NEW VISION CO-OP 401(K) SALARY SAVINGS AND PROFIT SHARING PLAN

Notes to Financial Statements

August 31, 2014 and 2013

A. Description of the Plan

The following description of the New Vision Co-op ("The Company") 401(k) Salary Savings and Profit Sharing Plan ("The Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering certain employees of the Company who have completed six months of service. On-call employees and seasonal employees are not eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Each year, participants may contribute up to 15% of pretax compensation, as defined in the Plan, beginning six months after their hire date. The aggregate sums of contributions from compensation are subject to an annual limit. The Company will contribute a matching contribution equal to 100% of the salary reduction deferral elected on the first 3% of compensation. Each year, the Company may make a discretionary profit sharing contribution to active participants who have at least 500 hours of service.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on the total of an Employee's countable Periods of Service without regard to Hours of Service. A participant is 100% vested after 5 years of credited service. Forfeitures of non-vested benefits are used to reduce the Company's matching contribution.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The value of each account is based on the market value of the securities in the account. Participant loans receivable are valued at cost. Net earnings on investments include realized and unrealized gains and losses and interest and dividends recorded on an accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Plan has adopted FASB ASC 740-10 regarding Uncertain Tax Positions, which requires evaluation of the impact of uncertain tax positions taken or expected to be taken in a tax return. In some instances, the Plan may be required to recognize a liability related to those tax positions. At August 31, 2014 and 2013, the Plan had no uncertain tax positions requiring recognition in the financial statements.

The Plan is no longer subject to federal and state income tax examinations by tax authorities for years before 2011.

C. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits:

		Fair Value Measurements Using		
	Fair Value	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
August 31, 2014				
Pooled Separate Accounts	\$ 7,860,802	--	7,860,802	--
Investment Contract with Insurance Company	513,930	--	--	513,930
Total	<u>\$ 8,374,732</u>	<u>--</u>	<u>7,860,802</u>	<u>513,930</u>
August 31, 2013				
Pooled Separate Accounts	\$ 6,081,850	--	6,081,850	--
Investment Contract with Insurance Company	519,074	--	--	519,074
Total	<u>\$ 6,600,924</u>	<u>--</u>	<u>6,081,850</u>	<u>519,074</u>

FASB Accounting Standards Codification 820-10, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair values of pooled separate accounts that are based on the net asset values of the units held by the Plan at year-end.

Level 3 Fair Value Measurements

Guaranteed investment contracts with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements:

	Investment Contract
August 31, 2014	
Beginning Balance	\$ 519,074
Issuance and Settlements (Net)	(5,144)
Ending Balance	<u>\$ 513,930</u>
August 31, 2013	
Beginning Balance	\$ 506,551
Issuance and Settlements (Net)	12,523
Ending Balance	<u>\$ 519,074</u>

Net Asset Value (NAV) per Share

The plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of August 31, 2014 and 2013. The following tables for August 31, 2014 and 2013 set forth a summary of the Trust's investments with a reported NAV.

*The fair values of the investments have been estimated using the net asset value of the investment.

The pooled separate accounts are funds designed to meet the needs of a plan participant that wants an investment option suited to the participant's particular investment time horizon and risk tolerance. The funds generally invest in the other open-ended mutual funds, insurance company separate accounts, and collective trust funds that are considered appropriate based on the remaining time horizon of the particular Fund and expected risk tolerance of those investors associated with that time horizon.
