NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 AND 2013

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Directions for Youth & Families, Inc. Pension Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit plan covering all eligible employees who are employed by Directions for Youth & Families, Inc. (Company). On December 1, 2009, the Company froze the Plan and all individuals in the Plan stopped accruing additional benefits, and no new entrants were allowed into the Plan. The actuarial assumptions for the Plan have been adjusted based on this action. Due to the Plan freezing on December 1, 2009, there are no current service costs for the years ended June 30, 2014 and 2013.

Contributions - The minimum annual employer contribution is based on an actuarial calculation of the Plan's normal cost for the year, plus amortization of past service costs. The Plan meets the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding standards.

Vesting - A participant who had completed five years of continuous service by the date the Plan froze and who, for reasons other than retirement or death, ceases to be employed by the Company is eligible for a deferred vested retirement allowance.

Retirement Benefits - A participant can retire with full pension benefits at the normal retirement age of 65. Participants can retire as early as age 50 with a reduced pension benefit if the participant had 5 years of Company service.

Death and Disability Benefits - A participant's accrued benefit shall become fully vested upon death. Disability benefits are not provided. The Plan also includes surviving spouse benefits upon a participant's death.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by Plan management in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 8 for discussion of fair value measurements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded when paid.

Plan Expenses - All expenses incurred in administering the Plan are paid from plan assets, unless otherwise paid by the Company.

Subsequent Events - The Plan has evaluated subsequent events through April 14, 2015, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The fair value of investments that represent 5% or more of net assets available for benefits at June 30 is as follows:

	<u>2014</u>	<u>2013</u>
Vanguard Balanced Index Fund	\$ 1,538,719	\$ 1,371,960
Vanguard Developed Markets Index Fund	1,082,656	815,195
Vanguard Growth Index Fund	957,666	845,169
Vanguard Value Index Fund	875,626	804,029

NOTE 4 - CERTIFICATION

The custodian of the Plan's assets has certified that certain information is complete and accurate. Such information includes the composition, cost and current value of investments and accrued interest and dividends reported in the statements of net assets available for benefits and interest and dividend income and net change in fair value of investments reported in the statements of changes in net assets available for benefits.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is the present value of future benefit payments that are attributable, under the Plan's provisions, to employees' service rendered prior to December 1, 2009, the date the Plan was frozen. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation for the highest five consecutive years of service during the last 10 consecutive years of service prior to normal retirement age, or if different, the last date of active plan participation. Benefits payable under all circumstances (retirement, death and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Jacob, Haxton & Boord, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of July 1, 2014 and 2013 are as follows:

Actuarial Funding Method - The unit credit method was used for 2014 and 2013.

Discount Rate - The rate used to discount pension liabilities was 6.0% in 2014 and 2013.

Investment Return - The expected rate of return on plan assets was 6.0% for 2014 and 2013.

Mortality Basis - For active employees and employees retired on normal or early pensions, mortality was based on the IRS 2008+ Optional Small Plan Mortality Table.

Retirement Age - Retirement age is calculated using rates varying by age, resulting in an average retirement age of 65.

Rate of Compensation Increase - Assumed compensation increases for 2014 and 2013 were not applicable due to the Plan being frozen as of December 1, 2009.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 6 - FUNDING POLICY

Employer contributions are made upon the recommendations of the Plan's actuary based on annual valuations of the Plan. The Company has met the minimum funding requirements of ERISA.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 AND 2013

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

Under provisions of ERISA, if the Plan is terminated, the Company may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits through insurance provided by the Pension Benefit Guaranty Corporation (PBGC). Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of those benefits guaranteed by the PBGC at that time. Certain benefits may be fully or partially provided for by the then-existing assets of the Plan and/or the PBGC guaranty. However, because the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations, there is the possibility that some benefits may not be provided for. A description of the priority of participants' claims to the assets of the Plan upon termination is published in the Plan document and made available to participants.

NOTE 8 - FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

NOTE 8 - FAIR VALUE MEASUREMENTS (Continued)

Variable Annuities: Valued daily by the annuity provider according to the methods described in the annuity contract.

Fixed Income Fund: The trustee uses unit values to perform daily account valuations, based on the fund's guaranteed interest rates/periods. The fund's unit value is a product of the crediting interest rate and will increase incrementally to reflect interest that is earned daily. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014 and 2013:

NOTE 9 - TAX STATUS

The Plan obtained its latest determination letter on June 7, 2004, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 AND 2013

NOTE 9 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations prior to 2011.

NOTE 10 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. At June 30, 2014 and 2013, the Plan held certain investment interests in a fixed income fund, of which Nationwide Life Insurance Company is the trustee. Accordingly, the Plan's investments in the fixed income fund qualify as a party-in-interest transaction. Fees paid by the Plan to parties-in-interest, including the plan actuary and the trustees, totaled \$6,755 and \$7,263 for the years ended June 30, 2014 and 2013, respectively. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

NOTE 11 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V – Summary of Actuarial Assumptions/Methods

Directions for Youth and Families, Inc. Pension Plan
EIN: 31-4407642 PN: 001

Cost Methods

Funding

The actuarial cost method used for funding purposes is frequently described as the Unit Credit funding method. This method sets the accrued liability equal to the present value of accrued benefits, and sets the normal cost equal to the present value of the benefit accrued in the current year. This method is required by Internal Revenue Code.

Asset Method

Funding

Assets are valued at Market Value with receivable contributions adjusted as required by law.

Other Methods

The valuation date was set as of the beginning of the plan year.

Interest rates used are the three Segment Rates as published monthly by the Internal Revenue Service for the third full month prior to the valuation date. The first Segment Rate is applicable for benefit payments made during the first 5 years from the valuation date, the second Segment Rate is applicable for benefit payments during the next 15 years, and the third segment rate is applicable for all benefits payments after 20 years.

Funding relief was not elected for the 2009, 2010 nor 2011 plan years.

Minimum funding interest rates are limited by a corridor over the next few valuations in accordance with the following table per the current law:

Valuation Cycle Beginning	Percentage of the 25 year Average of IRS Interest Rates	
	Minimum	Maximum
2012	90%	110%
2013	85%	115%
2014	80%	120%
2015	75%	125%
2016	70%	130%
