**CALSCIENCE ENGINEERING &
LABORATORIES, INC. 401(K) PLAN**
NOTES TO FINANCIAL STATEMENTS
July 31, 2014 and December 31, 2013

1. PLAN DESCRIPTION

The following description of the Calscience Engineering & Laboratories, Inc. 401(K) Plan (the Plan) only provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - Calscience Engineering & Laboratories, Inc. (the Company) established the Plan, a defined contribution plan, effective January 1, 1997, to provide savings benefits for all eligible employees.

An employee is eligible for participation once he or she has attained the minimum age of 21 and there is no minimum service requirement.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Employer: The matching contributions equal 40% on the first 5% of the participant's compensation, which is deferred as an elective deferral. Matching contributions shall be determined each payroll period.

Employee: Each year, participants may contribute an amount up to 80% of their compensation for the contribution period, subject to annual dollar limits set by the Internal Revenue Service.

Participant Accounts - Each Participant account is credited with an allocation of the Company's contributions, Plan earnings, and forfeitures of terminated participant non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant vested account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. With respect to employer contributions, a participant becomes 20% vested after two years of service plus an additional 20% for each additional year of qualified service up to a maximum of 100%.

Forfeitures - The unvested portion of a terminated participant's employer account will be forfeited and used to reduce future Company contributions or pay plan expenses. The Plan utilized \$2,944 of forfeitures for the period from January 1, 2014 to July 31, 2014 to reduce Company contributions.

**CALSCIENCE ENGINEERING &
LABORATORIES, INC. 401(K) PLAN**
NOTES TO FINANCIAL STATEMENTS – (Continued)
July 31, 2014 and December 31, 2013

1. DESCRIPTION OF PLAN – (Continued)

Notes Receivable from Participants - Under the terms of the Plan, participants may borrow from their accounts a minimum of \$1,000 up to 50% of their vested account balance with a maximum loan of \$50,000. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with market rates for similar loans.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments as permitted. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. As described, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participant would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Income Recognition - Interest and dividend income are recorded as earned on the accrual basis.

Investment Valuation - The Plan's investments in common/collective trusts and mutual funds are stated at fair value based on quoted market prices. Participant loans are valued at their outstanding balances, which approximate fair value.

Administrative Expenses - All expenses of the Plan are paid by the Company except for investment transaction fees.

Payment of Benefits - Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS – (Continued)

July 31, 2014 and December 31, 2013

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Risks and Uncertainties - The Plan provides for investments in various instruments that, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for plan benefits.

Subsequent Events - The Company evaluated subsequent events through April 27, 2015, the date these financial statements were available to be issued.

3. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions, amend the Plan at any time, and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

On August 1, 2014, the Company merged with Eurofins Scientific, Inc. As part of the merger, the Calscience Engineering & Laboratories, Inc. 401(k) plan merged into the Eurofins Scientific, Inc. 401(k) plan. The amount transferred on August 1, 2014 was \$5,718,997.

4. INVESTMENTS

Individual investments that represent five percent or more of the Plan's net assets at July 31, 2014 and December 31, 2013 are as follows:

	2014	2013
Invesco Stable Asset	\$ -	\$ 1,267,908

4. INVESTMENTS – (Continued)

During 2014, the Plan's investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated in value by \$135,942 as follows:

	<u>2014</u>
Mutual funds	\$ 62,129
Common/collective trust	<u>73,813</u>
	<u>\$ 135,942</u>

5. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administration and tax counsel believe that the Plan is currently designed and being operated in compliance with the qualification requirements of the IRC, and was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by Internal Revenue Service or Department of Labor. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820 (formerly FAS 157), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements) as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability of access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

LABORATORIES, INC. 401(K) PLAN**
NOTES TO FINANCIAL STATEMENTS – (Continued)
July 31, 2014 and December 31, 2013

7. FAIR VALUE MEASUREMENTS – (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds— Valued at the net asset value (NAV) of shares held by the Plan at year end. The applied inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Common/Collective Trust - Valued at NAV of units of a common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. A portion of the common/collective trust is a stable value trust which is a fully benefit-responsive investment contract. The stable value trust is reported at fair value.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of July 31, 2014 and December 31, 2013 :

Assets at Fair Value as of July 31, 2014				
	Level 1	Level 2	Level 3	Total

9. PARTY IN INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Plan investments are managed by State Street Bank & Trust, the custodian of the Plan and they were paid contract administration fees to perform these services. In addition, the Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.
