Elite Technical Services, Inc. 401(k) Profit Sharing Plan & Trust

Notes to Financial Statements

December 31, 2010

1. Description of Plan

The following description of the Elite Technical Services Inc. (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

a. *General.* The Plan is a defined contribution plan covering all full-time employees who are twenty-one or older. Employees will be eligible to participate immediately.

b. *Contributions.* Each year, participants may contribute up to 100 percent of pre-tax annual compensation, limited to the annual dollar limits imposed by the Internal Revenue Service. For the year ended December 31, 2010 that limit was $16,500. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. This amount was limited to $5,500 in the year ended December 31, 2010 by the Internal Revenue Service. The Company did not make any matching contributions during the year ended December 31, 2010.

c. *Participant Accounts.* Each participant's account is credited with the participant's contribution and plan earnings.

d. *Vesting and Participant Loans.* Participants are vested immediately in their contributions plus actual earnings thereon. Participants may borrow from their fund in accordance with the plan.

e. *Payment of Benefits.* On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or they may choose various installment payment options. If, however, the vested account balance is less than $5,000, then they may only receive a lump sum payout.

f. *Administrative Expenses.* Administrative expenses incurred are the responsibility of the Plan, except for certain expenses that must be paid by the Company based upon the law.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the cash basis of accounting which approximates the accrual basis of accounting. Differences between the two methods are not significant.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Plan management has evaluated subsequent events through October 17, 2011, the date the financial statements are available for issuance, for inclusion or disclosure in the financial statements.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

4. Fair Value Measurements (continued)

Mutual Funds: Valued at the net asset value (NAV) of the shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual Fund Accounts	$ 1,388,796	-	-	$ 1,388,796
Interest-bearing cash	106	-	-	106
Total assets at fair value	$ 1,388,902	-	-	$ 1,388,902

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual Fund Accounts	$ 985,438	-	-	$ 985,438
Interest-bearing cash	330,462	-	-	330,462
Total assets at fair value	$ 1,315,900	-	-	$ 1,315,900

5. Related-Party Transactions

The Plan investments are shares of funds held and managed by Fidelity. Fidelity is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these investments are open market transactions at fair value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA and applicable exemptions promulgated thereunder.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 11, 1994, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing authorities; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The plan invests in various investments. These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of these investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	**$ 1,450,066**	$ 1,374,889
Net assets available for benefits per the Form 5500	**$ 1,450,066**	$ 1,374,889

The following is a reconciliation of benefits paid to participants per the financial statement for the year ended December 31, 2010, to Form 5500:

Benefits paid to participants per the financial statements	$ 325,733
Benefits paid to participants per Form 5500	$ 325,733

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, 2010, but not yet paid as of that date.
