Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of United Ohio Insurance Company Pension Plan (Plan), which comprise the statements of net assets available for benefits as of July 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes transactions related to these assets. The plan administrator has obtained certifications from the custodian as of and for the years ended July 31, 2014 and 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules listed in the table of contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Notes to Financial Statements

July 31, 2014 and 2013

Note 1: Description of the Plan

The following description of the United Ohio Insurance Company Pension Plan (the Plan), provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the Plan document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees of the United Ohio Insurance Company (the Company) who began their employment prior to 2007 and provides for retirement benefits. The Company is wholly owned by Ohio Mutual Insurance Company (Ohio Mutual). The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Principal Life Insurance Company (Principal) is the custodian of the Plan.

Until August 1, 2007, employees were eligible to participate in the Plan after attaining the age of 21 and completion of 1,000 hours of service during the first 12 months of continuous service. Effective August 1, 2007, generally no new participants are eligible to enter the Plan. Participants aged 40 and older at August 1, 2007 continue to accrue benefits while those participants under age 40 no longer accrue benefits. Benefits are generally payable upon the participant's retirement, death or disability, or termination of employment.

Contributions and Funding

The Company contributes such amounts as necessary to provide assets sufficient to meet the actuarially determined benefits to be paid to Plan members. The Company's present intention is to make contributions in amounts sufficient to annually fund the Plan's current service cost. The Plan has met the minimum funding requirements required by the federal government.

Pension Benefits

Benefits under the Plan are based on employees' compensation for the highest five pay years out of the last ten years of employment. Normal retirement age for Plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at age 55, provided that they have at least 10 years of service with the Company. Accrued benefits are payable as a monthly annuity over the participant's lifetime or several options as joint and survivor annuities.

Death Benefits

The spouse of a participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Notes to Financial Statements

July 31, 2014 and 2013

Vesting

Upon completion of three years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. As the Plan was frozen with respect to participants who had not attained age 40 prior to August 1, 2007, all remaining participants are 100% vested.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- b. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- c. Vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is based on the market value of its underlying investments. Unrealized gains and losses on pooled separate accounts represent the difference between fair value and the cost of the pooled separate accounts and are reflected in the statement of changes in net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

All administrative costs of the Plan are paid by the Company except for custodian fees, which are deducted directly from Plan assets by the custodian.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Present employees or their beneficiaries

United Ohio Insurance Company Pension Plan

Notes to Financial Statements

July 31, 2014 and 2013

Benefits under the Plan for retired or terminated employees or their beneficiaries are based on employees' compensation for the highest five pay years out of the last 10 years of employment. The accumulated plan benefits for active employees are based on their average compensation during the three years preceding the valuation date. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Plan Tax Status

The Plan obtained its latest determination letter on May 7, 2012, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2010.

Note 3: Investments

The Plan's investments are held by a life insurance company. The fair value of the Plan's investments at the end of the year is as follows:

	2014	2013
Pooled separate accounts	<u>\$ 16,090,296</u>	<u>\$ 14,184,593</u>

The Plan's investments (including investments bought, sold and held during the year) appreciated in fair value as follows:

	2014	2013
Pooled separate accounts	<u>\$ 1,526,323</u>	<u>\$ 1,595,026</u>

United Ohio Insurance Company Pension Plan

Notes to Financial Statements

July 31, 2014 and 2013

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	2014	2013
Principal Core Plus Bond I	\$ 2,931,823	\$ 2,420,057
Principal Bond and Mortgage Aggregate Bond Portfolio	2,602,366	2,288,919

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Notes to Financial Statements

July 31, 2014 and 2013

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended July 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Pooled separate accounts are classified in Level 2 of the valuation hierarchy. The value of pooled separate accounts is determined using net asset value (NAV) as a practical expedient. The NAV is provided by the custodian. The NAV is based on the market value of its underlying investments. Pooled separate accounts are classified within Level 2 of the valuation hierarchy because the NAV is not a publicly quoted price in an active market; however, the unit price is based on underlying investments which are traded in an active market.

Note 5: Accumulated Plan Benefits

An actuary from Principal Financial Group determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the end of each plan year was as follows:

	2014	2013
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 5,119,011	\$ 4,614,235
Other participants	<u>7,924,143</u>	<u>7,590,270</u>
	13,043,154	12,204,505
Nonvested benefits	<u>-</u>	<u>2,967</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 13,043,154</u></u>	<u><u>\$ 12,207,472</u></u>

United Ohio Insurance Company Pension Plan

Notes to Financial Statements

July 31, 2014 and 2013

Changes in the actuarial present value of accumulated plan benefits were as follows:

	<u>2014</u>	<u>2013</u>
Actuarial present value of accumulated plan benefits, beginning of year	\$ 12,207,472	\$ 11,186,431
Increase (decrease) during the year attributable to		
Increase for interest due to the decrease in the discount period	836,013	768,226
Benefits accumulated and plan experience	537,614	683,637
Benefits paid	<u>(537,945)</u>	<u>(430,822)</u>
Net increase	<u>835,682</u>	<u>1,021,041</u>
Actuarial present value of accumulated plan benefits, end of year	<u><u>\$ 13,043,154</u></u>	<u><u>\$ 12,207,472</u></u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: Range from 4.99% to 6.99% and 4.94% to 6.76% for 2014 and 2013, respectively, compounded annually with no explicit provision made for expenses
- Mortality basis: IRS Prescribed Mortality-Optional Combined Table for Small Plans, male and female
- Upcoming year salary increase: 4.5% for 2014 and 2013 at each age
- Withdrawal: Sarason T-7 withdrawal table
- Retirement: Age 65 or Valuation Date, if later
- Asset valuation: Market

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Financial Statements

July 31, 2014 and 2013

Note 6: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan investments are units of pooled separate accounts managed by Principal Life Insurance Company, which is the custodian as defined by the Plan agreement. Therefore, these transactions qualify as party-in-interest transactions.

The Plan paid \$61,875 and \$53,388 of custodian fees during Plan year 2014 and 2013, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
UNITED OHIO INSURANCE COMPANY PENSION PLAN
EIN 34-1008736 Plan No. 001

Assumptions Prescribed by Law	
Mortality	<p>During Benefit Payment Period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.</p> <p>Before Benefit Payment Period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.</p>
Assumptions Selected by Actuary	
Asset Return	7.00% for the current plan year.
Expected Expense	\$55,000 included in Target Normal Cost.
Retirement Age	Normal Retirement Age as defined in Plan Provisions .
Upcoming Year Salary Increase	The preceding year's salary is increased by 4.50% at each age. Note: not used for Plan Accounting calculations.
Disability	None.
Marriage	80% married; husbands are 3 years older than wives.
Withdrawal	Sarason T-7 withdrawal table.
Wage Base Increase	2.25% per year.
Inflation	2.25% increase per year.
Compensation Limit Increase	2.25% increase per year used in the calculation of the IRC 404 Maximum Deduction cushion. See Calculated Deduction in Rules and Regulations.
Form of Benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.
Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Methods Selected by Plan Sponsor	
Asset Method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Segment Rates	24 month average with no weighting to prior law basis. Use rates where April is the last month included in the average.
PBGC Premium Basis	Premiums are calculated using the funding segment rates used for the plan year without the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). This method was elected with the 08/01/2009 plan year and must continue for five years before a change can be made.
Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	<p>A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by:</p> <ul style="list-style-type: none"> • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE
Vested Benefits	<p>A benefit is included in vested benefits when the participant will meet age and service eligibility requirements at the valuation date. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, and pre-retirement death benefits in excess of the Survivor Annuity Death Benefit except as noted in the Plan Provisions.</p>

UNITED OHIO INSURANCE COMPANY PENSION PLAN
EIN 34-1008736 Plan No. 001

Assumptions and Methods Elected by Actuary Long-Term Contribution Level and Plan Accounting (ASC 960)	
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular Funding Target and Target Normal Cost.	
Interest Rate Used to Value Liabilities	7.00%
Benefit Liability	Long-Term Contribution Level reflects: <ul style="list-style-type: none"> • Service and compensation projected to the age benefits are assumed to be paid. • Compensation and benefit limits projected at 2.25% per year.
Long-Term Contribution Level	Allocates the difference between the Benefit Liability and the Market Value of Assets as a level percentage of payroll per year.
