NOTES TO FINANCIAL STATEMENTS**

NOTE 1. DESCRIPTION OF PLAN

The following description of Kath Fuel Oil Service Co. (the Sponsor or Employer) and the Kath Fuel Oil Service Co. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all full-time employees of the Sponsor and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a "salary reduction plan", typically referred to as a "401(k) plan". Under the Plan, participants may choose to reduce their compensation and have these amounts contributed to the Plan on their behalf.

Plan Year:

The Plan's current fiscal year runs from January 1, 2014 to December 31, 2014.

Eligibility:

All full-time employees are eligible to participate in the Plan upon attaining the age of 21 and meeting minimum service requirements. Part-time employees are excluded.

Contributions:

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants may contribute up to 15% of annual compensation, as defined in the Plan document, contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Employer contributes 30% of the first 6% of base compensation that a participant contributes to the Plan.

Funding:

Employee contributions are withheld from the Sponsor's payroll. Participant withholdings and matching employer contributions are funded by the Sponsor following each payroll period.

Participant Loans:

The Plan does not allow participant loans.

401(k) PROFIT SHARING PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN (continued)

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Benefit Payments:

On termination of services due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account balance, or in other installments as defined by the Plan. For termination of services for other reasons, a participant may receive the value of their vested account balance in a lump-sum distribution.

Forfeited Accounts:

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$3,979 and \$1,385, respectively. These accounts will first be used for Plan expenses, with any remainder to be used to reduce future employer contributions. During 2014 and 2013 there were \$120 and \$623 of forfeitures used to pay Plan expenses, respectively.

Administrative Expenses:

The Plan Sponsor pays the majority of expenses associated with the administration of the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

**KATH FUEL OIL SERVICE CO.
401(k) PROFIT SHARING PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully-benefit responsive investment contracts.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements. Purchases and sales of investment units are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on investments bought and sold, as well as held during the year.

Payment of Benefits:

Benefits are recorded when paid.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results may differ from those estimates.

Subsequent Events:

In preparing these financial statements, the Sponsor has evaluated events and transactions for potential recognition or disclosure through April 30, 2015, the date the financial statements were available to be issued.

NOTE 3. TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income examination for years prior to 2010.

NOTE 4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is funded with a group annuity contract. Contributions are made on behalf of Plan participants and include salary deferrals, employer contributions, and employee contributions. The accumulated contributions are then invested in the investment options selected by the participants. Minnesota Life Insurance Company maintains the Plan's assets as follows:

Group Annuity Contract: The Plan has a fully benefit-responsive investment contract with Minnesota Life Insurance Company as of December 31, 2014 and 2013. Minnesota Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the Statements of Net Assets Available for Benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Minnesota Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Due to the nature of the fully benefit-responsive investment contract held by the Plan, fair value approximates contract value, therefore, there is no adjustment required.

The fair value of the annuity contract at December 31, 2014 and 2013 was approximately \$487,000 and \$595,000, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon by the issuer, but may not be less than 1.5% at December 31, 2014 and 2013.

**KATH FUEL OIL SERVICE CO.
401(k) PROFIT SHARING PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS**

NOTE 4. INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The average yields as of December 31, 2014 and 2013 were as follows:

	<u>2014</u>	<u>2013</u>
Based on actual earnings	1.55%	1.80%
Based on rate credited to participants	1.55%	1.81%

Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, may limit the Plan's ability to transact at contract value with Minnesota Life Insurance Company. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

NOTE 5. FAIR VALUE MEASUREMENT

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounting principles are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5. FAIR VALUE MEASUREMENT (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued using the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year end.

Group annuity contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations as the group annuity contract.

The following table sets forth the Plan's assets at fair value as of December 31, 2014 and 2013.
