Note 1 - Plan Description

The following description of Veritas Steel, LLC 401(k) Retirement Savings Plan (f/k/a PDM Bridge, LLC 401(k) Retirement Savings Plan) (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Veritas Steel, LLC (the "Company"), except for non-resident aliens, leased employees and union employees whose retirement benefits are provided for under a collective bargaining agreement. Employees are eligible to participate in the Plan on the first day of the month following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In July 2013, Dynamic Structural Steel, LLC was merged into PDM Bridge, LLC. As a result of this transaction, the Dynamic Structural Steel, LLC 401(k) Plan, with assets of $82,477, was merged into this Plan.

During 2013, Veritas Steel, LLC was formed to purchase certain assets of PDM Bridge, LLC. As a result of this transaction, Veritas Steel, LLC became the Plan's sponsor. After the transaction the PDM Bridge, LLC 401(k) Retirement Savings Plan was amended and restated to become the Veritas Steel LLC 401(k) Retirement Savings Plan.

Contributions - The Plan provides for employee salary 401(k) deferral contributions up to 90 percent of annual compensation subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in addition to their regular deferral contributions. The previously mentioned contributions are not subject to federal income tax until withdrawn. Participants may also make Roth 401(k) contributions, which are subject to taxation in the year they are made, but not at the time of withdrawal.

With the consent of the plan administrator, participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides for discretionary employer matching contributions. In 2013, employer discretionary matching contributions were equal to 50 percent of a participant's contribution, not to exceed 3 percent of the participant's compensation.

The Company may also make additional discretionary profit sharing contributions. Participants must have worked at least 500 hours during the plan year or be employed on the last day of the plan year in order to receive an allocation of the profit sharing contributions. No such contributions were made in 2013.

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contributions, and allocations of the employer contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are 100 percent vested in all employee contributions plus any earnings thereon. Participants are 100 percent vested in the employer matching and profit sharing contributions, plus earnings thereon, after one year of service.

Former participants of the Dynamic Structural Steel, LLC 401(k) Plan who had completed one year of service prior to the plan merger in July 2013 are 100 percent vested in all current and future employer matching and profit sharing contributions plus earnings thereon. Dynamic Structural Steel, LLC participants with less than one year of service at the time of the plan merger are 100 percent vested in all current and future employer matching and profit sharing contributions, plus earnings thereon, upon achieving one year of service.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Participants with vested balances over $5,000 may elect to receive installment payments over a period not to exceed the participant's life expectancy. In-service distributions may be made from a participant's vested account any time after reaching age 59 1/2. Hardship withdrawals are also permitted if certain criteria are met.

Forfeitures - If a participant is not fully vested on their termination date, the non-vested amount of the account is forfeited. Forfeitures may be used to offset the Plan's administrative expenses or future employer contributions. At December 31, 2013 and 2012, forfeited account balances totaled $40,390 and $32,216, respectively.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years. Loans for a principal residence can be paid over a reasonable period of time, which may exceed five years. The loans are secured by the vested balance in the participant's account and will bear a reasonable rate of interest, as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Note 1 - Plan Description (Continued)

Party-in-Interest Transactions - Certain plan assets are in investment funds managed by State Street Bank & Trust Company or its affiliates. State Street Bank & Trust Company is a Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except for the Invesco Stable Asset Fund and the Federated Capital Preservation Fund, which are common collective trust funds stated at fair value with an adjustment to contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including May 11, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2013, the Plan changed trustees from Alerus Financial, N.A. to State Street Bank & Trust Company (collectively, the "Trustees"). The Trustees held the Plan's investments and executed all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by Alerus Financial, N.A. and Automatic Data Processing, Inc. on behalf of State Street Bank and Trust Company.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Note 4 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Funds - The Invesco Stable Asset Fund and the Federated Capital Preservation Fund are common collective trust funds that are stated at fair value with an adjustment to contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair values of the common collective trust funds are based on the fair value of the underlying net assets at the measurement date as determined by the issuer of the fund. The Plan's interests in the Invesco Stable Asset Fund and the Federated Capital Preservation Fund are based on its proportionate ownership interest in the fair value of the common collective trust funds.

The Invesco Stable Asset Fund and the Federated Capital Preservation Fund primarily hold guaranteed investment contracts and synthetic investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of fixed-income securities included in the synthetic investment contracts is determined by quoted market prices and/or using market data for similar instruments and transactions in establishing prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by a security-backed contract issuer is based on the replacement wrapper fee and the contracted wrapper fee. Participants may transfer in and out of the funds on a daily basis without prohibitive restrictions. There are no unfunded commitments to the funds.

Note 4 - Fair Value Measurements (Continued)

The SSgA S&P 500 Index Fund is a common collective trust fund that is valued at net asset value (NAV) per share. The NAV, as provided by the issuer, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the respective fund less its liabilities. The underlying assets of the SSgA S&P 500 Index Fund primarily consist of equity securities issued by U.S. companies that are valued based on quoted market prices. Participants may transfer in and out of this fund on a daily basis without prohibitive restrictions. There are no unfunded commitments to this fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(1) The objective of this investment is to preserve capital and provide a stable return over the life of the fund.

(2) The objective of this investment is to approximate as closely as practicable, before expenses, the performance of the S&P 500 Index over the long term.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy at the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2013.

Note 5 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.
