and survivor option in excess of 50%.

Pensioner Benefit Increases

A 6% benefit increase was extended to pensioners in September 1986. This increase was subject to an annual minimum increase of \$300 and an annual maximum increase of \$960.

A 7% benefit increase was extended to pensioners in February 1990. This increase was subject to an annual minimum increase of \$360 and an annual maximum increase of \$1,200 (the \$360 increase was payable from February 1990 through July 1991; effective August 1991, increase amounts in excess of \$360 up to \$1,200 were payable from the Plan).

An 8% benefit increase was extended to pensioners in May 1993. This increase was subject to an annual minimum increase of \$360 and an annual maximum increase of \$1,200.

A 7% benefit increase was extended to pensioners in June 1998 (excluding former vested terminated participants). This increase was subject to an annual minimum increase of \$360 and an annual maximum increase of \$1,200.

Effective January 1, 2002, retirees whose pensions are limited by the Internal Revenue Code Section 415 defined benefit plan limitation had their benefits indexed up to reflect changes in benefit limits under EGTRRA.

Limitation on Compensation and Benefits

The Internal Revenue Code Section 401(a)(17) pension pay limitation and the Section 415 defined benefit plan maximum dollar limitation restrict the amount of pension payable from the Plan.
