Prototype 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Azteca Enterprises, Inc. and Subsidiary Companies Prototype 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of February 28, 2012 and December 31, 2011, and the related statement of changes in net assets available for benefits for the short year ended February 28, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan sponsor instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan sponsor that the custodian holds the Plan's investment assets and executes investment transactions. The plan sponsor has obtained a certification from the custodian as of February 28, 2012 and December 31, 2011, and for the short year ended February 28, 2012, that the information provided to the plan sponsor by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

February 28, 2012 and December 31, 2011

1. DESCRIPTION OF PLAN

The following description of the Azteca Enterprises, Inc. and Affiliated Subsidiary Companies (the "Company") Prototype 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. As of February 28, 2012, the Plan's assets were merged into another defined contribution plan, TEXO Members 401(k) Plan. The transfer of the Plan's assets resulted in no tax gain or loss to either of the plans. All notes to the financial statements related to the Plan are applicable prior to the merger date.

General

The Plan is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance investment contract as investment options for participants. The Company's contributions are discretionary and determined by the board of directors. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after two years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25 percent, which is commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or any other reasons, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as a direct rollover to an individual retirement account, or to another employer's qualified plan.

Forfeited Accounts

At February 28, 2012 and December 31, 2011, forfeited non-vested accounts totaled \$0 and \$3,436, respectively. These accounts may be used to pay for administrative expenses of the Plan or to reduce future employer contributions. For the short year ended February 28, 2012, administrative expenses and employer contributions were reduced by \$0, from forfeited non vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income on the investment contracts account is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in plan expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

Management has evaluated subsequent events through March 31, 2015, the date the financial statements were available to be issued, and determined there were no other items to be disclosed.

3. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The custodian has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate at February 28, 2012 and December 31, 2011, and for the short year ended February 28, 2012.

	<u>February 28, 2012</u>	<u>December 31, 2011</u>
Pooled separate accounts	\$ -	\$ 1,331,593
Insurance contract	-	551,237
Total investments	<u>\$ -</u>	<u>\$ 1,882,830</u>
Net appreciation in fair value of pooled separate accounts	<u>\$ 84,482</u>	

4. INVESTMENTS

The following investments were held by the Plan as of February 28, 2012 and December 31, 2011. Investments representing 5 percent or more of the Plan's net assets have been separately stated:

	<u>February 28, 2012</u>	<u>December 31, 2011</u>
ING Fixed Account	\$ -	\$ 551,237
ING Money Market	-	180,075
Fidelity VIP Growth	-	136,952
ING Solution 2025 Portforlio	-	135,250
Other Investments	-	879,316
Total investments	<u>\$ -</u>	<u>\$ 1,882,830</u>

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 28, 2012 (short year), and December 31, 2011.

Pooled separate accounts: Valued at their accumulation unit value ("AUV"). The separate account is valued daily as the number of accumulation units held multiplied by the AUV. AUV is determined based on the combination of the accounts' net asset value ("NAV") and the separate account charges. NAV is calculated each business day as of the close of regular trading on the New York Stock Exchange, generally 4 p.m. Eastern Time. The separate account charge is communicated to plan management in the contract and applicable notice of change.

Insurance contract: Valued daily based on the credited rate. Market value adjustments or surrender charges are based on formulas and schedules disclosed in the contract.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of February 28, 2012 (short year) and December 31, 2011:

Assets at Fair Value as of February 28, 2012				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ -	\$ -	\$ -
Insurance contract	-	-	-	-
Total investments at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
Assets at Fair Value as of December 31, 2011				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ 1,331,593	\$ -	\$ -	\$ 1,331,593
Insurance contract	-	551,237	-	551,237
Total investments at fair value	<u>\$ 1,331,593</u>	<u>\$ 551,237</u>	<u>\$ -</u>	<u>\$ 1,882,830</u>

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan participates in a benefit responsive investment contract, ING Fixed Account, with ING Life Insurance and Annuity Company (“ING”). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at the net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at February 28, 2012, and December 31, 2011 was \$0 and \$551,237, respectively. The crediting interest rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum credit interest rate, 3 percent, and prevailing market conditions. Such interest rates are reviewed on a quarterly basis for resetting.

The plan sponsor has not identified any events that limit the ability of the Plan to transact at contract value with the guaranteed investment contract issuer. The contract does not define any circumstances which would permit the guaranteed investment contract issuer to terminate the contract at a value different from contract value.

	<u>February 28, 2012</u>	<u>December 31, 2011</u>
Average yields:		
Based on actual earnings	0.00%	3.00%
Based on interest rate credited to participants	0.00%	3.00%

7. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

ING Life Insurance and Annuity Company, who is the custodian of the Plan, is responsible for the custody and management of the Plan's investments, and therefore, these transactions qualify as party in interest transactions which are exempt from prohibited transaction rules. Fees paid by the Plan for the custodial services and investment management services are included in net appreciation in fair value of pooled separate accounts in the accompanying financial statements.

Plan transactions and records are administered by Daily Access Corporation. Daily Access Corporation is the recordkeeper as defined by the Plan; therefore, these transactions qualify as party in interest transactions which are exempt from the prohibited transaction rules. Fees paid by the Plan for these services are included in administrative expenses in the accompanying financial statements. As stated previously, the Company absorbs a significant portion of the recordkeeping costs of the Plan.

8. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At February 28, 2012, and December 31, 2011, the value of the accounts held by participants who have separated from employment with the Company and have decided to continue to invest in the Plan totals \$0 and \$241,915, respectively.

For the short year ended February 28, 2012, there were no distributions requested but not paid to participants who have elected to withdraw from the Plan.

9. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

11. EXCESS CONTRIBUTIONS PAYABLE

At February 28, 2012, and December 31, 2011, a payable of \$0 and \$10,579, respectively, was recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

12. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions. See note 1 regarding plan merger.
