NOTES TO THE FINANCIAL STATEMENTS
AUGUST 14, 2014 AND DECEMBER 31, 2013**

1. DESCRIPTION OF THE PLAN

The following description of 401K Safe, LLC Multiple Employer 401(k) Plan – Jack Ingram Motors, Inc. (the Plan) provides only general information. Participants should refer to the plan document and their respective employer's adoption agreement for a complete description of the Plan's provisions as it applies to them.

General

The Plan was established on January 1, 2010, and is a multiple employer plan maintained by 401K Safe, LLC (the Sponsor) as a defined contribution plan. With the consent of the Sponsor, a company (worksite employer) may adopt the Plan by executing an adoption agreement. The provisions of the Plan as applicable to the worksite employer and its employees are based on the selections of the worksite employer with respect to the variable features provided for in the adoption agreement. The Company, Jack Ingram Motors, Inc., adopted the Plan on October 1, 2011. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. Plan management determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Eligibility

Employees are eligible to participate in the Plan after completing one year of service and attaining age 21. Eligible employees can begin participating on the first day of each calendar quarter.

Contributions

Each year, participants may contribute up to 100% of pretax compensation (up to the Internal Revenue Service (IRS) maximum allowable amount), as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The matching contributions may be contributed by the Company at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Company. No profit sharing contributions were made in 2014. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the worksite employer's matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO THE FINANCIAL STATEMENTS
AUGUST 14, 2014 AND DECEMBER 31, 2013**

1. DESCRIPTION OF THE PLAN – CONTINUED

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeited Accounts

At August 14, 2014 and December 31, 2013, forfeited nonvested accounts totaled \$0. Forfeited nonvested accounts, when available, will be used to reduce future employer contributions. Also, in 2014, employer contributions were reduced by \$0 from forfeited nonvested accounts.

Notes Receivable from Participants

Participants may borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by the plan administrator based on prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest are paid ratably through payroll deductions.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant (or designated beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a fixed reasonable period of time, not to exceed the life expectancy of the participant. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of August 14, 2014. If a participant ceases to make loan repayments, and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events and their potential effects on these financial statements through June 8, 2015, which is the date the financial statements were available to be issued.

3. INVESTMENT INFORMATION

All investment information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at August 14, 2014 and December 31, 2013, and net appreciation in fair value of investments and interest for the period ended August 14, 2014, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Lincoln National Life Insurance Company (the custodian).

The following presents investments that represent 5% or more of the Plan's net assets at August 14, 2014 and December 31, 2013:

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at August 14, 2014 and December 31, 2013.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities, divided by the number of participation units outstanding.

Guaranteed interest contract: Valued at contract value which represents the amount Plan participants would receive currently if they were to initiate a transaction under the terms of the ongoing Plan. Fair value represents contract value adjusted to reflect current market interest rates only to the extent such markets rates exceed crediting rates.

5. INVESTMENT CONTRACT WITH LINCOLN NATIONAL LIFE INSURANCE COMPANY

The Plan had fully benefit-responsive investment contracts with Lincoln National Life Insurance Company (Lincoln). Lincoln maintained the contributions in a general account. The account was credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by Lincoln. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contracts were fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contracts are presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the insurance company, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

**401K SAFE, LLC MULTIPLE EMPLOYER 401(k) PLAN –
JACK INGRAM MOTORS, INC.
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 14, 2014 AND DECEMBER 31, 2013**

**5. INVESTMENT CONTRACT WITH LINCOLN NATIONAL LIFE INSURANCE COMPANY –
CONTINUED**

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at August 14, 2014 and December 31, 2013, was \$0 and \$1,096,704, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. There is no minimum crediting rate in the contract. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contracts are as follows:

	<u>2014</u>	<u>2013</u>
Based on actual earnings	2.59%	2.60%
Based on interest rate credited to participants	0.94%	1.63%

6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and guaranteed accounts managed by Lincoln, and certain administrative fees related to the administration of the Plan were paid by the Plan; these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services and administrative services amounted to \$27,106 for the period ended August 14, 2014.

**401K SAFE, LLC MULTIPLE EMPLOYER 401(k) PLAN –
JACK INGRAM MOTORS, INC.
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 14, 2014 AND DECEMBER 31, 2013**

7. PLAN TERMINATION

On June 16, 2014, the Company entered into a transfer agreement by which the Plan was terminated and a successor plan, Jack Ingram Motors, Inc. 401(k) Plan, was adopted effective January 1, 2014. The blackout period, during which participants were temporarily unable to access their accounts to direct or diversify investments or obtain distributions, was for the period August 12, 2014 through September 12, 2014, and Plan assets were liquidated and transferred to The Guardian Insurance & Annuity Company, Inc. on August 14, 2014.

8. TAX STATUS

The Plan obtained its latest determination letter on September 8, 2013, in which the IRS stated that the Plan and related trust, as then designed, were in compliance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
