We were engaged to audit the accompanying financial statements of The Case Western Reserve University Faculty and Key Administrative Employees' Retirement Plan A (the "Plan"), which comprise the statements of net assets available for benefits as of June 30, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Bases for Disclaimer of Opinion paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Bases for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company ("Vanguard"), as Custodian of the Plan, and by Teachers Insurance & Annuity Association-College Retirement Equities Fund ("TIAA-CREF"), as Custodian and recordkeeper and as agent for JPMorgan Chase Bank, N.A. ("JPMC"), a Custodian of certain Plan assets, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the Custodians as of June 30, 2014 and 2013, and for the years then ended, that the information provided to the plan administrator by the Custodians is complete and accurate.

In addition, because of inadequacies in the Plan's records for the periods prior to January 1, 2009, we were unable to perform auditing procedures with respect to individual participant account balances accumulated from inception of the Plan or to satisfy ourselves as to the basis on which participants' equity is stated as of June 30, 2014 and 2013, or the propriety of the distributions to participants who terminated and withdrew from the Plan during the years then ended.

Disclaimer of Opinion

Because of the significance of the matters described in the Bases for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Supplementary Information

The supplemental schedule of assets (held at end of year) as of June 30, 2014 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matters described in the Bases for Disclaimer of Opinion paragraphs, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE CASE WESTERN RESERVE UNIVERSITY FACULTY AND KEY
ADMINISTRATIVE EMPLOYEES' RETIREMENT PLAN A

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following is a summary of certain provisions of The Case Western Reserve University Faculty and Key Administrative Employees' Retirement Plan A (the "Plan"), a 403(b) defined contribution and tax-deferred annuity plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering certain faculty and key staff of Case Western Reserve University (the "University") who are immediately eligible on their date of hire to contribute a portion of their pay to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions – Participants may elect to contribute a portion of their compensation to the Plan on a pre-tax basis subject to certain limitations. Effective July 1, 2011, participants may also elect to contribute post-tax Roth contributions. The University provides a non-discretionary contribution to eligible employees at the rate of 8% of participants' annual compensation up to 50% of the Social Security wage base and 12% of the participants' annual compensation in excess of 50% of the Social Security wage base. Generally, employees must complete one year of consecutive service and attain age 21 before they are eligible to receive contributions from the University.

Participant Accounts – Teachers Insurance & Annuity Association-College Retirement Equities Fund ("TIAA-CREF") and Vanguard Fiduciary Trust Company ("Vanguard"), the Custodians of the Plan, maintain individual accounts for each participant. Each participant's account is credited with the participant's contribution, the University's contributions, and an allocation of Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Participants elect to allocate their aggregate contributions in the investment funds available to the Plan. Separate accounting for each of the funds is made pursuant to the participant's designated election. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans – The Plan allows loans from TIAA-CREF funds to participants of the Plan subject to certain regulatory restrictions. Participant loans from TIAA-CREF funds are administered by TIAA-CREF and are accounted for outside the Plan. These participant loans are not included in the Plan's assets. At June 30, 2014 and 2013, these outside loan balances of \$1,172,895 and \$939,568, respectively, are secured by participant account balances in the Plan at 110% of the loan amount. As these loans are repaid, the collateral balance is reduced accordingly.

Vesting – Participants are immediately vested in all contributions and earnings thereon.

Payment of Benefits – Upon attainment of age 59½ or termination of service due to death, disability, retirement, or separation, a participant is entitled to receive a distribution of his or her account balance in the form of a lump sum payment, installment payments, or an annuity contract. Participants are also permitted, at the discretion of the University, to receive a distribution from their accounts prior to termination of employment if they experience financial hardship.

Transfers From Other Qualified Plans – Transfers to and from other qualified plans are transfers between various University retirement plans.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The financial statements of the Plan do not include amounts related to certain investment contracts which became inactive prior to January 1, 2009. As contemplated in the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*, the University has made a good faith effort to determine the population of plan participants and has included amounts related to all known contracts in these financial statements. Accordingly, these financial statements are acceptable to the Department of Labor as part of the Plan's Form 5500 filing. However, because of the uncertainty involved in ascertaining all previous arrangements, it is possible that contracts may exist related to this Plan which have not been included in these financial statements and those amounts may be material. Accounting principles generally accepted in the United States of America require these amounts to be included in the financial statements.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. There is no material difference between contract value and fair value or a difference between the crediting interest rate and the average earnings yield at June 30, 2014 and 2013.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

ADMINISTRATIVE EMPLOYEES' RETIREMENT PLAN A

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Administrative expenses are paid by the University or the Plan, at the University's discretion.

No fees are charged to participants for Plan administrative and operating expenses. The University monitors the payments received by the Plan service providers to ensure that they are used properly for qualifying plan administrative and operating expenses. The University reserves the right to initiate charges to participants for Plan administrative and operating costs in the future.

To discourage short-term trading and help protect the long-term value of certain funds, a redemption fee is charged equal to 2% of money transferred out of certain funds fewer than 60 days following initial purchase date. Redemption fees imposed on these funds are paid by the affected participants. In addition, the plan may invest in certain mutual funds that charge purchase and redemption fees to offset the costs of buying and selling securities.

The University has entered into a contract with TIAA-CREF that returns to the Plan, as a Plan asset, revenue that exceeds the revenue required to operate the Plan. The first revenue credit was deposited during the plan year ending June 30, 2014. Revenue credits may be used either to (i) pay direct, reasonable, and necessary expenses of the Plan which the Plan is allowed to pay or (ii) provide benefits for Plan participants and beneficiaries in the form of revenue credits. The University is reviewing the revenue credit with legal counsel to ensure appropriate usage and to implement a process for ensuring that future revenue credits are disbursed during the plan year in which they are received.

Evaluation of Subsequent Events – The Plan has evaluated subsequent events and transactions for potential recognition and presentation through the date the financial statements were available to be issued, April 14, 2015.

Note 3. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodians have certified to the completeness and accuracy of all investments held by them on behalf of the Plan that are reflected on the statements of net assets available for benefits at June 30, 2014 and 2013, the supplemental schedule at June 30, 2014, the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended June 30, 2014 and 2013, and investment related information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted market prices in active markets for identical assets and liabilities

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuation methodology used for investments of the Plan measured at fair value as of June 30, 2014 and 2013:

- The pooled separate account is a fund invested in TIAA Real Estate, whose value is principally derived from the market value appraisals of the underlying real estate holdings or other real estate-related investments. The TIAA general account provides this real estate fund with a liquidity guarantee to ensure there are funds to meet participant redemption, transfer, or cash withdrawal requests. These are considered to be Level 2 inputs.
- Investments in the guaranteed insurance contracts comprise benefit responsive ("BR") and non-benefit responsive ("NBR") contracts. The BR is valued at contract value as determined by TIAA-CREF, which approximates fair value, and represents contributions plus interest at a specified rate, less participant withdrawals and fees. The BR is classified as a Level 3, as there are no quoted prices or other observable inputs for pricing. Accordingly, the Plan does not use separate quantitative information to value the contract. In determining the reasonableness of the value, the plan administrator evaluates a variety of factors including review of existing contracts, economic contributions, and overall credit ratings. NBR contracts are reported at estimated fair value as determined by TIAA-CREF based upon the individual purchases and sales of individual contracts and the correlation between the contracts' crediting rate with the highest quality debt security yields, adjusted for contract liquidity. These are considered to be Level 3 inputs.

THE CASE WESTERN RESERVE UNIVERSITY FACULTY AND KEY
ADMINISTRATIVE EMPLOYEES' RETIREMENT PLAN A

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements (Continued)

- Included in registered investment companies are TIAA-CREF funds which are based on market quotations or prices from independent pricing services and are considered to be Level 1 inputs. Also included are various CREF funds that are not available for sale on any securities exchange but whose underlying investments consist of equity securities and fixed income instruments. These are considered to be Level 2 inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2013 to 2014.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014 and 2013:

Note 5. Guaranteed Insurance Contracts

The Plan has guaranteed insurance contracts with TIAA-CREF, portions of which are considered to be benefit responsive. Contributions are maintained by TIAA-CREF in a general, unallocated account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because portions of the guaranteed insurance contracts are fully benefit responsive, contract value is the relevant measurement attribute for these portions of the net assets available for benefits attributable to the guaranteed insurance contracts. As described in Note 4, TIAA-CREF has determined that the contract value approximates fair value. Contract value, as reported to the Plan by TIAA-CREF, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in these funds at contract value. Portions not considered to be benefit responsive are reported at fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but is guaranteed to be between 1% and 3%. Such interest rates are reviewed on a monthly basis for resetting. In addition, the Board of Trustees of TIAA-CREF votes annually to determine if it will add a discretionary crediting interest rate to remain in effect for the remainder of the declaration year. Certain events limit the ability of the Plan to transact at contract value with the issuer. However, the plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 5. Guaranteed Insurance Contracts (Continued)

The guaranteed insurance contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields on benefit responsive contracts:	<u>2014</u>	<u>2013</u>
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 6. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all interests of the participants existing at such time would be distributed to the participants in accordance with the Plan document.

Note 7. Income Tax Status

Although the Internal Revenue Service has yet to establish a process through which the plan administrator could apply and request a determination as to the tax qualified status of the Plan, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

While the University has always allowed, and intended to allow, hardship withdrawals and participant loans, the Plan document has not clearly included language regarding these activities. The University's intention is to retroactively amend the Plan to explicitly allow hardship withdrawals at the discretion of the University and outside participant loans collateralized by the assets of the Plan under the Voluntary Correction Program. The University believes this will not affect the tax status of the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken or expected to be taken by the Plan for possible recognition and measurement in the financial statements based upon certain prescribed criteria. The plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of June 30, 2014, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. In general, the Plan's previous three tax years remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note 8. Party-in-Interest Transactions

Certain Plan assets are held in a pooled separate account, guaranteed insurance contracts, and registered investment companies of both TIAA-CREF and Vanguard. TIAA-CREF and Vanguard are Plan Custodians; therefore, these transactions qualify as party-in-interest transactions.
