KEISER CORPORATION 401(k) PROFIT SHARING PLAN

June 30, 2014

NOTE A – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of Keiser Corporation 401(k) Profit Sharing Plan (the Plan) are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the contract value, which approximates fair value of the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investments contracts.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by Massachusetts Mutual Life Insurance Company. See Note E for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. If a participant ceases to make loan repayments and the Plan administrator considers the participant note to be in default, the note balance is reduced, and a benefit payment is recorded based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Administration Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Management's Review of Subsequent Events
Management has evaluated subsequent events through April 15, 2015, the date the financial statements were available to be issued.

NOTE B – SUMMARY DESCRIPTION OF PLAN

The following description of the Keiser Corporation 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution 401(k) Profit Sharing Plan covering all full-time employees of Keiser Corporation and Team Keiser, Inc., who are age 18 or older and have completed 3 months of employment for elective salary deferrals and elective profit sharing contributions and elective matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions - Each year, participants may contribute a portion of pre-tax compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement Plans. The Company may make discretionary matching contributions. The matching contribution for the year ended June 30, 2014 was 100% of the salary deferral up to 6% of compensation, which was calculated and contributed quarterly. The Company may also make a discretionary profit sharing contribution. The Company's matching contribution for 2014 was $104,190. Contributions are subject to certain IRS limitations.

Investment options - Participants direct the investment of their account balances in to various investment options offered by the Plan. Participants can change their investments at any time. The Plan currently offers various mutual funds and a fixed interest account as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contributions, the Company matching contribution, as well as allocations of the Company's discretionary profit sharing contribution, if any and, Plan earnings (losses). Participant accountants are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company discretionary matching and profit sharing contributions is based on years of continuous service and is 100 percent vested after three years of credited service.

Notes receivable from participants - Participants may borrow from their fund accounts any amount up to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at local prevailing rates ranging from, 5.0% to 6.0% as determined periodically by the Plan administrators. Principal and interest is paid ratably through payroll deductions. Generally, the term of the loan may not exceed five years.

NOTE B – SUMMARY DESCRIPTION OF PLAN - *(Continued)*

Payment of benefits - On termination of service due to death, disability or retirement, a participant will receive a lump sum amount equal to the value of the participant's vested interest in their account. For termination of service for other reasons, a participant will receive the value of the vested interest in their account as a lump sum distribution. Assets allocated to participants who have terminated but have not withdrawn from the Plan as of June 30, 2014 total $254,118

Forfeited accounts - At June 30, 2014, forfeited non-vested accounts totaled $675. These accounts will be applied to reduce administrative expenses of the Plan and any remaining to supplement future employer contributions. In 2014, employer contributions were not reduced from forfeited non-vested accounts.

NOTE C – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Massachusetts Mutual Life Insurance Company as of June 30, 2014 and 2013.

NOTE D – INVESTMENTS

Investments that represent 5 percent or more of the Plan's net assets at June 30, 2014 and 2013 are as follows:

Investments, at fair value	2014	UNAUDITED 2013
Mutual Funds:		
AF Growth Fund America	$ 1,596,433	$ 1,276,045
AF American Mutual	802,222	636,457
AF INV Comp America	450,052	385,552

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value by $585,986.

NOTE E – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed interest account: Valued at contract value, (principal investment plus interest earned), which approximates fair value.

NOTE E – FAIR VALUE MEASUREMENTS - *(Continued)*

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2014 and 2013:

NOTE F – FIXED INTEREST INVESTMENT CONTRACT WITH MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY

The Plan entered into a fully benefit-responsive fixed interest investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed interest investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the fixed interest investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed interest investment contract. The fixed interest investment contract is presented on the face of the statements of net assets available for benefits at contract value, which approximates fair value. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE F – FIXED INTEREST INVESTMENT CONTRACT WITH MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY - *(Continued)*

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2014, was $771,978. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The fixed interest investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	2014
Based on actual earnings	3%
Based on interest rate credited to participants	3%

NOTE G – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to MassMutual of $3,170 for the year ended June 30, 2014, which were not covered by revenue sharing.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

NOTE I – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2014 and 2013 there are no significant uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by federal taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
