A. Description of Plan

The following description of the Waterman Village 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering employees of the Company who have completed at least three months of service and have attained age 18. It is subject to the provisions of the Employee Retirement Income Security Act 1974 (ERISA).

Plan Administration – Waterman Village administers the Waterman Village 401(k) Retirement Plan – a single-employer defined contribution plan that provides retirement benefits for participating employees.

Plan membership. At September 30, 2014, retirement plan membership consisted of the following:

Inactive plan members entitled to but not yet receiving benefits	$ 136,407
Active plan members	1,239,235
	$1,375,642

Contributions - Participants may make voluntary salary deferral contributions up to $17,500 of their cumulative earnings from the employer for the time they actively participate in the plan. Participants may also contribute rollover amounts from other qualified plans.

The Plan provides that the Employer may make matching contributions equal to a discretionary percentage of your salary reductions to be determined by the Employer.

Participant Account - Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contribution and allocations of the employer's contribution. Plan earnings and losses are credited to an account maintained for each participant. Earnings and losses are generally credited daily.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. The following schedule applies to vesting in employer contributions: 2 years, 20%; 3 years, 40%; 4 years, 66%; 5 or more years 100%.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum of $50,000 and must secure each loan with an irrevocable pledge and assignment of 50% of the non-forfeitable amount of the participant's account balance under the Plan. The Plan Administrator will fix the term for repayment not to exceed five years. A longer repayment period may be granted by the Trustees if the loan is used to purchase or repair a primary residence. The interest rate is fixed and shall be comparable to the prevailing rate charged in the Plan's geographic locale for similar commercial loans. The loan is considered to be a direct investment from the account of a Participant. Loan payments are due each pay period through payroll deduction with all payments of principal and interest credited only to the borrowing Participant's account.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Matching contribution forfeitures are allocated among participants in

the ratio that each participant's compensation for the plan year bears to the total compensation of all qualifying participants for such plan year.

Payment of Benefits - Upon retirement (with normal retirement age of 65), a participant may elect to receive either a single sum payment equal to the value of his or her account or installments. On termination of service, a participant may elect to receive a single sum payment equal to the vested value of his or her account or rollover the account. If the account's value, excluding any rollovers, exceeds $1,000, the participant may elect to continue in the plan with the existing balance.

B. Summary of Account Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investments consist of pooled separate accounts which invest in mutual funds and fixed maturity securities. The Plan is considered to be fully benefit responsive and therefore is reported at contract value which approximates fair value. For additional information regarding the valuation of these investments, see Note D below.

Payment of Benefits - Benefits are recorded when paid.

C. Investments

The following presents investments that represent five percent or more of the Plan's net assets:

	2014	**2013**
Franklin Income Series Ret Opt	86,976	. . .
Vanguard LifeStrategy Moderate Growth Ret Opt	639,900	. . .
Vanguard LifeStrategy Growth Ret Opt	111,079	. . .
AEGON Balanced Ret Opt	. . .	72,258
AEGON Cash Management Ret Opt	. . .	58,299

Transamerica Asset Alloc-Mod Grwth Ret Opt	. . .	294,120
Transamerica Asset Alloc-Mod Port Ret Opt	. . .	285,801

Participants may change their investment options at will.

D. Fair Value Measurements

Financial Accounting Standards Board's Accounting Standards Codification (FASB ASC) Topic 820, Fair Value Measurements and Disclosures (FASB ASC 820) defines fair value, requires expanded disclosures about fair value measurements, and establishes a three-level hierarchy for fair value measurements based on the observable inputs to the valuation of an asset or liability at the measurement date. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 prioritizes the inputs to the valuation techniques used to measure fair value by giving the highest priority to unadjusted quoted prices in active markets for identical assets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The levels of fair value hierarchy applied to the Plan's investments at September 30, 2014 are as follows:

Investment	Valuation Method	Hierarchy Level	Value
Pooled separate accounts investing in mutual funds	Unit value	1	1,145,364
Pooled separate accounts Investing in fixed maturity securities	Unit value	2	133,757

The September 30, 2014 Statement of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended September 30, 2014 and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Transamerica in accordance with 29 CFR 2520.103-8 of the department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

F. Tax Status

The Internal Revenue Service has determined and informed the Organization that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

G. Uncertain Tax Positions

The Plan follows the reporting and disclosure guidance for uncertainty in income taxes as defined in FASB ASC 740. The financial statement effects of a tax position taken or expected to be taken are recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. As of September 30, 2014, the Plan had no uncertain tax positions that qualify for recognition or disclosure in the financial statements. Generally, the IRS may review the returns for the past three years.

H. Terminated Benefits

Net assets available for benefits at September 30, 2014 includes $136,407 allocated to accounts of persons who as of or prior to that date were no longer employed by the Organization.

I. Risks and Uncertainties

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Reconciliation to Form 5500
