NOTES TO FINANCIAL STATEMENTS

June 30, 2014

Note 1. Plan Description

The following description of the Retirement Plan for Employees of Hollins University (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan’s provisions.

General:

The Plan is a defined contribution plan covering eligible employees of Hollins University (the “University”), excluding student employees. Each employee who satisfies the eligibility requirements, and who is not a member of an excluded class of employees, may contribute to the Plan by enrolling as a participant. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute a portion of their compensation as a pre-tax deferral as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For participants who are age 18 or older and working at least 1,000 hours per year, the University contributed 2% of the employee’s eligible compensation for the year ended June 30, 2014. For participants who are age 18 or older, working at least 1,000 hours per year, and deferring at least 5% of their eligible compensation, the University contributed 8% for the year ended June 30, 2014. Contributions are subject to certain limitations.

Participant accounts:

Each participant’s account is credited with the participant’s contribution, the University’s contribution, an allocation of Plan earnings and/or losses thereon, and charged with an allocation of Plan expenses. Allocations are based on participant earnings and/or losses or account balances as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting:

Participants are immediately vested in their own contributions and the University’s contributions to their account plus actual earnings and/or losses thereon.

Payments of benefits:

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum distribution, partial payments, installment payments, or annuity payments equal to the value of the participant’s vested balance in his or her account.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by authoritative guidance, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if material. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of investments and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefit payments:

Benefit payments are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Administrative expenses:

Substantially all Plan fees and administrative expenses are paid by the Plan and are netted with investment income.

Reclassifications:

Certain amounts in the prior year statements have been reclassified to conform to the current year presentation.

Subsequent events:

Subsequent events have been evaluated through April 13, 2015, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs consist of unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

The fair values of mutual funds and the pooled separate account are based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

NOTES TO FINANCIAL STATEMENTS

June 30, 2014

Note 5. Investment Contract with Insurance Company

Participants may choose to invest in a TIAA Traditional Annuity account that is not fully benefit-responsive. This contract pays a guaranteed rate of interest plus additional amounts that are not guaranteed but may be established on a year-by-year basis. These additional amounts, when declared, remain in effect through the end of the “declaration year,” which begins each March 1. The guaranteed annual interest rate is generally 3.00%. Interest rates ranged from 3.50% to 3.75% for the year ended June 30, 2014, and were 3.25% for the year ended June 30, 2013.

Participants may also invest in a TIAA Traditional Annuity account that is fully benefit-responsive. This contract maintains the participants’ contributions plus a specified rate of interest and is guaranteed by TIAA’s claims paying ability. The guaranteed annual interest rate is generally 3.00%. The expected rate of return in the benefit-responsive Traditional Annuity account was 3.00% for the years ended June 30, 2014 and 2013. The actual average yield earned by the Plan for the fully benefit-responsive investment contract was 3.42% and 3.30% for the years ended June 30, 2014 and 2013, respectively.

When a participant’s account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. Accordingly, the contract is included in the financial statements at contract value which approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract.

Note 6. Related-Party Transactions

Certain administrative functions are performed by officers or employees of the University. These employees are also Plan participants. No such officer or employee receives compensation from the Plan.

Plan participants may choose to invest in funds held by TIAA-CREF and Fidelity Management Trust Company. Investments in funds issued and managed by TIAA-CREF and Fidelity Management Trust Company are considered related-party transactions. Fees paid to Fidelity Management Trust Company by the Plan for investment management and custodial services amounted to \$2,220 for the year ended June 30, 2014. Fees paid to TIAA-CREF by the Plan for the year ended June 30, 2014 were netted with investment income as discussed in Note 2.

Note 7. Plan Termination

Although they have not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

The Plan is an adoption of a prototype plan sponsored by TIAA-CREF. The Plan is designed in accordance with applicable sections of the *Internal Revenue Code (IRC)*. The Plan has been amended; however, the Plan Sponsor and Administrator believe that the Plan is currently being operated in compliance with the applicable requirements of the *IRC*.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The federal annual returns of the Plan are subject to examination by the Internal Revenue Service, generally for three years after they are filed.
